

Golden Age Of The Moor

AW Chickering

Golden Age of the Moor Ivan Van Sertima, 1992 This work examines the debt owed by Europe to the Moors for the Renaissance and the significant role played by the African in the Muslim invasions of the Iberian peninsula. While it focuses mainly on Spain and Portugal, it also examines the races and roots of the original North African before the later ethnic mix of the blackmoors and tawny Moors in the medieval period. The study ranges from the Moor in the literature of Cervantes and Shakespeare to his profound influence upon Europe's university system and the diffusion via this system of the ancient and medieval sciences. The Moors are shown to affect not only European mathematics and map-making, agriculture and architecture, but their markets, their music and their machines. The ethnicity of the Moor is re-examined, as is his unique contribution, both as creator and conduit, to the first seminal phase of the industrial revolution.

The Islamist Challenge and Africa Samory Rashid, 2018-11-15 The Islamist Challenge and Africa explores Islamist militancy in Africa south of the Sahara, perhaps the most dangerous region in the world today. It examines Islamist militancy's longstanding presence among Africans, its distinct ideological features and ways to minimize if not eliminate its violence. It warns policy makers to abandon marginalizing Africa before it is too late.

Lost to Time Martin W. Sandler, 2010-12-07 Stories that history forgot...but readers will remember "The only thing new in the world," said Harry S. Truman, "is the history you don't know." In this fresh and fascinating collection of historical vignettes, Martin W. Sandler (author of *Resolute* and *Atlantic Ocean*) restores to memory important events, people, and developments that have been lost to time. Though barely known today, these are major historical stories, from Ziryab, an eighth-century black slave whose influence on music, cuisine, fashion, and manners still reverberates, to Cahokia, a 12th century city north of the Rio Grande, which at its zenith contained a population estimated to have been as high as 40,000 (more than any contemporary European city), to the worst peacetime maritime disaster ever, the explosion and sinking of the Sultana on the Mississippi in 1865. These tales are far from trivia; they illuminate little-known American and foreign achievements, ingenuity, heroics, blunders, and tragedies that changed the course of history and resonate today.

Merlin's Secret Robert N. List,1999-05-20 Merlin's Secret reopens the debate involving the diffusionist proposal of the non-Aryan (East African, Egyptian, North African, and Near Eastern) origins of early Britons who inhabited the British Isles from the Neolithic period to the arrival of the Anglo-Saxons. It also questions the possibility of mixed African, Asiatic, and European origins for the numerous Moorish immigrants, Gypsies, and other Norman families who arrived during the Middle Ages and the Renaissance. Robert N. List not only follows the work of numerous scientists, anthropologists, historians, linguists, poets, and ethnologists, who have argued the case for non-Aryan, and mixed-Aryan origins of many inhabitants, but examines the emergence of a cometary religion in the early British Isles. He proposes a new synthesis of the evidence of Afroasiatic cultural imports that influenced language, art, and religion in the early British Isles. This revisionist synthesis brings together evidence that should stimulate a complete reexamination of the ethnic complexity of the British Isles.
