Fraseología, Diatopía y Traducción / Phraseology, Diatopic Variation and Translation Pedro Mogorrón Huerta, Antonio Albaladejo-Martínez, 2018-11-15 In all languages, humans frequently use linguistic combinations called phraseological units (PUs) in communicative acts. These PUs are characterized by their institutionalized fixation and, in many cases, by their opacity. Traditionally, the work on phraseology has placed the emphasis on the total fixing of components and structures of verbal expressions. Variation in PUs is currently an uncontested fact and has been extensively studied and analyzed. In addition, in the case of languages like Spanish, English, French, spoken in many countries, new creations or diatopic variants arise. While these diatopic expressions have been collected or analyzed in their territory of influence, no comprehensive collection showing all the expressions and contrastive analysis to observe the similarities and differences between these diatopic creations with all their idiosyncratic and cultural references have been made so far. The content of this volume deals with numerous linguistic, lexicographic and translational problems in the context of language variation in general, as well as specifically related to diatopic variation. The aim is to make progress in these challenging and highly interesting areas which still pose many comprehension and translation problems.

Manual of Standardization in the Romance Languages Franz Lebsanft, Felix Tacke, 2020-01-20 Language standardization is an ongoing process based on the notions of linguistic correctness and models. This manual contains thirty-six chapters that deal with the theories of linguistic norms and give a comprehensive up-to-date description and analysis of the standardization processes in the Romance languages. The first section presents the essential approaches to the concept of linguistic norm ranging from antiquity to the present, and includes individual chapters on the notion of linguistic norms and correctness in classical grammar and rhetoric, in the Prague School, in the linguistic theory of Eugenio Coseriu, in sociolinguistics as well as in pragmatics, cognitive and discourse linguistics. The second section focuses on the application of these notions with respect to the Romance languages. It examines in detail the normative grammar and the normative dictionary as the reference tools for language codification and modernization of those languages that have a long and well-established written tradition, i.e. Romanian, Italian, French, Catalan, Spanish, and Portuguese. Furthermore, the volume offers a discussion of the key issues regarding the standardization of the 'minor' Romance languages as well as Creoles.

Mexicanismos en el Diccionario de la lengua española Juan López, 1988

El español, lengua pluricéntrica Sebastian Greußlich, Franz Lebsanft, 2019-12-09 Fragen der Norm wurden für das Spanische bis weit ins 20. Jahrhundert ausschließlich von der Real Academia Española geklärt. Unter den Vorzeichen der Globalisierung und der sich immer stärker etablierenden Konzeption der Plurizentrik teilt die Sprachakademie diese Rolle zunehmend mit neuen Akteuren. Neben den Akademien in Spanischamerika treten vor allem die Massenmedien auf dem Feld der spanischen Sprachkultur in Erscheinung. In Fragen praktischer Sprachkodifikation kooperieren sie systematisch mit den Sprachakademien, zugleich aber fordern sie diese heraus, indem sie den Sprachgebrauch der Hispanophonie jenseits von Sprachpolitik und Didaktik mit eigenen, massenkommunikativ vermittelten Normen prägen. Die Beiträge des Bandes beleuchten diesen Zusammenhang empirisch. Las cuestiones referentes a la norma del español, hasta bien entrado el siglo XX, se han resuelto exclusivamente en el seno de la Real Academia Española. Bajo los auspicios de la globalización y del pluricentrismo lingüístico, la Academia de la Lengua va compartiendo esta función con nuevos actores. Aparte de las Academias hispanoamericanas, estos son ante todo los medios de comunicación masiva. En la práctica de la codificación lingüística, dichos medios colaboran sistemáticamente con las Academias de la Lengua; al mismo tiempo que las desafían marcando el uso de la lengua mediante sus normas propias, más allá de la política lingüística y la enseñanza de la lengua. Las contribuciones reunidas en este volumen abren perspectivas teóricas, ideológicas y empíricas sobre este fenómeno.
