Gabriela Cunninghame- Graham

Together Is Better Simon Sinek, 2016-09-13 Simon Sinek sparked a movement with his bestsellers *START WITH WHY* and *LEADERS EAT LAST*. Now this beautifully illustrated book will inspire more readers to ask for help, help others, and discover their own courage through a charming story about change. Life is a series of choices. Do we go left or right? Jump forward or hold back? Sometimes our choices work out for the better...and sometimes they don't. But there is one choice, regardless of every other decision, that profoundly affects how we feel about our journey: Do we go alone or do we go together? It is the courageous few who ask for help. It is the giving few willing to help others. We can all find the courage we need and know the joy of service – the minute we learn that together is better. Filled with inspiring quotes, this richly illustrated fable tells a delightful story of three kids who go on a journey to a new playground and take a stand for what they believe. The story is a metaphor for anyone looking to make a change or wondering how to pursue their dreams. And the message is simple: relationships – real, human relationships – really, really matter. The stronger our relationships, the stronger the bonds of trust and cooperation, the more we can accomplish and the more joy and fulfillment we get from our work and personal lives. The three heroes are archetypes who represent us all at various points in our lives. Their main challenge is the same one we face every day: How can we find the things we're looking for? According to Sinek, if we each do our part to help advance a shared vision, we can build the world we imagine. In addition to the story itself, Sinek shares such profound lessons as: · A team is not a group of people that work together. A team is a group of people that trust each other. · Fight against something and we focus on the thing we hate. Fight for something and we focus on the thing we love. · Working hard for something we don't care about is called stress. Working hard for something we love is called passion. · A star wants to see himself rise to the top. A leader wants to see those around him become stars. *Together is Better* was designed to be given as a gift to someone you want to inspire, or to say thank you to someone who inspires you. It's completely different from Sinek's previous work. It may look like a children's book, but it's definitely for adults. This book includes a special page featuring the Scent of Optimism.

More Powerful Together Jen Gobby, 2020-07-25T00:00:00Z How can social movements help bring about large-scale systems change? This is the question Jen Gobby sets out to answer in *More Powerful Together*. As an activist, Gobby has

been actively involved with climate justice, anti-pipeline, and Indigenous land defense movements in Canada for many years. As a researcher, she has sat down with folks from these movements and asked them to reflect on their experiences with movement building. Bringing their incredibly poignant insights into dialogue with scholarly and activist literature on transformation, Gobby weaves together a powerful story about how change happens. In reflecting on what's working and what's not working in these movements, taking inventory of the obstacles hindering efforts, and imagining the strategies for building a powerful movement of movements, a common theme emerges: relationships are crucial to building movements strong enough to transform systems. Indigenous scholarship, ecological principles, and activist reflections all converge on the insight that the means and ends of radical transformation is in forging relationships of equality and reciprocity with each other and with the land. It is through this, Gobby argues, that we become more powerful together. 100% of the royalties made from the sales of this book are being donated to Indigenous Climate Action www.indigenousclimateaction.com

Together with Technology Jason Swarts, 2017-03-02 This book examines the complex roles that texts serve as parts of an organizational cognitive infrastructure. Texts make knowledge and experience tangible and durable. They help shape interactions between people. As professions have become more writing-centered in recent decades, many organizations have instituted writing review practices to help newcomers produce better writing and thus become more effective organizational citizens. Dr. Swarts examines those writing review practices and questions whether available supportive technologies adequately prepare professional writers and professionals who write to appreciate the complex functions their texts serve. He reports on a study of the impact of two technologies (paper text and textual replay) on writing review. Unlike paper, which presents texts in a static form, textual replay presents texts as the products of writing practices. Textual replay records onscreen writing activity and creates a video that writers and reviewers use to supplement their discussion of revisions.

Working Together Mikki Hebl, Eden King, 2024 We were prompted to write this book based on three recurring questions from our various audiences, who range from undergraduates to executive MBA students, from entry-level workers to seasoned professionals, and from the general public to the C-suites of organizations--

Curveballs Emma Markezic, 2019-05-01 Because sometimes, life is going to suck, and you're going to have to know how to handle it... What happens when you step on one of the great Lego pieces of life? When you get blind-sided? Thrown a curveball? When you get divorced? Or someone dies? You're going to need something more than the diarrhoea-like progression of motivational quotes we get fed on Instagram - you're going to need real-world ways to deal with a big, fat let-down. Because one will come for you, eventually. And when one came for comedian and journalist Emma Markezic in the form of a nasty cancer, despite the fact she found herself bald, broke and living alone, she felt more alive than ever. So she wanted to know why... Why does trauma affect us in such different ways? Why are some people more resilient than others?

Why was she handling cancer better than other people handle a paper cut and, more importantly, was it a skill she could teach? When she wrote an article about how learning she might die made her the happiest she'd ever been, it became a media sensation and she knew she was onto something. With dozens of expert brain morsels and more than a little humour, *Curveballs* is a memoir-meets-self-help manual for how to keep it together when life tries to tear you a new one. Because you'll want to be more resilient than a tardigrade in outer space when it does*. *Microscopic eight-legged animals that can withstand 1000 times more radiation than humans, live for 100 years without water and literally just hang out in space like freeloaders at a Vegas buffet. See... you learned something already!
