Augustine on the Will Han-luen Kantzer Komline,2019-11-13 While Augustine's understanding of will is constantly invoked in secondary literature, it rarely receives analysis in its own right. In this book, Han-luen Kantzer Komline provides such an analysis, demonstrating that Augustine's view is theologically differentiated, comprising four distinct types of human will, which correspond to four different theological scenarios.

Executive Presentations Jacqui Harper,2018-10-19 *SHORT-LISTED FOR THE BUSINESS BOOK AWARDS 2019!* This book equips executives to give compelling and clear presentations: the kind of presentations that drive corporate change and innovation AND make reputations. And it's all down to presence. Presence works at three levels - what you say, how you use your body, and your mindset. Level 2: Learn how to leverage your physical presence when speaking, including your style, body language and vocal presence. Level 3: Speak with confidence and resilience by developing your mindset, with four powerful tools to transform the way you think as you prepare to present. Jacqui Harper writes in a warm, authoritative style. Her rich blend of tools, tips and expert advice will help you become a consistently outstanding communicator.

Disability and the Good Human Life Jerome E. Bickenbach,Franziska Felder,Barbara Schmitz,2015-07-30 This collection of original essays, from both established scholars and newcomers, takes up a recent debate in philosophy, sociology, and disability studies on whether disability is intrinsically a harm that lowers a person's quality of life. While this is a new question in disability scholarship, it also touches on one of the oldest philosophical questions: what is the good human life? Historically, philosophers have not been interested in the topic of disability, and when they are it is usually only in relation to questions such as euthanasia, abortion, or the moral status of disabled people. Consequently disability has been either ignored by moral and political philosophers or simply equated with a bad human life, a life not worth living. This collection takes up the challenge that disability poses to basic questions of political philosophy and bioethics, among others, by focusing on fundamental issues and practical implications of the relationship between disability and the good human life.

Comparative Religious Ethics Darrell J. Fasching,Dell deChant,David M. Lantigua,2011-03-31 This popular textbook has

been thoroughly revised and updated to reflect recent global developments, whilst retaining its unique and compelling narrative-style approach. Using ancient stories from diverse religions, it explores a broad range of important and complex moral issues, resulting in a truly reader-friendly and comparative introduction to religious ethics. A thoroughly revised and expanded new edition of this popular textbook, yet retains the unique narrative-style approach which has proved so successful with students. Considers the ways in which ancient stories from diverse religions, such as the Bhagavad Gita and the lives of Jesus and Buddha, have provided ethical orientation in the modern world. Updated to reflect recent discussions on globalization and its influence on cross-cultural and comparative ethics, economic dimensions to ethics, Gandhian traditions, and global ethics in an age of terrorism. Expands coverage of Asian religions, quest narratives, the religious and philosophical approach to ethics in the West, and considers Chinese influences on Thich Nhat Hanh's Zen Buddhism, and Augustine's Confessions. Accompanied by an instructor's manual (coming soon, see www.wiley.com/go/fasching) which shows how to use the book in conjunction with contemporary films.

[The Light That Binds](#) Rev. Stephen L. Brock, 2020-03-30 If there is any one author in the history of moral thought who has come to be associated with the idea of natural law, it is Saint Thomas Aquinas. Many things have been written about Aquinas's natural law teaching, and from many different perspectives. The aim of this book is to help see it from his own perspective. That is why the focus is metaphysical. Aquinas's whole moral doctrine is laden with metaphysics, and his natural law teaching especially so, because it is all about first principles. The book centers on how Aquinas thinks the first principles of practical reason, which for him are what make up natural law, function as laws. It is a controversial question, and the book engages a variety of readers of Aquinas, including Francisco Suarez, Jacques Maritain, prominent analytical philosophers, Straussians, and the initiators of the New Natural Law theory. Among the issues addressed are the relation between natural law and natural inclination, how far natural law depends on knowledge of human nature, what its obligatory force consists in, and, above all, how it is related to what for Aquinas is the first principle of all being, the divine will.

Human Beings Greatest Quotes - Quick, Short, Medium Or Long Quotes. Find the Perfect Human Beings Quotations for All Occasions - Spicing Up Letters, S Martha Melendez, 2016-02-04 This book is the outcome of an idea, and the idea is very simple. It is that the best way to understand the dramatic transformation any idea can bring and to successfully bring ideas across, is to think of them as profound insights and moments of clarity often disguised as wit, captured in one single Quote. Ideas and products and messages and behaviors spread faster when they carry your message in a single line or paragraph: a

Quote. To feel the impact a Quote can have, here are three Human Beings Quotes from this book: 'All human beings are commingled out of good and evil. - Robert Louis Stevenson' 'Human beings are interested in the human condition. - William Boyd' 'Human beings can alter their lives by altering their attitudes of mind. - William James' Three characteristics-one, contagiousness; two, the fact that little words can have big effects; and three, that insight happens not gradually but at one dramatic moment, using the right profound words-are the same three principles that define how an idea takes off, or a product goes viral. Of the three, the third, profound, trait... is the most important, because it is the principle that makes sense of the first two and that permits the greatest insight into why some ideas stick, some changes last, some words leave an impression, and others don't. This book will give you the opportunity to find that right Quote that can change it all.
