Determinantes en la ejecución de la cartera de préstamos de inversión Guillermo Lagarda, Arnoldo Lopez, Patricia Nalvarte, Gabriel Castillo, Jennifer Linares, Reinaldo Cerdeira, Osmel Manzano, 2018-08-31 Con el objetivo de identificar brechas de eficiencia operativa tanto del Banco como de los prestatarios y presentar posibles mitigantes, se lleva a cabo un análisis integral que combina las experiencias operativas con la formalidad estadística para fundamentar sus recomendaciones. En concreto, las preguntas que se plantean para guiar este análisis pueden resumirse en: ¿Cuáles son las causas de los retrasos en la ejecución? ¿En qué medida el tiempo para desembolsar de un proyecto se atribuye a condicionantes externas (capacidades de los países)? y ¿Cuáles son atribuibles a condiciones internas (procesos y capacidades del BID)? Los retrasos en la ejecución se estiman contra los plazos originales de los proyectos, planeados al momento de su aprobación por el Banco.

Integrated Assessment of Climate Change Impacts and Urban Resilience Beniamino Russo, Eduardo Martínez-

Gomariz,2021-03-09 This book brings together recent research related to urban resilience, in particular, taking into account climate change impacts and hydrological hazards. Due to the complexity of our cities, which are vulnerable and continuously evolving systems, urban resilience should be considered as a transversal and multi-sectorial issue, affecting different urban services, several hazards, and all the steps of the risk management cycle. Within this context, the different pieces of research that form this book deal with the topics of multi-risk and urban resilience assessment, analysis of cascading effects, and the proposal and prioritization of adaptation measures and strategies to cope with climate-related hazards through multi-criteria analysis.

Función fiscalizadora del estado Jorge Mora Caldas,2007-06-01 La obra “ Función Fiscalizadora del Estado ” de 672 páginas, contiene la historia de ese control y su consagración en las constituciones de Colombia a partir de la de 1821, expedida en Cúcuta y sancionada por el Libertador, hasta la de 1991. Esa vigilancia la ejercieron las cortes o tribunales de cuentas y contadurías en forma deficiente y con increíble retardo hasta que, en el gobierno del General Pedro Nel Ospina Vásquez, aprovechando los veinticinco millones de dólares que dieran los Estados Unidos como indemnización por la separación de Panamá, se trajo a la Misión Kemmerer, presidida por el señor Edwin Walter Kemmerer con un equipo de expertos en economía, finanzas y cuestiones contables, habiéndose logrado mediante las leyes 34 y 42 de 1923 crear la Contraloría General y el Banco de la República. Posteriormente se organizó las seccionales de esas entidades. Con el aporte de distinguidos colombianos se ha venido actualizando ese control habiéndose adoptado el Estatuto unificado de la vigilancia fiscal. En el libro se hace referencia a las finanzas, a la economía, a la estadística, sobre la moneda y el cambio, y a la hacienda pública que está formada por los bienes muebles, inmuebles, títulos, valores, inversiones, contratos, licitaciones del orden nacional, seccional y municipal como sobre el presupuesto por programas acorde con las sugerencias de la ONU para darle un sentido social en las inversiones. Esa vigilancia fiscal se la venía haciendo a través del control previo, perceptivo, posterior y administrativo sobre el presupuesto de rentas y gastos, pero, los constituyentes, sin pensar en el grave daño que diera origen a la corrupción galopante que existe, acabaron con el control previo y perceptivo consagrando en la constitución de 1991 sólo el control posterior y por ello los centenares de alcaldes y otros funcionarios aparecen sancionados por la procuraduría, la contraloría e investigados penalmente, toda vez que el título XV del Libro II del Código Penal consagra once capítulos sobre los delitos contra la administración pública. Se estudia las funciones que corresponde al contralor general de la república y a las seccionales sobre la vigilancia de la gestión fiscal de la administración pública. Se comenta la organización de sus dependencias como organismo técnico, contable y autónomo. En cuanto a la de Nariño, fue fundada mediante ordenanza número 24 de 18 de julio de 1935. El autor se refiere a la gestión de los contralores seccionales desde

1935 hasta 1970, habiendo ejercido él, ese cargo, durante dos periodos consecutivos. Asistió a los congresos de contralores y con destacadas personalidades formó parte del Consejo Consultivo permanente de Contralores de Colombia.

Maps of Quality of Life in Argentina Since the 19th Century Juan Pablo Celemin, Guillermo Angel Velázquez, 2022-10-12 The book is presented as an Atlas where the map plays a fundamental role in the study of quality of life, as it shows its progression in Argentina from the 19th to the 21st Century. In the book, it can be observed how the concept has evolved along with the dimensions and variables that better represent its spatial distribution. This is one of the original points of the book: the temporal study of the living conditions of the Argentine population, empirically and spatially, emphasizing their territorial representation. Although the book maintains the same socioeconomic dimensions (education, health and housing), the tour through the different chapters offers a historical window that allows the reader to know what the forms of information collection were like in different historical moments. This book is written for geographers and members of the scientific community interested in the study of the well-being of the population. It also allows us to observe the evolution of the quality of life from the 19th century to the 21st, so it may be of interest to historians as well.

Litio en la Argentina Andrés López, Martín Obaya, Paulo Pasquini, Adrián Ramos, 2019-02-11 El litio se ha convertido en uno de los recursos que más interés despierta a nivel mundial . Esto ocurre tanto entre las empresas que participan de las

industrias extractivas o de la química, que ven allí una oportunidad atractiva de negocios, como en los países que tienen reservas dentro de su territorio, que aspiran a atraer inversiones y generar eslabonamientos productivos. También entre aquellos que utilizan el metal como insumo en sus procesos productivos se ha vuelto crítico asegurarse una provisión que acompañe el crecimiento de sus actividades –en muchos casos, asociándose incluso con empresas que se especializan en la fase de extracción y procesamiento inicial. La Argentina se encuentra entre los países con mayor potencial para beneficiarse del creciente interés por el litio ya que forma parte, junto con Bolivia y Chile, de un espacio geográfico privilegiado, conocido como el “triángulo del litio”. El presente documento examina las oportunidades y restricciones que existen para la construcción de eslabonamientos productivos y tecnológicos con potencial para generar capacidades e impactos positivos para la Argentina, y en particular para las provincias en donde se localizan las reservas respectivas.
