Learn Spanish Garcia Ammons, 2016-12-28 Are you ready to learn 1000+ spanish words in the next 60 minutes? You've probably been wasting time studying. If you've been using traditional language learning tools like classes or software to teach you Spanish - I can almost guarantee it. These classes focus on memorization, basic vocabulary, routine phrases and conversations. And, naturally, these are all important. But, here's the thing - Most traditional Spanish classes are missing critical information that could save you hours of time and effort. It's what these courses DON'T teach you that leads to hours of unnecessary time wasted studying. They don't teach you the critical principles that allow you to master the knowledge in minutes - NOT hours. (by the way, if you've had difficulty learning, it's probably because you didn't have the right methods to make it easy). You might not believe this, but: You can significantly improve your Spanish vocabulary, right now. Instead of wasting time studying using traditional methods, you could be using effective techniques to increase your vocabulary TODAY. These methods will show you how you can learn hundreds of new Spanish words in less time than it takes you to eat lunch, AND know them forever, not just for a few minutes or long enough to take the test. How is this possible? Let me explain. I've found proven strategies for increasing your learning speed - habits, techniques, and tactics that will put the jet fuel in your language learning. These strategies were not easy to find. And guess what? I'm a native bilingual speaker! I personally use these to make connections between large sets of words, and learn new ones without hours of memorization (even in other languages like French and Italian). I can promise you that these high-leverage techniques will save you time and put you on the fast-track towards fluency in Spanish. But know this - This is not a 'How to Learn Spanish from Scratch' book. Not even close. What it is: a condensed guide that shows you the best practices for rapidly increasing your vocabulary and becoming fluent in Spanish. I've kept the book short and easy to understand, so that you can get started using these as soon as possible! (I'm trying to save you time after all, not make you read another 300+ page book). So, I've laid out the overlooked principles, common pitfalls, and language shortcuts in a way that anyone can understand and start using immediately. What's inside Introduction Tip # 1: Latin Is Your Friend Tip # 2: The Dialect Dilemma Tip # 3: The Components of Language Learning Tip # 4: Ditch the Dictionary! Tip # 5: Avoid Programmed Conversations Tip # 6: Practice Conversing with a Conversation Swap Tip # 7: Invest in an App Tip # 8: Word Endings Are Your Friend The 7 simple Language Shortcuts to learn 1000+ words quickly Language Shortcuts The core of this book is the list of what I call language shortcuts that are

consequences of the similarities between English and Spanish. For example: English words that end in -ant stem from a certain group of words that also exist in most other romance languages. In particular, these words also exist in Spanish, but the suffix of the words in Spanish is -ante instead of -ant. So the English word arrogant translates to arrogante in Spanish. The word brilliant translates to brillante, and so on. So, don't waste anymore time. Change your strategy, and take yourself to the next level - get yourself a copy of this book right now.

Spanish Hacks Leisy Algarra, Andrés Maldonado, 2020-05-28 How can I increase my Spanish vocabulary? And how can I get it faster? Spanish Hacks is the answer to these questions. One of the main reasons why we feel frustrated when we are learning a language is the lack of vocabulary to express our ideas and thoughts. Quickly acquiring large amounts of vocabulary can be a huge challenge if you use a bad method, but it can be very easy if you use cognates, look at these words: legal (Eng.) and legal (Spa.), both mean the same, or these: visionary (Eng.) and visionario (Spa.) their writing is very similar and its meaning is the same. Spanish Hacks has 1000 words with these characteristics organized as flashcards, waiting for you to take your Spanish to a pro level.

1000 Spanish Words in Context Alex Forero, 2016-02-08 1000 Spanish Words in Context: A Self-Study Guide for

Spanish Language Learners I have put together a comprehensive list of the 1000 most used words in Spanish with Spanish and English sentences. Learning a language really takes time and effort. Don't be fooled. On going dedication really will get you through. You can use this list to build up your knowledge of Spanish words. It is a comprehensive list fully illustrated with examples of the words in English and Spanish to give you a good idea of how to use the word. How to use this book The list here is long. Is it too long? No. However you need to know how to use it properly to maximize your learning. I recommend setting yourself achievable targets to make sure you stay on track with your learning. You could aim to learn ten words (or less if you wish) a day. Five in the morning and five for the afternoon with the evening to check you remember them all. That may sound a lot to learn but consider all the times you have free when you could quickly learn a new verb. For example on the bus, waiting for the bus, on the toilet (when there are very few distractions!), during your lunch break, when you wake up in bed, when eating your breakfast, just before you shower (to practice in the shower), when you are waiting for someone... the list goes on and so do your opportunities to learn. So don't be overwhelmed by learning a new language. Set yourself small daily goals and time will fly. Before you know it you will find yourself with an extensive vocabulary. Finally I want to say that I will hopefully add to the book so check for updates. If there's good demand and feedback I will offer more. Good luck!

Learn Spanish For Adults Books Patrick Jackson,2021-01-27 If you want to know what's the one big lie that multi-million dollar companies of foreign-language learning products have told us for years, then keep reading....For decades, the multi-million dollar companies of foreign-language learning products have told us a big lie.... They've lied to us all and said anyone can become fully conversational or even fluent in a foreign language just by learning a few hundred words or less. As a life-long student of foreign language-learning and having dedicated the better part of my adult life helping others to learn Spanish, I can tell you that's complete hogwash! The big companies tell us this lie so they can put as little effort as possible in creating their programs - which for them means being able to make as much money as possible. There was a time when I actually believed that ridiculousness. That I could become fully conversational in Spanish or even fluent just by learning a few hundred words. That was before I moved to Colombia and was hit with a bombshell.... While living in Colombia, I realized the more Spanish words I learned, the more Spanish I was able to speak and understand. And the more Spanish that I was able to speak and understand, the more confidence I had communicating with Spanish speakers. And the more confidence I had, the more effective I became communicating in Spanish. This book will help you accomplish your goal of speaking Spanish with greater confidence by adding hundreds or even thousands of Spanish words to your vocabulary. What's included in your book?: 1,000 Spanish Words 99 Spanish Conversations 150 Spanish Idioms Bonus Romantic Spanish Words & Phrases Bonus Spanish-Blunders-To-Avoid To add hundreds or even thousands of words to your Spanish vocabulary and accomplish your goal of speaking conversational Spanish with much greater confidence, this is what you need to do now...
