Playing Outdoors: Spaces and Places, Risk and Challenge Helen Tovey, 2007-11-16 For all members of the Leave No Child Inside movement who are engaged with early childhood—as educators, child care providers, nature center staff, parents, landscape designers, or pediatricians—this book is an essential resource. Louise Chawla, Children and Nature Network, USA What do children learn through playing outdoors? What makes an effective and challenging play space? What is a safe environment and can children be too safe? How can adults best support challenging play outdoors? Young children seek adventure and challenge in their play outdoors. They look for places they can explore and spaces they can transform. However, provision for exciting and challenging play outdoors is often restricted because of an over-emphasis on safety, and also because the value of play outdoors is not well understood. This book offers a clear rationale for why outdoor play is essential in young children's lives and learning. It asks fundamental questions about what sort of environments we want for young children, as well as examining controversial issues of risk and safety. The author identifies key principles underpinning the design of challenging outdoor play environments and examines how children use and transform space to create their own imaginary worlds. The essential role of the adult in supporting and extending children's free play is examined and implications for practice identified. This book makes an important contribution to current debates on risk, safety and challenge in outdoor environments for young children. It brings together research from a range of different disciplines, as well as illustrative examples of children's play and talk outdoors. Playing Outdoors is inspiring reading for early childhood practitioners, students, play workers, parents, policy makers and all those seeking to develop challenging outdoor play areas.

Love, Risk and Return Paul J Gallagher, 2025-09-16 Pam O'Rourke's second marriage is on the rocks. In a last bid to salvage it, she stands on the precipice of moving home to Ireland with her husband Craig. The decision is no small

sacrifice—she’s leaving behind the community she built in Canada over seventeen years, and a prestigious job as an interior designer. But there’s another reason she hesitates to make the move: It means saying goodbye to Liam, the true love of her life. After divorcing her first husband many years ago, a chance meeting with Liam brought passion, laughter, and true affection back into her life. The timing wasn’t ideal—Liam was married, and Pam wasn’t ready to commit to something new—but the spark between them was too powerful to ignore. As Pam reflects on her illicit relationship with Liam, and the events that brought her to the moment of her departure from Canada, she wonders if she made the right choices along the way—and whether her connection with Liam can survive the ocean that stands between them.
