Language and National Identity in Asia Andrew Simpson, 2007-08-30 Language and National Identity in Asia is a comprehensive introduction to the role of language in the construction and development of nations and national identities in Asia. Leading scholars from all over the world investigate the role languages have played and now play in the formation of the national and social identity in countries throughout South, East, and Southeast Asia. They consider the relation of the regions' languages to national, ethnic, and cultural identity, and examine the status of and interactions between majority, official, and minority languages. Illustrated with maps and accessibly written this book will interest all those concerned to understand the dynamics of social change in some of the most important countries in the world. It will appeal to all those studying, researching, or teaching issues in Asian society, language, and politics from a comparative perspective.

Myanmar's Education Reforms Marie Lall, 2020-11-02 This book reviews the state of education in Myanmar over the past decade and a half as the country is undergoing profound albeit incomplete transformation. Set within the context of Myanmar's peace process and the wider reforms since 2012, Marie Lall's analysis of education policy and practice serves as a case study on how the reform programme has evolved. Drawing on over 15 years of field research carried out across Myanmar, the book offers a cohesive inquiry into government and non-government education sectors, the reform process, and how the transition has played out across schools, universities and wider society. It casts scrutiny on changes in basic education, the alternative monastic education, higher education and teacher education, and engages with issues of ethnic education and the debate on the role of language and the local curriculum as part of the peace process. In so doing, it gives voice to those most affected by the changing landscape of Myanmar's education and wider reform process: the students and parents of all ethnic backgrounds, teachers, teacher trainees and university staff that are rarely heard.

Myanmar's Buddhist-Muslim Crisis John Clifford Holt, 2019-09-30 Myanmar's Buddhist-Muslim Crisis is a probing search into the reasons and rationalizations behind the violence occurring in Myanmar, especially the oppressive military campaigns waged against Rohingya Muslims by the army in 2016 and 2017. Over more than three years John Holt traveled around Myanmar engaging in sustained conversations with prominent and articulate participants and observers. What emerges from his peregrinations is a series of compelling portraits revealing both deep insights and entrenched misunderstandings. To understand the conflict, Holt must first accurately capture the viewpoints of his different conversation

partners, who include Buddhists and Muslims, men and women, monks and laypeople, activists and scholars. Conversations range widely over issues such as the rise of Buddhist nationalism; the sometimes enigmatic and unexpected positions taken by Aung San Suu Kyii; use of the controversial term “Rohingya”; the impact of state-sponsored propaganda on the Burmese public; resistance to narratives emanating from international media, the United Nations, and the international diplomatic community; the frustrations of local political leaders who have felt left out of the policy-making process in the Rakhine State; and the constructive hopes and efforts still being made by forward-looking activists in Yangon. Three main perspectives emerge from the voices he listens to, those of Arakanese Buddhists who are native to Rakhine (once called Arakan), where much of the conflict has taken place; Burmese Buddhists (or Barmars), who make up the vast majority of Myanmar’s population; and the Rohingya Muslims, whose tragic story has been widely disseminated by the international media. What surfaces in conversation after conversation among all three groups is a narrative of siege: all see themselves as the aggrieved party, and all recount a history of being under siege. John Holt gives voice to these different perspectives as an engaged and concerned participant, offering both a critical and empathetic account of Myanmar’s tragic predicament. Readers follow the hopes and dismay of this seasoned scholar of Theravada Buddhism as he seeks his own understanding of the variously impassioned forces in play in this still unfolding drama.

Myanmar's Enemy Within Francis Wade, 2017-08-15 For decades Myanmar has been portrayed as a case of good citizen versus bad regime – men in jackboots maintaining a suffocating rule over a majority Buddhist population beholden to the ideals of non-violence and tolerance. But in recent years this narrative has been upended. In June 2012, violence between Buddhists and Muslims erupted in western Myanmar, pointing to a growing divide between religious communities that before had received little attention from the outside world. Attacks on Muslims soon spread across the country, leaving hundreds dead, entire neighbourhoods turned to rubble, and tens of thousands of Muslims confined to internment camps. This violence, breaking out amid the passage to democracy, was spurred on by monks, pro-democracy activists and even politicians. In this gripping and deeply reported account, Francis Wade explores how the manipulation of identities by an anxious ruling elite has laid the foundations for mass violence, and how, in Myanmar’s case, some of the most respected and articulate voices for democracy have turned on the Muslim population at a time when the majority of citizens are beginning to experience freedoms unseen for half a century.

Burmese (Myanmar) John Okell, Khin Mya Swe (Daw.), 2010 The first volume in a four-part language course, this textbook enables students to start speaking and understanding the spoken language. In the early sections the focus is on

familiarizing the learner with the unfamiliar sounds of the language and the structures of Burmese sentences. After this foundation the emphasis changes to acquiring the words and phrases needed for early encounters with Burmese speakers in Burma and elsewhere in the world. Numerous speaking exercises and practice dialogs feature travel topics such as asking for directions, taking taxis, and ordering food and drink, and common conversational topics such as introductions, family, and work. Because Burmese script can be challenging, Okell offers roman transcription alongside the Burmese script for Burmese material throughout the text. Like the other titles in this series, Book 1 is accompanied by audio files and can be used either under the instruction of a teacher or for self-study. The series was developed over a period of several years and was tested, modified, and expanded after use in the classroom. Language professors and their students or those learning Burmese on their own will appreciate the accessible approach and the manageable size of the lessons of the very practical textbooks in this series.

Greater Mekong Subregion Business Handbook United Nations. Economic and Social Commission for Asia and the Pacific, 2002 This publication provides business data on the following six countries of this subregion: Cambodia, Lao People's Democratic Republic, Myanmar, Thailand, Viet Nam, and Yunnan Province (China). It contains information on country profiles, projects, the investment climate and opportunities, foreign investment procedures and customs, regulatory frameworks, support networks and travel facilities, as well as data on exports and imports, GDP growth and foreign investments. As a result of the recent economic crisis in Asia, the book also explores competitiveness and responses to emerging business challenges and trends in the region.

Burmese (Myanmar) John Okell, 2016-05-10 The third volume in a four-part language course, this textbook enables students to become competent in reading and writing Burmese script. Most students find it helpful to begin learning the script at the same time they start on the spoken language, but this volume can be used independently if preferred. In addition to lists of words for reading and writing practice, presented in a series of short graduated lessons, Okell includes sample texts from Burmese materials such as product labels, newspaper headlines, and maps. Appendices on handwriting and cursive forms, display fonts, the Burmese names of the characters, Burmese alphabetical order, and common abbreviations round out the book. One of the challenges of learning a non-Roman script language from traditional course books is that the use of the Roman alphabet to describe sounds is not as effective as hearing the sounds. The extensive audio files that accompany this volume allow the learner to hear and produce the sounds corresponding to the symbols. Language professors and their students, or those learning Burmese on their own, will appreciate the accessible approach and the manageable size of the lessons of the very practical textbooks in this series.
