Integrating Art Therapy and Yoga Therapy Karen Gibbons, 2015-05-21 This dynamic approach to therapy combines yoga and art to heal the whole person - body, mind and spirit - through the use of intention. In this practical guide art therapists will learn how to incorporate yoga poses, mudras and meditation, and yoga therapists to introduce art directives, into individual and group clinical work for a more holistic healing process. Readers will discover the parallels that exist between the two modalities, and how to use a specific intention as a framework for structuring sessions, with the aim of reaching a deeper level of healing in their clinical work. Guidelines for staying within each modality's scope of practice and working ethically are included, as well as an extensive Practice Chart, which shows how to match treatment concerns with an intention, mudra meditation, yoga poses and art activity. Ideal for art therapists looking to expand and enhance their

practice, this book will also appeal to yoga therapists and teachers with an interest in art-based techniques. Although primarily meant for therapists, it is also accessible for individuals looking for self-improvement.

The Art of Reception Jacobus Bracker,Ann-Kathrin Hubrich,2021-03-05 This book deals with processes of reception in visual arts. Images (in the broadest sense) from different cultures and times are examined. The volume focuses on two key interpretations of reception. On the one hand, reception is understood as a concept of repetition and revision spanning different cultures and time periods. On the other hand, reception is also seen as the process of perceiving images. Both ways of understanding can be described by the metaphor of migration of images: in the first case, images migrate from one medium to another; in the second case, they migrate from the artefact into the human body. The contributions to this volume cover a variety of approaches coming from different disciplines such as Ancient Oriental philology, English and American studies, classical studies, classical archaeology, communication studies, cultural studies, art history, aesthetics, literature, media studies, philosophy, journalism, Romance studies, sociology, Near Eastern archaeology, prehistory, and classical studies.
