Similarities and Differences Between Theravada and Mahayana Buddhism Ankur Barua, Prof Dipak Kumar Barua, Mary Anne Basilio, 2015-09-17 The Theravada School of Buddhism was formally established at the Third Buddhist Council during the time of Emperor Asoka in the 3rd Century B.C. In the later period, the Mahayanists took a firm stand and the terms of Mahayana and Hinayana were introduced after the 1st Century A.D. However, during the 2nd Century A.D. Mahayana became clearly defined. There is hardly any difference between Theravada and Mahayana schools of Buddhism with regard to the fundamental teachings of the Buddha. Though there are many similarities, but there are some important aspects in which both schools of Buddhist thoughts differ from each other. The major aspects of these are - the Bodhisattva concept, the deification of the Buddha, emphasis on meditational aspect and the concept of emptiness.

Emotions and Spirituality in Religions and Spiritual Movements Erika Wilson, 2012-07-23 Applying recent psychological and neuropsychological studies of emotions, Erika Wilson explores the role of emotions in major Eastern, Western, and primal religions, as well as in some contemporary spiritual movements. The book tries to answer the following questions: What kinds of emotions and spiritual experiences arise in individuals and groups during prayer, conversions, rituals, meditations, and other spiritual practices? Which positive emotions are valued most in a particular religion or spiritual movement? How do these attitudes relate to their respective historical context? And finally, how does each religious or spiritual teaching recommend handling negative emotions?

The Mystery of Soul Ruby Hart, AI, 2025-02-14 The Mystery of Soul explores humanity's enduring quest to understand the soul, consciousness, and the afterlife across diverse religious and philosophical traditions. It tackles questions such as What happens to us when we die? by examining historical contexts, from ancient animistic beliefs to sophisticated theological systems. The book uniquely presents a comparative analysis, identifying both common threads and divergences among traditions, rather than advocating for a single viewpoint. The book begins by defining core concepts, then explores them within specific religious traditions like Hinduism, Christianity, and Islam, as well as philosophical schools of thought,

including Platonism and existentialism. Each chapter meticulously analyzes primary texts and scholarly interpretations. Did you know that some traditions view the soul as an immortal essence, while others see it as a more transient aspect of being? Also, the book addresses the tension between scientific materialism and spiritual beliefs. Finally the book examines the implications of differing views on ethics, morality, and how individuals live their lives, leading to a culmination of the argument where the book identifies common threads and unresolved questions across traditions.

Asian Philosophies John M. Koller, Patricia Joyce Koller, 1998 With an inside view from an expert in the field, solid scholarship, and a clear and engaging writing style, *Asian Philosophies* invites students and professors to think along with the great thinkers of the Asian traditions. John M. Koller is a scholar and teacher who has devoted his life to understanding Asian thought and practice. He wrote this text to give students and professors access to the rich philosophical and religious ideas of both South and East Asia.

The Anthropology of Eastern Religions Murray J. Leaf, 2014-05-21 The world's "great" religions depend on traditions of serious scholarship, dedicated to preserving their key texts but also to understanding them and, therefore, to debating what understanding itself is and how best to do it. They also have important public missions of many kinds, and their ideas and organizations influence many other important institutions, including government, law, education, and kinship. *Anthropology of Eastern Religions: Ideas, Organizations, and Constituencies* is a comparative survey of the world's major religious traditions as professional enterprises and, often, as social movements. Documenting the principle ideas behind eastern religious traditions from an anthropological perspective, Murray J. Leaf demonstrates how these ideas have been used in building internal organizations that mobilize or fail to mobilize external support.

Worldviews and Christian Education W. Shipton, E. Coetzee & R. Takeuchi, 2014-04 In *Worldviews and Christian Education*, editors W.A. Shipton, E. Coetzee, and R. Takeuchi have brought together works by experts in cross-cultural religious education. The authors and editors have a wealth of personal experience in presenting the gospel to individuals with various worldviews that differ greatly from those held by Christians who take the Bible as authoritative. They focus on the beliefs and issues associated with witnessing to seekers for truth coming from backgrounds as diverse as animism, Buddhism, Confucianism, Hinduism, Islam, Marxism, Taoism, and postmodernism. -- Back Cover

The Buddhist Experience in America Diane Morgan,2004-10-30 Just as the teachings of Jesus gave birth to Orthodoxy, Catholicism, and hundreds of different Protestant sects, the teachings of the historical Buddha developed into many different traditions. The Buddhist Experience in America examines how these traditions are practiced. The book also includes a discussion of the historical Buddha and an examination of how contemporary Buddhism has responded to current issues and concerns. Appendices include a glossary, a who's who of Buddhism, a timeline, and a list of resources for further information.--Jacket.
