**Death of the Father** John Borneman, 2004 'Death of the Father' is a comparative examination of the crises in symbolic identification and national traumas that have resulted from the defeat and/or implosion of regimes in Fascist Italy, Nazi Germany, Imperial Japan and Communist Eastern Europe.

*Tito--Yugoslavia's Great Dictator* Stevan K. Pavlowitch, 1992 This new biography offers a straightforward, balanced approach to the man who reigned over Yugoslavia for thirty-five years. Stripping away the myths about Tito and his life. Stevan Pavlowitch places him within a larger perspective as a key twentieth-century European leader. Pavlowitch begins with an examination of the economic, social, and national factors that helped to create Josip Broz Tito. He goes on to consider Tito's role as a national unifier after the chaos of the Second World War, demonstrating how Tito brought Yugoslavia together by offering something to each of the country's constituent ethnic communities. While admitting that Tito remains something of a mystery because the important mechanisms of his regime always functioned behind closed doors, Pavlowitch reconciles the various contradictory versions of Tito's life and policies - as a ruthless revolutionary and an imaginative statesman, as a successfully dogmatic hard-liner and a triumphant heretic, as a good disciple of Soviet Stalinism and the force behind a Yugoslav-style Marxism. According to Pavlowitch, the seeds of Tito's long-term failure lay in his short-term successes, and the style and substance of his regime provided little more than transient unity. This study of one of the most influential leaders of the twentieth century, and one of the least understood, is especially valuable today since the collapse of communism and the breakup of Yugoslavia have called into question Tito's motives, directions, and achievements. General readers and students alike will find it a stimulating guide to the historical continuity of Eastern Europe and the situation there today.

**Tito's Secret Empire** William Klinger, Denis Kuljis, 2022-05-01 This groundbreaking biography of Marshal Tito of Yugoslavia presents many startling new revelations, among them his role as an international revolutionary leader and his relationship with Winston Churchill. It highlights his early years as a Comintern operative, the context for his later politics as a leader of the Non-Aligned Movement (NAM). The authors argue that in the 1940s, between the dissolution of the Comintern and the rise of NAM, Tito's influence and ambition were far wider than has been understood, extending to Italy, France, Greece and Spain via the international Communist networks established during the Spanish Civil War. Klinger and Kuljiš

disclose for the first time the connection between Tito's expulsion from the Cominform and the Rome assassination attempt on the Italian Communist Party leader, Palmiro Togliatti--the man who had plotted to overthrow Tito. Tito's Secret Empire offers a pivotal contribution to our understanding of Tito as a figure of real, rather than imagined, global significance. This dazzlingly original book will reward all those who are interested in the history of international Communism, the Cold War and the Non-Aligned Movement, or in Tito the man--one of the most significant leaders of the twentieth century.

**The Dictators** Iain Dale, 2024-09-05 **\*\*IAIN DALE'S LATEST COLLECTION OF ESSAYS: AVAILABLE TO BUY NOW\*\***

Praise for Iain Dale: 'Riveting and enlightening. A history lesson via a novel route.' 'Really enjoying reading this book. It is easy to dip in and out and each chapter is well written.' 'Illuminating yet balanced' 'Were the signs that Putin is a ruthless dictator there all along? How should we deal with President Xi of China? Given the world seems to be moving more and more towards authoritarian rule, this is the right moment to seek warnings, and lessons, from history. In The Dictators, Iain Dale brings together 64 essays by historians, academics, journalists and politicians about elected and

unelected dictators, wartime and peacetime dictators, those driven by ideology and those with a reputation for sheer brutality. How did these tyrants, autocrats and despots seize power - and how did they exercise it? And how did they lose it? Very few dictators die peacefully in their own beds, after all. Only by examining these figures from the 6th century BC to the present, from ancient Greece to present day Saudi Arabia, do patterns start to emerge. We can see the shared character traits, the common conditions, the patterns of behaviour that have enabled dictators to seize power - time and time again. The Dictators is acutely relevant to world politics today: it is indeed a warning from history. Will we take heed? Or will history, in fact, teach us that history teaches us nothing?

**Mythistory and Narratives of the Nation in the Balkans** Tatjana Aleksić, 2007 The idea of this collection is to bring to the forefront various ways in which the literary poetics of Balkan nations interrelates with their national poetics, and present recent and innovative explorations of literature and film which actively engage with national poetics, a kind of mythopoiesis of the modern Balkans. In proposing an approach to the national question that lies distinctly in the liminal space best designated as mythistory, the collection brings together two dominant approaches to national discourse. The first tends to interpret the nation as a myth, an artificial creation, an invention, even a *oedream*. The other is a mapping of the nation that considers its historically progressive role. It is their multifaceted dynamics that brings to the foreground a unique national mythopoetics. Mythistory is explored through its multifold engagement with the text: as a major element in the universal nationalist discourse, as a narrative strategy extensively utilized in Balkan literary and film narratives, and as a particular technique in approaching the text. Through the insights gained from literary and critical theory, historical analysis, and cultural anthropology, this collection seeks to reveal the application of mythistorical discourse upon narratives

responding to nation-forming historical events. The texts in this collection articulate very distinct agendas of gender, identity, culture, philosophy, and aesthetics, all interwoven with national problematic, but steer away from the definition by which mythistory is relegated to the transparently propagandist.
