Construir teoría Valerie Magar Meurs, Renata Schneider Glantz, 2018

Clases de teoría literaria Isabel Vassallo, 2022-10-01 Como señala la autora en las páginas preliminares de esta obra, la intención al escribirlo ha sido dar cierta perdurabilidad al acto docente que puse en juego cuando enseñé teoría de la literatura, que es también enseñar literatura. De aquí el subtítulo: Huellas de una experiencia. Se trata de la experiencia docente, enriquecida y profundizada a lo largo de los numerosos años del dictado de la materia y recogida en el libro, que guarda sus rastros, sus huellas. No es este, entonces, un manual de teoría literaria, sino una selección de problemas y escuelas teóricas que la autora efectúa al momento de articular un curso de iniciación en este campo del saber, dirigido a futuros docentes en Letras. El libro está orientado a proporcionar a quienes enseñarán (o enseñan ya) literatura, a modo de sustrato imprescindible, herramientas para su desempeño docente y un horizonte de conocimientos que con seguridad no pueden serles indiferentes. Lo que hace a la originalidad de esta publicación es el hecho de que se estructura teniendo en cuenta no sólo la progresión conceptual y metodológica propia de las clases, en la que cobra muchas veces importancia el seguimiento pormenorizado de textos fundantes (la lectura de las fuentes), sino también el estilo atribuible al género clase, ese discurso en el que abundan las digresiones, las preguntas, la ejemplificación, cierta lógica asociativa y en que se prefiere el temblor [...] de la duda antes que la rígida certeza de la aserción.

The Routledge Handbook of Violence in Latin American Literature Pablo Baisotti, 2022-02-28 This Handbook brings

together essays from an impressive group of well-established and emerging scholars from all around the world, to show the many different types of violence that have plagued Latin America since the pre-Colombian era, and how each has been seen and characterized in literature and other cultural mediums ever since. This ambitious collection analyzes texts from some of the region's most tumultuous time periods, beginning with early violence that was predominately tribal and ideological in nature; to colonial and decolonial violence between colonizers and the native population; through to the political violence we have seen in the postmodern period, marked by dictatorship, guerrilla warfare, neoliberalism, as well as representations of violence caused by drug trafficking and migration. The volume provides readers with literary examples from across the centuries, showing not only how widespread the violence has been, but crucially how it has shaped the region and evolved over time.

Estética y teoría de las artes Friedrich Wilhelm Nietzsche, 2004 Al afirmar que el arte es la actividad fundamental de la vida, Nietzsche pone la estética en el centro de su filosofía. Este lugar privilegiado de la estética se mantiene a lo largo de toda la meditación del filósofo. Así, en sus primeros escritos, el mundo es un dios que se redime de su dolor y contradicción creando el ámbito de la apariencia, de modo que la existencia es contemplada como la obra de arte surgida de la fuerza primordial: Dionisio habla el lenguaje de Apolo. En sus últimos escritos la realidad es concebida como una serie de fuerzas múltiples que, debido a su exceso de poder, tienden también a la transfiguración, a la creación. La lectura de teoría estética se hace, por tanto, necesaria para comprender el núcleo del pensamiento del filósofo del eterno retorno. Este libro, que se abre con un prólogo a modo de introducción general a la estética de Nietzsche, reúne por primera vez los fragmentos relativos a esa materia del filósofo de la voluntad de poder. Los textos han sido extraídos en su mayor parte de escritos póstumos. Además, los fragmentos están dispuestos por capítulos que se corresponden con los principales temas de su pensamiento estético: Dioniso y Apolo, la justificación estética de la existencia, el arte como estimulante de la vida, el artista y la obra de arte, el gran estilo, lo clásico y lo romántico. El libro se completa con un capítulo compuesto con los fragmentos dedicados a la teoría sobre las diversas artes particulares.

The Study of Photography in Latin America Nathaniel Gardner, 2025-06-17 In this book Nathaniel Gardner provides an insider's perspective to the study of photography in Latin America. He begins with a carefully structured introduction that lays out his unique methodology for the book, which features over eighty photographs and the insights from sixteen prominent Latin American photography scholars and historians, including Boris Kossoy, John Mraz, and Ana Mauad. The work reflects the advances and developments of the study of photography throughout Latin America with certain emphasis on Brazil and Mexico. The author further underlines the role of important institutions and builds context by discussing influential theories and key texts that currently guide the discipline. The Study of Photography in Latin America is critical to all who want to expand their current knowledge of the subject and engage more robustly with its experts.

Valle-Inclán y las artes Margarita Santos Zas, Javier Serrano Alonso, Amparo de Juan Bolufer, 2012 The 25 presented works, whose authors are recognized experts in the field of valleinclanismo and/or the arts, are divided into three sections, based on themes that give unitary sense to each. The first, Art and Representation in the Work of Valle-Inclán, is grouped into four sections: Literature in image, Music and Dance, Visual Arts and Performing Arts; the second, Valle-Inclán and Art, addresses aesthetic and poetic thought; and the third deals with the Image of Valle-Inclán, i.e., the writers and artists who recorded their specific languages. Overall, either from a general or theoretical perspective, both in its concrete praxis or conjugate both the richness of relationships derived from that fruitful symbiosis of art-literature, which permeates and covers the work of the Galician writer--Publisher.
