Antropología de la intimidad Juan Fernando Sellés Dauder, 2013-11-30 El autor, en continuidad con su Antropología para inconformes, describe ahora la intimidad humana y su apertura a Dios: la libertad personal y la esperanza, el conocer personal y la fe, el amor personal y la caridad, así como la belleza íntima como reunión de estas realidades. ¿Cómo accede la persona a su propia intimidad? ¿Qué obstáculos pueden impedirselo? ¿Qué implica tener un destino? La persona se descubre a sí misma como un «tesoro inagotable»; un «amar que se entrega inerme cuando llega al mundo»; una «luz o conocer transparente»; una «libertad» cuya finalidad carece de límites; una «coexistencia con Dios» llamada a crecer, también mediante nuestros semejantes.

Psychiatry and Neuroscience Update Pascual Ángel Gargiulo, Humberto Luis Mesones Arroyo, 2018-11-28 This broad and thought-provoking volume provides an overview of recent intellectual and scientific advances that bridge the gap between psychiatry and neuroscience, offering a wide range of penetrating insights in both disciplines. The third volume on the topic in the last several years from a varying panel of international experts, this title identifies the borders, trends and implications in both fields today and goes beyond that into related disciplines to seek out connections and influences. Similar to its two Update book predecessors, Psychiatry and Neuroscience - Volume III presents the current state-of-the-art in the main disciplines - psychiatry and neuroscience - and attempts to provide deeper comprehension or explication of the normal and diseased human mind, its biological correlates and its biographical and existential implications. This engaging volume continues the previous style of exploring different disciplines and trying to integrate disciplinary evidence from varying points of view in an organic manner. Developed for clinicians and researchers in the fields of medicine, psychiatry, psychology and biology, this third volume also will be of great interest to students and university professors of diverse disciplines.

Presente y futuro del hombre Leonardo Polo Barrena, 2019-08-15 Este libro es una de las respuestas más originales y optimistas que se han dado en los últimos tiempos a las grandes preguntas de la existencia humana: la obra filosófica de

Leonardo Polo. Los tiempos que corren son, en apariencia, poco propicios para la filosofía. Y, sin embargo, el hombre y la mujer de hoy siguen formulándose las mismas grandes preguntas acerca de la existencia humana y del mundo. Enfrentarse a ellas es la tarea más propia del filósofo. Este libro es la puerta de entrada a una de las respuestas más originales que se han dado en los últimos tiempos acerca de la verdad. Para la mayor parte de los estudiosos y del gran público, es todavía poco conocida, pero lo será mucho más en los próximos años. Este volumen reúne escritos en su mayoría inéditos, y ofrecen una visión del hombre radicalmente optimista y lanzada hacia el futuro (de ahí el título), una auténtica filosofía de la esperanza.

Una acción educativa pensada. Reflexiones desde la filosofía de la educación Concepción Naval Durán,2020-12-28 En los tiempos de la medición, la evaluación, la evidencia empírica y los indicadores objetivos, el pensamiento sobre la acción educativa desde una perspectiva filosófica, se ha convertido en un fenómeno prácticamente contra corriente. No se trata necesariamente de actuar en oposición frontal y directa ante otros paradigmas, sino más bien de llamar la atención sobre la propia naturaleza de la realidad, que es multidimensional, compleja, sistémica y muy amplia, por lo que la respuesta que demanda no puede ser única, simplista, cerrada y limitada. Al contrario, de los educadores y pedagogos se esperan actitudes creativas, críticas, abiertas, reflexivas, profundas, en ocasiones pausadas y meditadas, en cuanto que suponen una ineludible responsabilidad ante los educandos.La filosofía, y más concretamente, la filosofía de la educación, en cuanto que pensamiento aplicado, supone una oportunidad inmejorable para poner en práctica estas cualidades del ser humano, por lo que su comparecencia en el ámbito educativo no puede ignorarse, ni relegarse exclusivamente al ámbito universitario, alejado de la vida de las aulas en diferentes niveles educativos.El Ebook presente nace en el seno de estos planteamientos y reúne a un importante número de autores en torno al eje de la filosofía de la educación. En él se encuentran trabajos diversos, que incluyen ensayos, investigaciones, proyectos, estudios de caso, etc., realizados por profesores de universidad, así como por educadores que ejercen su profesión en centros educativos de distintas etapas, desde la Educación Infantil, la Educación Primaria y Secundaria, entre otras.Asimismo, su procedencia es muy variada, encontrando un buen número de autores españoles, de otros países de Europa y, de manera especial, de Latinoamérica, cuya diversidad se refleja también en los diferentes idiomas en los que se encuentran escritos los capítulos: español, inglés, portugués e italiano.Los editores confiamos que este texto resulte de interés tanto para los filósofos de la educación, como para educadores de otras áreas, de tal forma que esta disciplina contribuya a iluminar una práctica educativa más reflexiva y humanizadora.

