The Magic of Terry Pratchett Marc Burrows, 2020-07-30 An in-depth look into the life and writings of the bestselling author of the Discworld novels, *Good Omens*, and *Nation*. *The Magic of Terry Pratchett* is the first full biography of Sir Terry Pratchett ever written. Sir Terry was Britain's bestselling living author*, and before his death in 2015 had sold more than 85 million copies of his books worldwide. Best known for the Discworld series, his work has been translated into thirty-seven languages, and performed as plays on every continent in the world, including Antarctica. Journalist, comedian and Pratchett fan Marc Burrows delves into the back story of one of UK's most enduring and beloved authors, from his childhood in the Chiltern Hills, to his time as a journalist, and the journey that would take him—via more than sixty best-selling books—to an OBE, a knighthood and national treasure status. *The Magic Of Terry Pratchett* is the result of painstaking archival research alongside interviews with friends and contemporaries who knew the real man under the famous black hat, helping to piece together the full story of one of British literature's most remarkable and beloved figures for the very first time. * Now disqualified on both counts. Praise for *The Magic of Terry Pratchett* In this encompassing biography of the prolific fantasy and science-fiction author, writer and comedian Burrows details both the writing accomplishments and the personal life of Sir Terry Pratchett. . . . Burrows spoke to friends and family, and this biography has moments of sadness, especially when discussing Pratchett's fight with Alzheimer's. But the book is also funny and conversational in tone, and an excellent tribute to a beloved author." —Booklist "Affable and consistently engaging . . . Burrow's buoyant, pun-peppered, and aptly footnote-flecked style . . . helpfully marries his subject matter, propelling us through decade after decade of a heavily writing-centric life while illuminating Pratchett's complexities and contradictions without any drag in the tempo." —Locus Magazine "An impressively comprehensive, engagingly written biography. ****"—SFX

The study examines an eclectic range of retellings from the East and West from the 19th century until the present, among them orientalized picturebook versions of Beauty and the Beast and Bluebeard; Disney's animated classics; Asian versions of Hans Christian

Andersen's *The Little Mermaid*; Gene Luen Yang's graphic novel *American Born Chinese*; and the fantasy films of Hayao Miyazaki. Drawing on theories of globalization, cognitive narratology, subjectivity, and eastern thought, the book reveals new implications for intertextual analysis.
