Balkan Popular Culture and the Ottoman Ecumene Donna A. Buchanan, 2007-10-01 Since the early twentieth century, 'balkanization' has signified the often militant fracturing of territories, states, or groups along ethnic, religious, and linguistic divides. Yet the remarkable similarities found among contemporary Balkan popular music reveal the region as the site of a thriving creative dialogue and interchange. The eclectic interweaving of stylistic features evidenced by Albanian commercial folk music, Anatolian pop, Bosnian sevdah-rock, Bulgarian pop-folk, Greek ethniki mousike, Romanian muzica orientala, Serbian turbo folk, and Turkish arabesk, to name a few, points to an emergent regional popular culture circuit extending from southeastern Europe through Greece and Turkey. While this circuit is predicated upon older cultural confluences from a shared Ottoman heritage, it also has taken shape in active counterpoint with a variety of regional political discourses. Containing eleven ethnographic case studies, *Balkan Popular Culture and the Ottoman Ecumene: Music, Image, and Regional Political Discourse* examines the interplay between the musicians and popular music styles of the Balkan states during the late 1990s. These case studies, each written by an established regional expert, encompass a geographical scope that includes Albania, Bosnia and Herzegovina, Bulgaria, the Republic of Macedonia, Croatia, Slovenia, Romania, Greece, Turkey, Serbia, and Montenegro. The book is accompanied by a VCD that contains a photo gallery, sound files, and music video excerpts.

The 1720 Imperial Circumcision Celebrations in Istanbul Sinem Erdoğan İşkorkutan, 2020-09-25 The 1720 Imperial Circumcision Celebrations in Istanbul offers the first holistic examination of an Ottoman public festival through an in-depth inquiry into different components of the 1720 event. Through a critical and combined analysis of the hitherto unknown archival sources along with the textual and pictorial narratives on the topic, the book vividly illustrates the festival's organizational details and preparations, its complex rites (related to consumption, exchange, competition), and its representation in court-commissioned illustrated festival books (sūrnāmes). To analyze all these phases in a holistic manner, the book employs an interdisciplinary approach by using the methodological tools of history, art history, and performance studies and thus, provides a new methodological and conceptual framework for the study of Ottoman celebrations.

Historical Dictionary of Armenia Rouben Paul Adalian, 2010-05-13 There are two Armenias: the current Republic of Armenia and historic Armenia. The modern state dates from the early 20th century. Historic Armenia was part of the ancient world and expired in the Middle Ages. Its people, however, survived, and from its residue recreated a new country. The history of the Armenians is the story of how an ancient people endured into modern times and how its culture evolved from one conceived under the influence of Mesopotamia to one redefined by the civilization of Europe. The second edition of the

Historical Dictionary of Armenia relates the turbulent past of this persistent country through a chronology, an introductory essay, a bibliography, and over 200 cross-referenced dictionary entries on significant persons, events, places, organizations, and other aspects of Armenian history from the earliest times to the present.

French Revolutionaries in the Ottoman Empire Pascal Firges, 2017 The effects of the French Revolution reached far beyond the confines of France itself. The Ottoman Empire, ancient ally and major trading partner of France, was not immune from the repercussions of the 'Age of Revolutions', especially since it was home to permanent French communities with a certain legal autonomy. French Revolutionaries in the Ottoman Empire examines, for the first time, the political and cultural impact of the French Revolution on Franco-Ottoman relations, as well as on the French communities of the Ottoman Empire. The modern interpretation of revolutionary ideological expansionism is strongly influenced by the famous propaganda decree of 19 November 1792 which promised 'fraternity and help to all peoples who wish to recover their liberty', as well as the well-studied efforts to export the Revolution into the territories conquered by the revolutionary armies and to the various Sister Republics. Against all expectations, however, French revolutionaries in the Ottoman Empire exhibited neither a 'crusading mentality' nor a heightened readiness to use force in order to achieve ideological goals. Instead, as this volume shows, in matters of diplomacy as well as in the administration of French expatriate communities, revolutionary policies were applied in an extremely circumspect fashion. The focus on the effects of the French regime change outside of France offers valuable new insights into the revolutionary process itself, which will revise common assumptions about French revolutionary diplomacy. In addition, Pascal Firges takes a close look at the establishment of the new political culture of the French Revolution within the transcultural context of the French expatriate communities of the Ottoman Empire, which serves as a thought-provoking point of comparison for the emergence and development of French revolutionary political culture.

