The Hate U Give Angie Thomas,2017-02-28 8 starred reviews · Goodreads Choice Awards Best of the Best · William C. Morris Award Winner · National Book Award Longlist · Printz Honor Book · Coretta Scott King Honor Book · #1 New York Times Bestseller! Absolutely riveting! —Jason Reynolds Stunning. —John Green This story is necessary. This story is important. —Kirkus (starred review) Heartbreakingly topical. —Publishers Weekly (starred review) A marvel of verisimilitude. —Booklist (starred review) A powerful, in-your-face novel. —Horn Book (starred review) Sixteen-year-old Starr Carter moves between two worlds: the poor neighborhood where she lives and the fancy suburban prep school she attends. The uneasy balance between these worlds is shattered when Starr witnesses the fatal shooting of her childhood best friend Khalil at the hands of a police officer. Khalil was unarmed. Soon afterward, his death is a national headline. Some are calling him a thug, maybe even a drug dealer and a gangbanger. Protesters are taking to the streets in Khalil's name. Some cops and the local drug lord try to intimidate Starr and her family. What everyone wants to know is: what really went down that night? And the only person alive who can answer that is Starr. But what Starr does—or does not—say could upend her community. It could also endanger her life. Want more of Garden Heights? Catch Maverick and Seven's story in *Concrete Rose*, Angie Thomas's powerful prequel to *The Hate U Give*.

Some of My Friends Are. Deborah Plummer,2019-01-22 A thoughtful examination of cross-racial friendships—how to

develop them, why they're difficult to maintain, and how they foster meaningful conversations about race. Surveys have shown that the majority of people believe cross-racial friendships are essential for improving race relations. However, further polling reveals that most Americans tend to gravitate toward friendships within their own race. Psychologist Deborah L. Plummer examines how factors such as leisure, politics, humor, faith, social media, and education influence the nature and intensity of cross-racial friendships. Inspiring and engaging, Plummer draws from focus groups, statistics, and surveys to provide insight into the fears and discomforts associated with cross-racial friendships. Through personal narratives and social analyses of friendship patterns, this book gives an insightful look at how cross-racial friendships work and fail within American society. Plummer encourages all of us to examine our friendship patterns and to deepen and strengthen our current cross-racial friendships. "If you have ever wondered why genuine cross-racial friendships are challenging to develop and maintain in our racially polarized society, and why they are essential to racial reconciliation, read this thoughtful book!" —Beverly Daniel Tatum, author of *Why Are All the Black Kids Sitting Together in the Cafeteria?*

Common Sense: A Book for Conservatives & Liberals & Moderates to Unite for an Even Better America an Oregonian physician, 2014-07-09 There's an international rating of countries by how corrupt they are, called the Corruptions Perceptions Index--from least corrupt at #1 to most corrupt at #175. The USA is #19 from least corrupt--tied with Uruguay. Not bad maybe, but we can do better. The reason we're not higher is how much special interests control our government. This book suggests some reforms to discuss and consider to end corruption, such as proportional representation, public campaign financing, term limits, ranked-choice and none of the above voting, and combining these with a long-term federal balanced budget and just and fair and simple taxation. Many of these require Constitutional Amendments. But Congress proposes Amendments, and the incumbents in Congress are unlikely to propose these reforms, because they would change how the people in Congress become incumbents in the first place. However, our Founding Framers gave us a solution for just this problem: the states calling an Article V Convention to Propose Amendments.

Behind Closed Doors Jessica L. Peck, 2022-10-18 Believe it or not, your kids WANT to talk to you about the social and health challenges they're facing. But are you ready? Jessica Peck, a pediatric nurse practitioner and mom of four, helps parents escape the secrecy and shame surrounding tough conversations and approach them from a Christian foundation. Today's teens are feeling more isolated, anxious, and depressed than previous generations, and are struggling with more complex challenges. Jessica Peck (DNP, APRN) has spent countless hours advising and encouraging parents after talking to their teens behind closed doors. In the privacy of her exam room, she has treated teens with mental illnesses, responded to suicide attempts, treated self-harm wounds as well as the emotional trauma of cyberbullying, sexting, pornography addictions, and numerous other issues. Through it all, Jessica found that teens really want to talk to their parents but don't know how. Jessica seeks to move the private conversations that happen in the clinic to relationship-building conversations at

home. Behind Closed Doors is a guided lifeline to help you strengthen your connection with your kids. You will be able to: Get professional advice on tough teenage issues from a medical perspective, as well as the true stories of patients Discover suggested settings, activities, and question prompts to give you conversation keys to unlock doors for open dialogue on tough issues with your teens Share a time of reflection with devotional readings, relevant Bible verses, Scripture-based prayers, themed music playlists, and more Prompts to write 12 Legacy Letters: a generational keepsake for teens Covering topics including mental health, social media, suicide, sexting, gender identity, substance abuse (with a chapter focusing on vaping), and more, Jessica Peck's book will encourage and strengthen all parents—married, single, or divorced; grandparents, stepparents, godparents, bonus parents, adopted parents—anyone who is serving a parental role in a teen's life.

Multi-Tiered Systems of Support Lesley Sylvan, 2020-10-13 Many school-based speech-language pathologists (SLPs) deal with large caseloads and limited resources. Taking on additional workload by implementing multi-tiered systems of support (MTSS) can seem overwhelming. Multi-Tiered Systems of Support: Implementation Tools for Speech-Language Pathologists in Education offers practical research-based tools that school-based SLPs can use to balance the high demands of their job with supporting general education students. This professional resource provides answers to a range of questions about policy implications, applicability of the framework to a speech-language pathologist's role in schools, and how an SLP can implement MTSS in their practice. Part I breaks down the important concepts of MTSS, while Part II is designed as an SLP MTSS Toolkit, featuring the collective wisdom of practitioners and researchers in the field. Throughout the text, readers will also find real-world snapshots of MTSS in action based on the experiences of actual SLPs in the field. Disclaimer: Please note that ancillary content (such as documents, audio, and video, etc.) may not be included as published in the original print version of this book.

