Irish Policing Courtney Marsh, 2022-10-03 This book examines the organisational culture of the Irish police service, speaking in particular to those interested in policing organisations and organisational culture. It is set against a backdrop of considerations such as community policing, police accountability, the management of change in Irish policing, and where the Irish police situates itself in relation to police organisations internationally. An Garda Síochána, the national police service of the Republic of Ireland, has a stated community policing style which focuses on an interactive relationship with the community and results in a largely unarmed policing organisation which makes it different to most police organisations. Yet, the author argues that the organisational culture has prevented them from embodying community policing across the organisation. Exploring the organisation's historical context and how they are trained, this book draws on new research and data spanning 30 years including tribunals and reports to examine the organisational culture over time including potential misconduct, blame culture, and resistance to change within the organisation, in order to provide a more thorough understanding of a relatively unknown policing organisation.

The Feedback-Friendly Classroom Deborah McCallum, 2015-12-11 Learning is inherently social, built on the daily interactions in the classroom. What if feedback — from teacher to student, between students, from student to teacher — could be seen as essential to the ongoing process that defines the learning environment? This groundbreaking book explores using feedback to help students become better learners, examines the crucial use of verbal and nonverbal language to engage and guide students, and shows strategies and activities to establish and promote effective feedback within the classroom and beyond.

Legends & Lore of New Brunswick Mark Neurohr-Pierpaoli, 2024-10-07 Folktales, hidden treasures and witchcraft. The towering skyline of New Brunswick stands in stark contrast with the swampy cedar forest it emerged from in the late 1600s. While the city grew over the original Lenape settlement of Ahanderamock, its history was passed on through whispers of tales both real and imagined. In the Buccleuch Mansion, a skeletal figure dressed as a British Grenadier is said to stagger the halls with a lantern, and at Rutgers University tales of secret societies swirl through campus. Long-lost pirate treasures, some rumored to be connected to mysterious clues etched in stone, remain undiscovered to this day. Author Mark Neurohr-Pierpaoli uncovers the mysterious stories lurking below the surface of New Brunswick.

The Arts of China After 1620 William Watson, Chuimei Ho, 2007-01-01 This handsome book is the first in a major three-volume series that will survey China's immense wealth of art, architecture, and artefacts from prehistoric times to the twentieth century. The Arts of China to AD 900 investigates the beginnings of the traditions on which much of the art rests, moving from Neolithic and Bronze Age China to the era of the Tang Dynasty around AD 900.

Psalms 101-150, Volume 21 Leslie C. Allen, 2018-04-24 The Word Biblical Commentary delivers the best in biblical scholarship, from the leading scholars of our day who share a commitment to Scripture as divine revelation. This series emphasizes a thorough analysis of textual, linguistic, structural, and theological evidence. The result is judicious and balanced insight into the meanings of the text in the framework of biblical theology. These widely acclaimed commentaries serve as exceptional resources for the professional theologian and instructor, the seminary or university student, the working minister, and everyone concerned with building theological understanding from a solid base of biblical scholarship. Overview of Commentary Organization Introduction—covers issues pertaining to the whole book, including context, date, authorship, composition, interpretive issues, purpose, and theology. Each section of the commentary includes: Pericope Bibliography—a helpful resource containing the most important works that pertain to each particular pericope. Translation—the author's own translation of the biblical text, reflecting the end result of exegesis and attending to Hebrew and Greek idiomatic usage of words, phrases, and tenses, yet in reasonably good English. Notes—the author's notes to the translation that address any textual variants, grammatical forms, syntactical constructions, basic meanings of words, and problems of translation. Form/Structure/Setting—a discussion of redaction, genre, sources, and tradition as they concern the origin of the pericope, its canonical form, and its relation to the biblical and extra-biblical contexts in order to illuminate the structure and character of the pericope. Rhetorical or compositional features important to understanding the passage are also introduced here. Comment—verse-by-verse interpretation of the text and dialogue with other interpreters, engaging with current opinion and scholarly research. Explanation—brings together all the results of the discussion in previous sections to expose the meaning and intention of the text at several levels: (1) within the context of the book itself; (2) its meaning in the OT or NT; (3) its place in the entire canon; (4) theological relevance to broader OT or NT issues. General Bibliography—occurring at the end of each volume, this extensive bibliography contains all sources used anywhere in the commentary.

The greening of golf Brad Millington, Brian Wilson, 2016-04-20 Golf is a major global industry. The sport is played by more than 60 million people worldwide and there are more than 32,000 courses in 140 countries across the globe. This book looks at the power relationships in and around golf, examining whether the industry has demonstrated sufficient leadership on environmental matters to be trusted to make weighty decisions with implications for public and environmental health. The first comprehensive study of the varying responses to golf-related environmental issues, it is based on extensive empirical work, including research into historical materials and interviews with stakeholders in golf such as course superintendents,

protesters and health professionals. The authors examine golf as a sport and as a global industry, drawing on and contributing to literatures pertaining to environmental sociology, global social movements, institutional change, corporate environmentalism and the sociology of sport. Infringement Nation John Tehranian, 2011-03-31 Written on the occasion of copyright's 300th anniversary, John Tehranian's *Infringement Nation* presents an engaging and accessible analysis of the history and evolution of copyright law and its profound impact on the lives of ordinary individuals in the twenty-first century. Organized around the trope of the individual in five different copyright-related contexts - as an infringer, transformer, pure user, creator and reformer - the book charts the changing contours of our copyright regime and assesses its vitality in the digital age. In the process, Tehranian questions some of our most basic assumptions about copyright law by highlighting the unseemly amount of infringement liability an average person rings up in a single day, the counterintuitive role of the fair use doctrine in radically expanding the copyright monopoly, the important expressive interests at play in even the unauthorized use of copyright works, the surprisingly low level of protection that American copyright law grants many creators, and the broader political import of copyright law on the exertion of social regulation and control. Drawing upon both theory and the author's own experiences representing clients in various high-profile copyright infringement suits, Tehranian supports his arguments with a rich array of diverse examples crossing various subject matters - from the unusual origins of Nirvana's *Smells Like Teen Spirit*, the question of numeracy among Amazonian hunter-gatherers, the history of stand-offs at papal nunciatures, and the tradition of judicial plagiarism to contemplations on Slash's criminal record, Barbie's retroussé nose, the poisonous tomato, flag burning, music as a form of torture, the smell of rotting film, William Shakespeare as a man of the people, Charles Dickens as a lobbyist, Ashley Wilkes's sexual orientation, Captain Kirk's reincarnation, and Holden Caulfield's maturation. In the end, *Infringement Nation* makes a sophisticated yet lucid case for reform of existing doctrine and the development of a copyright 2.0.

Against the Friars Tim Rayborn, 2014-10-23 The friars represented a remarkable innovation in medieval religious life. Founded in the early 13th century, the Franciscans and Dominicans seemed a perfect solution to the Church's troubles in confronting rapid changes in society. They attracted enthusiastic support, especially from the papacy, to which they answered directly. In their first 200 years, membership grew at an astonishing rate, and they became counsellors to princes and kings, receiving an endless stream of donations and gifts. Yet there were those who believed the adulation was misguided or even dangerous, and who saw in the friars' actions only hypocrisy, deceit, greed and even signs of the end of

the world. From the mid-13th century, writings appeared denouncing and mocking the friars and calling for their abolition. Their French and English opponents were among the most vocal. From harsh theological criticism and outrage at the Inquisition to vulgar tales and bathroom humor, this thoroughly documented work is suitable for the newcomer, as well as for readers who are familiar with the subject but might like to investigate specific topics in more detail.