Natural Law Alejandro Néstor García Martínez,Mario Šilar,José M. Torralba,2009-03-26 Modern moral and political philosophy is in debt with natural law theory, both in its ancient and mediaeval elaborations. While the very notion of a natural law has proved highly controversial among 20th Century scholars, the last decades have witnessed a renewed

interest in it. Indeed, the threats and challenges as result of multiculturalism, plural societies and global changes have generated a renewed attention to natural law theory. Clearly, it offers solid basis as possible framework to a better understanding of human goods without contradictions and partial bias. The purpose of the present volume is to provide an overview of the history of this concept (Cicero, St. Paul, Aquinas, Melanchthon, Montaigne, Descartes, Leibniz, Hume, Burke, Kant, MacIntyre, etc.) as well as a deep understanding of ongoing research, both in Europe and in America. Furthermore, the specificity of these studies will be of particular value to philosophers, law-philosophers, historians, anthropologists, sociologists and theologians, and those concerned on such issues as the relation between law and moral norm, law and practical reason, and the presence of the idea of natural law in several prominent thinkers. It includes a selected bibliography on natural law. The book also provides an excellent introduction to several of the major topics in natural law theory making it useful both as a reference text and as a sourcebook for academics alike. Natural law is a rich, complex, and highly disputed term. Since its first appearances in the history of Western civilization, it has been used both to point to God as the source of the moral order and to assert that there is an objective order of justice in nature that men and their laws ought to respect. In modern times, natural law theory gave birth to what we usually call “human rights.” Unlike the meaning of the term, the importance of an ongoing debate on natural law and on the theories related to it is undisputable. This is why I welcome today this new collection of essays edited by Alejandro Néstor García Martínez, Mario Šilar and José M. Torralba. *Natural Law: Historical, Systematic and Juridical Approaches* includes a wide variety of studies, covering key authors and issues in natural law theory. Younger students will appreciate the clarity of the chapters, and more trained readers the detailed and accurate bibliographical references that each of them offers. The editors’s choice to go from a historical approach to contemporary theories, and then to theoretical and more practical issues is also commendable. Students in philosophy and in legal theory will greatly benefit from this book. —Fulvio Di Blasi, author of *God and the Natural Law: A Rereading of Thomas Aquinas*

Antropología del amor PedroJuan Viladrich, Blanca Castilla de Cortázar, 2020-10-13 Plantear las cuestiones que afectan al sentido de la vida, desde los fundamentos antropológicos comunes a todos los hombres, cualesquiera que sean sus creencias o convicciones, es una perspectiva cada vez más necesaria. Este libro trata de lo básico para entender a la persona humana, varón y mujer, y para comprender el amor. Dos realidades profundamente entrelazadas, pues solo amar da sentido pleno a la vida humana. Viviendo el amante la vida del amado, como si de la propia se tratase, y correspondiendo el amado a su amante con igual predilección, ambos abren entre sí el ser una sola vida, una historia común, en la que el yo y el tú, sin evaporarse ni anularse, se trascienden en un nosotros. Amar es la experiencia culminante del ser personal. Es nuestro más fiel y profundo retrato, pues estamos hechos para amar. No hemos inventado el amor, pero hemos sido invitados a su fiesta. Nos revela a cada uno en lo que es, en lo que podría y debería ser, y también en lo que de hecho vive con sus grandezas, limitaciones y

miserias. De la misma forma que aprendemos a vivir viviendo, aprendemos a amar amando. Y ayudarnos unos a otros en tan fascinante tarea es servicio y responsabilidad que nos debemos, si queremos unos con otros darnos una vida lograda.

From Logos to Person Christophe Rico,Joaquín Paniello,2025-01-06 This contributed volume considers the notions of person and logos from different approaches. Although many treat them separately, this text focuses on their intricate interplay. Drawing upon diverse cultural traditions, including Hebrew, Greek, Latin, and Arab sources, this book engages philologists, philosophers, and theologians through captivating analysis that spans from ancient philosophical perspectives to contemporary scholarship. The genesis of this scholarly endeavor owes to a conference held at the Polis Institute in Jerusalem in October 2021, in collaboration with Johns Hopkins University, Notre Dame University, and the University of Hamburg. Out of fifty-seven presentations, fourteen were selected to compose this thought-provoking volume, ensuring a well-structured exposition on the subject. The opening historical overview provides the framework of the volume, and culminates with Beuchot's intriguing proposition of man as an 'analogical animal'. Subsequent sections explore the concept of logos, tracing its usage in Plato and the Gospel of Saint John, as well as its evolution through scholasticism, modernism, and contemporary thought. Contained are highlights on the notion of person, its development in various languages, and delves into the intricate connections between rationality, speech, and personhood. Metaphysical and personalist approaches are also presented; this book appeals to researchers and scholars in the field.
