African Holistic Health Llaila O. Afrika, 1990

The Textbook of African Holistic Health Llaila O. Afrika, 2017-12-30 This book is the first book of its kind on African Holistics. It provides a wealth of information that had been missing in health, history, medical science and holistics. *African Holistic Health*, by Dr. Llaila O. Afrika is the first major book which addresses health issues from a comprehensive African-centered viewpoint. It provides a complete guide to herbal remedies along with homeopathic disease treatments. What makes *African Holistic Health* truly unique is the research Dr. Afrika has provided on the physiological and psychological differences between people of African descent versus people of European descent. In addition, Dr. Afrika provides a complete history (from the ninth century to the eighteenth century) of the European herb trade and why Europe invaded Africa for healing plants. Finally, he concludes by detailing how European diseases defeated ancient Africa. *African Holistic Health* helps you learn about holistic sex laws, self diagnosis, disease treatments, the danger of commercial foods and much more. But the most important lesson learned in this book is the concept of holistic health. *African Holistic Health* helps you learn about holistic sex laws, self diagnosis, disease treatments, the danger of commercial foods and much more. But the most important lesson learned in this book is the concept of holistic health. *African Holistic Health* is written from an African-centered viewpoint and appropriately condemns European commercialism, people of European descent as well as people of African descent will find that this book is the key to healing their bodies. Intra-African Pentecostalism and the Dynamics of Power Amos B. Chewachong, 2024-10-29 In an era when African Pentecostalism stretches its vibrant mosaic across continents, *Intra-African Pentecostalism and the Dynamics of Power* examines the pulsating heart of this phenomenon within Africa itself. The book explores the complex interplay of faith and power through the lens of Nigeria's Winners' Chapel and its expansion into Cameroon. What compels a movement to evangelize fervently within its own continent, making it both the preacher and the audience? The book exposes the reverse

missionary flow to the northern hemisphere as a backdrop for a more profound story unravelling within Africa. Here, the mother church exerts a magnetic pull, ensuring fidelity, as charismatic leaders, like Bishop Oyedepo, maintain their spiritual gravitas. It is a story not just of spirituality but of strategic moves and socio-political undercurrents that shape identities and beliefs. Employing rich narratives and rigorous research, this book looks in depth at Winners' Chapel's transnational missions, highlighting the complexities of allegiance, identity, and the propagation of the prosperity gospel. It challenges readers to see beyond conventional religious discourse, into the depths where faith intersects with culture and power. The book invites us to understand the multi-dimensional influence of African Pentecostalism and to grasp the nuances of a faith that is transforming the continent from within.

African Religion Defined Anthony Ephirim-Donkor, 2012-07-10 African religion is ancestor worship; that is, funeral preparations, burial of the dead with ceremony and pomp, belief in eternal existence of souls of the dead as ancestors, periodic remembrance of ancestors, and belief that they influence the affairs of their living descendants. Whether called Akw?sidai, Homowo, Voodoo, Nyant?r (Aboakyir), CandomblZ, or Santeria in Africa or the African Diaspora, ancestor worship centers on the ancestors and deities. This makes it a tenably viable religion, because living descendants are genetically linked to their ancestors. The author, a traditional king and professor, studies the Akan in Ghana to demonstrate that ancestor worship is as pragmatic, systematic, theological, teleological, soteriological — with a highly trained clerical body and elders as mediators — and symbolic as any other religion in the world. Ancestor worship follows prescribed rites and rituals, formulas, precepts for ritual efficacy, and festivities of honor with music and dances to provoke ancestors and deities into joining in the celebration.

God Made Me Beauty-full Terri McFaddin, 1997

Black Son Rising Michael Curtis Jones, 2006 Calling upon the author's experience as a youth counselor and prison volunteer, this inspiring work offers a challenging portrayal of black men and the contemporary obstacles they face in American society. With a message that calls equally for communal empathy and individual growth, this assessment of the plight of black men views them in relation to today's most controversial topics (the prison system, drugs, education, and parenting), empowering the academic, social worker, minister, and interested reader.
