Risk Management Framework for Fourth Industrial Revolution Technologies Omoseni Oyindamola

Adepoju,Nnamdi Ikechi Nwulu,Love Opeyemi David,2024-10-24 This book focuses on major challenges posed by the Fourth Industrial Revolution (4IR), particularly the associated risks. By recognizing and addressing these risks, it bridges the gap between technological advancements and effective risk management. It further facilitates a swift adoption of technology and equips readers with the knowledge to be cautious during its implementation. Divided into three parts, it covers an overview of 4IR and explores the risks and risk management techniques and comprehensive risk management framework specifically tailored for the 4IR. Features: • Establishes a risk management framework for Industry 4.0 technologies. • Provides a 'one stop shop' of different technologies emerging in the Fourth Industrial Revolution. • Follows a consistent structure for each key Industry 4.0 technology in separate chapters. • Details required risk management skills for the technologies of the Fourth Industrial Revolution. • Covers risk monitoring, control, and mitigation measures. This book is aimed at graduate students, technology enthusiasts, and researchers in computer sciences, technology management, business management, and industrial engineering.

Introduction to Health and Safety at Work Phil Hughes,Ed Ferrett,2009 Introduction to Health and Safety at Work has been developed for the NEBOSH National General Certificate in Occupational Safety and Health. Each element of the syllabus has a dedicated chapter and both taught units are covered in this book. A chapter on international aspects also makes this book suitable for the NEBOSH International General Certificate in Occupational Safety and Health. Previous editions of this book have been used for other NVQ level 3 and 4 courses in health and safety. Full colour pages and hundreds of illustrations bring health and safety to life. To make studying easier, each chapter starts with learning outcome summaries and ends with questions taken from recent NEBOSH examinations. Specimen answers and a study skills chapter aid exam preparation. As an introduction to all areas of occupational safety and health the book acts as a practical reference for managers and directors with health and safety responsibilities, and safety representatives. It covers the essential elements of health and safety management, the legal framework, risk assessment and control standards and includes handy forms and checklists. New in this edition: Updated throughout in line with changes in the regulations Learning outcomes now

included at the beginning of each chapter Companion website with downloadable health and safety forms *Endorsed by NEBOSH *Student-friendly presentation in full colour, packed with illustrations and photographs *Revision questions and sample answers taken from recent NEBOSH examinations to test your knowledge *Includes a summary of the main legal requirements, ideal for both students and managers A free companion website is also available at: www.elsevierdirect.com/companions/9781856176682 and features: Editable health and safety forms Selected appendices sections in electronic format Phil Hughes MBE, MSc, CFIOSH, is a former Chairman of NEBOSH (1995-2001), former President of IOSH (1990-1991) and runs his own consultancy. He received an MBE for services to health & safety and as a director of RoSPA, in the New Years Honours List 2005. Ed Ferrett PhD, BSc (Hons Eng), CEng, MIMechE, MIET, CMIOSH, is a former Vice Chairman of NEBOSH (1999-2008) and a lecturer on NEBOSH courses at Cornwall Business School of Cornwall College. He is a Chartered Engineer and a health and safety consultant.

Challenges for Health and Safety in Higher Education and Research Organisations Olga Kuzmina, Stefan Hoyle, 2020-11-19 This book provides a summary of the main obstacles for creating and maintaining high standards of health and safety in higher education and research organisations. The obstacles include high staff turnover and an uncertain and constantly evolving research environment, small groups lacking unified management structure, deadline time pressures, restricted funding models and existing old school culture. Often the Health and Safety specialists and personnel managers in these organisations find themselves reiterating the same information, which gets lost as soon as the new cohort of workers arrives. Providing insight into methods of managing health and safety, training, and supervision, which help to build a strong and reliable health and safety system, this book is a collection of best practices from experienced safety professionals and researchers in Europe and the United States. These experiences demonstrate how health and safety professionals have overcome these issues and provide readers with ideas and models they can use in their own organisations. The information contained within is aimed at health and safety professionals and managers in universities and research organisations conducting scientific and engineering research with transient workers and students worldwide.
