**EMU Integration and Member States' Constitutions** Stefan Griller, Elisabeth Lentsch, 2021-02-25 In this book, legal scholars from the EU Member States (with the addition of the UK) analyse the development of the EU Member States' attitudes to economic, fiscal, and monetary integration since the Treaty of Maastricht. The Eurozone crisis corroborated the warnings of economists that weak economic policy coordination and loose fiscal oversight would be insufficient to stabilise the monetary union. The country studies in this book investigate the legal, and in particular the constitutional, pre-conditions for deeper fiscal and monetary integration that influenced the past and might impact on the future positions in the (now) 27 EU Member States. The individual country studies address the following issues: - Main characteristics of the national constitutional system, and constitutional culture; - Constitutional foundations of Economic and Monetary Union (EMU) membership and related instruments; - Constitutional obstacles to EMU integration; - Constitutional rules and/or practice on implementing EMU-related law; and - The resulting relationship between EMU-related law and national law Offering a comprehensive and detailed assessment of the legal and constitutional developments concerning the Economic and Monetary Union since the Treaty of Maastricht, this book provides not only a study of legal EMU-related measures and reforms at the EU level, but most importantly sheds light on their perception in the EU Member States.

**National Constitutions in European and Global Governance: Democracy, Rights, the Rule of Law** Anneli Albi, Samo Bardutzky, 2019-05-29 This two-volume book, published open access, brings together leading scholars of constitutional law from twenty-nine European countries to revisit the role of national constitutions at a time when decision-making has increasingly shifted to the European and transnational level. It offers important insights into three areas. First, it explores how constitutions reflect the transfer of powers from domestic to European and global institutions. Secondly, it revisits substantive constitutional values, such as the protection of constitutional rights, the rule of law, democratic participation and constitutional review, along with constitutional court judgments that tackle the protection of these rights and values in the transnational context, e.g. with regard to the Data Retention Directive, the European Arrest Warrant, the ESM Treaty, and EU and IMF austerity measures. The responsiveness of the ECJ regarding the above rights and values, along with the standard of protection, is also assessed. Thirdly, challenges in the context of global governance in relation to judicial review, democratic control and accountability are examined. On a broader level, the contributors were also invited to

reflect on what has increasingly been described as the erosion or ‘twilight’ of constitutionalism, or a shift to a thin version of the rule of law, democracy and judicial review in the context of Europeanisation and globalisation processes. The national reports are complemented by a separately published comparative study, which identifies a number of broader trends and challenges that are shared across several Member States and warrant wider discussion. The research for this publication and the comparative study were carried out within the framework of the ERC-funded project ‘The Role and Future of National Constitutions in European and Global Governance’. The book is aimed at scholars, researchers, judges and legal advisors working on the interface between national constitutional law and EU and transnational law. The extradition cases are also of interest to scholars and practitioners in the field of criminal law. Anneli Albi is Professor of European Law at the University of Kent, United Kingdom. Samo Bardutzky is Assistant Professor of Constitutional Law at the University of Ljubljana, Slovenia.

**Por qué soy liberal** Diego Sánchez de la Cruz, 2017-02-07 Defender hoy en día las ideas liberales tiene mucho mérito estando como estamos, aleccionados sobre los males que una excesiva libertad implica, infectados por el virus del populismo en el seno de la izquierda europea y acomplexados por ideas proteccionistas y antiliberales en la derecha. Y si este alegato viene además de un representante de las nuevas generaciones de jóvenes liberales, la valía e interés que ha de suscitar es

todavía mayor. Por qué soy liberal se articula en tres grandes bloques. En el primero de ellos, Sánchez de la Cruz analiza el progreso que han conllevado las ideas liberales allí donde se han aplicado y aporta datos que refutan muchas de las críticas al capitalismo. En el segundo, aborda las grandes amenazas de nuestros días, el populismo, el declinismo, el igualitarismo, el probismo y el anticapitalismo, al tiempo que denuncia las trampas argumentales de los enemigos de la libertad. Para finalizar, plantea los grandes retos a los que se enfrentan tanto el sector público como el privado. Un libro valiente y necesario, escrito por una de las voces más prometedoras del periodismo económico español, que demuestra pasión por la libertad y por un sistema que se erige en la mejor opción que tenemos para obtener mejoras sociales y económicas en nuestro país.
