[Biblical Theology](#) Jonathan Menn,2025-11-21 Biblical Theology: The Story of the Christ covers the overall biblical storyline and shows in detail how the entire Bible ultimately is about Christ. This book does what no other book on biblical theology does: it details Christ's pre-incarnate appearances in the Old Testament, how he appears in prophecy, and how he appears typologically. More than that, the book shows how Christ is the fulfillment of all that Old Testament Israel and its major institutions were pointing to, including the Abrahamic, Davidic, and new covenants, the nation itself, the tabernacle and temple, sacrificial system and priesthood, law, Sabbath, and feasts. Because Jesus Christ is at the heart of the biblical story, is its main character, and holds the entire Bible together, the book concludes with two important appendices: Appendix 1 shows how Christ is fully God and fully man and discusses why that is important; Appendix 2 explains the Christian doctrine that God is Trinity, showing how that idea is neither incoherent nor illogical but clearly emerges from the Bible and is reasonably understandable. In fact, because God is Trinity, trinitarian concepts have been designed into all levels of reality, from the microscopic to the macroscopic.

Liberty and Insanity in the Age of the American Revolution Sarah L. Swedberg,2020-12-04 In *Liberty and Insanity in the Age of the American Revolution*, Sarah L. Swedberg examines how conceptions of mental illness intersected with American society, law, and politics during the early American Republic. Swedberg illustrates how concerns about insanity raised difficult questions about the nature of governance. Revolutionaries built the American government based on rational principles, but could not protect it from irrational actors that they feared could cause the body politic to grow mentally or physically ill. This book is recommended for students and scholars of history, political science, legal studies, sociology, literature, psychology, and public health.

War and the Works of J.R.R. Tolkien Janet Brennan Croft, 2004-06-30 Having participated in the First World War, and having seen two of his sons serve in the Second, Tolkien was concerned with many of the same themes that interested other writers in the post-war period. The rhythm of war flows through his writings, but his own interpretation of the themes, symbols, and motifs of war, however, were influenced by his religious views and his interest in fantasy, which add another layer of meaning and a sense of timelessness to his writing. Croft explores the different aspect of Tolkien's relationship with war both in his life and in his work from the early Book of Lost Tales to his last story Smith of Wooten Major, and concentrating on his greatest and most well-known works The Hobbit and The Lord of the Rings. This timely addition to the critical literature on Tolkien sheds new light on the author's life and works. Tolkien, one of the world's most beloved authors, was a World War I signaling officer who survived the Battle of the Somme, and two of his sons served during World War II. Such experiences and events lead Tolkien to a complex attitude toward war and military leadership, the themes of which find their way into his most important writings. His fiction, criticism, and letters demonstrate a range of attitudes that would change over the course of his life. In the end, his philosophy on human nature and evil, and the inevitability of conflict, would appear to be pragmatic and rational, if regretful and pessimistic. Still, Croft is able to uncover a strain of hopefulness, as befitted his Catholicism, about the ultimate fate of the human soul. She concludes that his personal life and values informed his reading and his writing and the way in which he interpreted his own experiences. This valuable consideration of war in the life of Tolkien is essential reading for all readers interested in deepening their understanding of this great writer.

Continuity and Change in Text and Image at Chichén Itzá, Yucatán, Mexico Erik Boot, 2005 The archaeological site of Chichén Itzá, one of the best known ancient Maya cities, is located in the northern section of the Yucatán peninsula in Mexico. Chichén Itzá has figured prominently in both past and present discussions on the Terminal Classic and Early Postclassic periods in the northern Maya lowlands. Based on archaeological information and information derived from ethnohistorical sources, this city can be dated to a period from circa A.D. 700 to circa A.D. 1250, with its apogee placed between about A.D. 800 to A.D. 1050. The past and present discussions were directed specifically towards the origin of the inhabitants of the city, the arrival of K'uk'ulkán (Feathered Serpent), the origin of non-Mayan (Toltec) architecture and

sculptural programmes at the site, and the model of its political organization. The centre of Chichén Itzá is dominated by a raised platform, which harbours buildings now known as El Castillo (The Castle), the Great Ballcourt, and the Temple of the Warriors. These buildings contain various non-Mayan architectural and sculptural traits. Buildings south of the centre, erected in a regional Maya style, contain a large number of inscribed monuments (mostly lintels) carrying long hieroglyphic texts, which provide Chichén Itzá with the largest corpus of surviving inscriptions in the northern Maya lowlands. Chichén Itzá figures prominently in a wide range of ethnohistorical sources from the Colonial period, such as the *Relación de las Cosas de Yucatán* by Fray Diego de Landa and the *Relaciones Geográficas* by various authors, all in Spanish, and the so-called Books of Chilam Balam of Chumayel, Maní, and Tizimín, all in Yucatec Maya. In this study Erik Boot discusses the southern Maya lowland origin of the inhabitants of Chichén Itzá, the arrival of K'uk'ulkán and the introduction of so-called Toltec architecture and iconography, the identification of both gods and human beings in the inscriptions, and the political organization at Chichén Itzá. He presents extensive and detailed analyses of architectural and sculptural programmes, hieroglyphic inscriptions, and the Yucatec Maya chronicles from the Books of Chilam Balam.

Torah in the Observatory Menachem Marc Kellner,2010 by Gersonides: Providence, Mosaic Prophecy, Miracles, the Messiah and Resurrection, Astronomy and Metaphysics, Politics and Perfection. It is not by chance that Menachem Kellner has devoted so much to the study of Gersonides. Like Gersonides, Kellner has firmly in hand the knowledge of the Bible and of the traditional literature of Judaism, he is well trained in philosophy and science, and his broad interests make him the best and most penetrating champion of a great philosopher and an outstanding student of human thought. Colette Sirat, directeur d'etudes a l'Ecole Pratique des Hautes Etudes Sorbonne et chercheur associe a l'Institut de Recherche et d'Histoire des Textes --Book Jacket.

God Needs No Passport Peggy Levitt,2007 A provocative examination of how new realities of religion and migration are subtly challenging the very definition of what it means to be an American. Sociology professor Levitt argues that immigrants no longer trade one membership card for another, but stay close to their home countries, indelibly altering American religion and values with experiences and beliefs imported from Asia, Latin America and Africa. The book is a pointed response to Samuel Huntington's famous clash of civilisations thesis and looks at global religions' organisation for the first time.