The Illuminated Table, the Prosperous House Suraiya Faroqhi, Christoph K. Neumann, 2003 The Illuminated Table, the Prosperous House brings together fourteen articles by researchers from Turkey and a number of European countries such as France, Germany and Poland. These articles deal with two of the major aspects of material culture, namely food and drink on the one hand, and housing on the other. In no society is it indifferent how people eat and drink, dress and dwell; to the contrary these matters are always highly charged on the symbolic level. Ottoman society had achieved a high degree of coherence in many of its aspects, including material culture. Viewed from the opposite angle, this common material culture may count as one of the indicators that made the empire's remarkably uniform social structure apparent even to the casual viewer. From Sarajevo to Damascus, coffee was drunk from the same kinds of cups, while everywhere, people received their friends seated on raised platforms decked out with rugs and cushions. Moreover the slow and therefore less obvious changes in material culture often had a more profound impact on people's lives than short-term and more "noisy" political conflicts. The transition of the Ottomans from the world of early modern statehood toward modernity was backed up by multiple transformations in the everyday lives of many men and women. Overall, the urban populations of the empire from the sixteenth century onwards developed an increasing degree of sophistication and differentiation in their ways of living. People found new ways of enjoying their food, putting together their domestic environments or presenting themselves in public. During the last few decades the various remnants of Ottoman material life have attracted growing public attention. Ottoman cuisine and vernacular architecture are cherished not only by experts, but also by Turkish urban dwellers increasingly proud of their cultural heritage, to say nothing of tourists. But even so, serious research in these matters has been slow to develop. It is the aim of the present volume to show what avenues research has taken to date, point out the numerous unexploited or under-exploited primary sources and thus to advance our understanding of this important aspect of Ottoman history. Shakespeare through Islamic Worlds Ambereen Dadabhoy, 2024-02-29 Shakespeare through Islamic Worlds investigates the peculiar absence of Islam and Muslims from Shakespeare's canon. While many of Shakespeare's plays were set in the Mediterranean, a geography occupied by Muslim empires and cultures, his work eschews direct engagement with the religion and its people. This erasure is striking given the popularity of this topic in the plays of Shakespeare's contemporaries. By exploring the limited ways in which Shakespeare uses Islamic and Muslim tropes and topoi, Ambereen Dadabhoy argues that Islam and Muslim cultures function as an alternate or shadow text in his works, ranging from his staged Mediterranean plays to his histories and comedies. By consigning the diverse cultures of the Islamic regimes that occupied and populated the early modern Mediterranean, Shakespeare constructs a Europe and Mediterranean freed from the presence of non-white, non-European, and non-Christian Others, which belied the reality of the world in which he lived. Focusing on the Muslims at the margins of Shakespeare's works, Dadabhoy reveals that Islam and its cultures informed the plots, themes, and intellectual investments of Shakespeare's plays. She puts Islam and Muslims back into the geographies and stories from which Shakespeare had evacuated them. This innovative book will be of interest to all those working on race, religion, global and cultural exchange within Shakespeare, as well as people working on Islamic, Mediterranean, and Asian studies in literature and the early modern period.

Medieval Oral Literature Karl Reichl, 2011-11-30 Medieval literature is to a large degree shaped by orality, not only with regard to performance, but also to transmission and composition. Although problems of orality have been much discussed by

medievalists, there is to date no comprehensive handbook on this topic. 'Medieval Oral Literature', a volume in the 'De Gruyter Lexikon' series, was written by an international team of twenty-five scholars and offers a thorough discussion of theoretical approaches as well as detailed presentations of individual traditions and genres. In addition to chapters on the oral-formulaic theory, on the interplay of orality and writing in the Early Middle Ages, on performance and performers, on oral poetics and on ritual aspects of orality, there are chapters on the Older Germanic, Romance, Middle High German, Middle English, Celtic, Greek-Byzantine, Russian, Hebrew, Arabic, Persian and Turkish traditions of oral literature. There is a special focus on epic and lyric, genres that are also discussed in separate chapters, with additional chapters on the ballad and on drama.