What Does Injustice Have to Do with Me? David Nurenberg, 2020-05-15 Why should we care about the education of privileged white students? Conversations about education in America focus near-exclusively on underprivileged, majority-minority schools for many important reasons. What Does Injustice Have to Do With Me? , however, argues that such efforts cannot succeed in creating a more just and equitable society without also addressing the students who benefit from America's educational, economic and racial inequities. These young people grow up to wield disproportionate power and influence, yet emerge undereducated and poorly prepared to navigate, let alone shape, our increasingly diverse country. David Nurenberg weaves together narrative from his twenty years of suburban teaching with relevant research in education and critical race theory to provide practical, hands-on strategies for educators dealing with challenges unique to high-powered suburban, urban and independent schools: affluent myopia, white fragility, the empathy gap, overinvolved parents, overcautious administrators and an "if it isn't broke, don't fix it" mentality. Despite high test scores and college acceptances, many schools serving affluent white students are indeed broken. Social justice education for privileged white students is not

only critical for our society, but also for helping those students themselves emerge from a culture of anxiety and cynicism to find meaning, purpose and self-confidence as activist allies.

Coping with Racial Profiling Del Sandeen, 2019-07-15 Racial profiling isn't just a problem for one group of people. It's a problem for everyone in America, and the world. The underlying racism that contributes to profiling is a serious issue for people of all colors. This insightful book presents facts and statistics to counter damaging myths, giving readers perspective to understand how racial profiling can happen and what to do about it. Readers will learn how to push back against discrimination, what to do if they ever feel they are a victim of racial profiling, and how to handle the emotional toll that racism causes.

Gun Violence and Gun Control: Critical Engagements Annette Bailey, Thomas Harrison, Rebecca Jaremko Bromwich, 2022-06-09 This interdisciplinary anthology explores a wide range of intersecting issues contributing to and arising from gun violence. Millions of people are hurt and killed by gun violence globally, and the traumatic realities of these events are navigated by individuals and communities widely. In this context, gun violence fundamentally threatens social functioning in significant ways, and profoundly test the resilience of families. The resulting transformations carry social, political, legal and economic implications for mothering, family dynamics, and community engagement. This collaborative volume brings together diverse perspectives intended to deconstruct perceptions, realities, risks and impacts of gun violence, as seen by researchers, educators, community advocates, public health/health care experts, criminologists, social workers, field-based practitioners, and victims/survivors of gun violence. The distinct and broad range of contributions in this volume critically unpacks representations, stress and trauma, resilience, advocacy/activism, policymaking, family functioning, social justice and equity, governmentality and the criminal justice system, public health/health care, and community programs/interventions. Ultimately, the work is a unique contribution to the literature in which there is a lack of wide academic consideration of gun violence and a demonstrably unsatisfactory political response stretching back decades.

My First Recession Geert Lovink, 2003 My First Recession starts when the party is over. This study maps the transition of critical Internet culture from the mid-to-late 1990s Internet craze to the dotcom crash, the subsequent meltdown of global financial markets, and 9/11. In his discussion of the dotcom boom-and-bust cycle, Geert Lovink lays out the challenges faced by critical Internet culture today. In a series of case studies, Lovink meticulously describes the ambivalent attitude that artists and activists take as they veer back and forth between euphoria and skepticism. As a part of this process, Lovink examines the internal dynamics of virtual communities through an analysis of the use of moderation and collaborative filtering on mailing lists and weblogs. He also confronts the practical and theoretical problems that appear as artists join the growing number of new-media education programs. Delving into the unexplored gold mines of list archives and weblogs,

Lovink reveals a world that is largely unknown to both the general public and the Internet visionaries.

Designing Highly Useable Software Jeff Cogswell, 2004-03-15 Learn What Usability Really Is, Why to Strive for It, and How to Achieve It Highly useable software is easy to use. It does what you expect it to. And it does it well. It's not easy to build but as this book demonstrates, it's well worth the effort. Highly useable software is highly successful software--and everyone wins. Inside, an accomplished programmer who has made usability his business systematically explores the world of programming, showing you how every aspect of the work is implicated in the usability of the final product. This is not just an issues book, however, but systematic, real-world instructions for developing applications that are better in every way. As you'll learn, there's no such thing as intuitive software. Instead, there are just the factors that make it highly useable: simplicity, consistency, the recognition of accepted conventions, and the foregrounding of the user's perspective. With these principles under your belt, you'll quickly discover dozens of ways to make your applications more useable: Making windows and dialog boxes easy to comprehend and use Designing software that is time- and resource-efficient Making your software easy to navigate Reducing the complexity of reports and other presentations of data Understanding how the wrong programming decisions can limit usability Ensuring smooth starts and stops Capitalizing on the usability advantages of object-oriented programming Understanding how usability affects your product's financial success Using the testing process to improve usability Promoting usability in training, installation, and online help Making management decisions that will benefit software usability Some chapters are written primarily for programmers, one primarily for managers. Most are for everyone, and all are filled with illuminating, usually amusing examples drawn from both inside and outside the technical world. A helpful appendix provides information on standards, usability groups, and sources for more information.
