The Tenets of Cognitive Existentialism Dimitri Ginev, 2011-09-20 In *The Tenets of Cognitive Existentialism*, Dimitri Ginev draws on developments in hermeneutic phenomenology and other programs in hermeneutic philosophy to inform an interpretative approach to scientific practices. At stake is the question of whether it is possible to integrate forms of reflection upon the ontological difference in the cognitive structure of scientific research. A positive answer would have implied a proof that (pace Heidegger) "science is able to think." This book is an extended version of such a proof. Against those who claim that modern science is doomed to be exclusively committed to the nexus of objectivism and instrumental rationality, the interpretative theory of scientific practices reveals science's potentiality of hermeneutic self-reflection. Scientific research that takes into consideration the ontological difference has resources to enter into a dialogue with Nature. Ginev offers a critique of postmodern tendencies in the philosophy of science, and sets out arguments for a feminist hermeneutics of scientific research.

Word Court Barbara Wallraff, 2012-09-24 The "witty and accessible" bestseller by the Atlantic Monthly editor who rules on linguistic disputes (San Francisco Chronicle). Atlantic Monthly senior editor Barbara Wallraff first began answering grammar questions on AOL in the 1990s, and the site's success soon morphed into a regular magazine feature. In *Word Court*, Wallraff moves beyond her column to preside over common and uncommon cases, establishing rules for such issues as turns of phrase, slang, name usage, punctuation, and newly coined vocabulary. With true wit, she deliberates and decides on the right path for lovers of language, ranging from classic questions (is "a historical" or "an historical" correct?) to awkward issues (How long does someone have to be dead before we should all stop calling her "the late"?). The result is a warmly humorous, reassuring, and brilliantly perceptive tour of how and why we speak the way we do. "A logophile's delight." —San Diego Union-Tribune "Her approach to language is a beguiling mix of charm and research" —USA Today
