*One Word but Many Tongues* Matthew J. Motyka, 2016-11-28 This book recounts the author's spiritual transformation resulting from his encounter with new languages and cultures. This encounter allowed the author to transcend the boundaries imposed on him by the circumstances of his birth (born and raised behind the Iron Curtain during the Cold War). The fresh outlook on the world that emerged for him is the kind of radical shift that lies at the heart of all intense spiritual experiences, regardless of faith affiliation. His journey moves beyond the self to explore the domain of otherness in language, literature, and the arts. Ultimately, the author arrives at a spiritual place in which disparate, culture-bound realms blend—an expanse of acceptance, harmony, and peace.

**Algeria Revisited** Rabah Aissaoui, Claire Eldridge, 2017-03-09 On 5 July 1962, Algeria became an independent nation, bringing to an end 132 years of French colonial rule. *Algeria Revisited* provides an opportunity to critically re-examine the colonial period, the iconic war of decolonisation that brought it to an end and the enduring legacies of these years. Given the apparent centrality of violence in this history, this volume asks how we might re-imagine conflict so as to better understand its forms and functions in both the colonial and postcolonial eras. It considers the constantly shifting balance of power between different groups in Algeria and how these have been used to re-fashion colonial relationships. Turning to the postcolonial period, the book explores the challenges Algerians have faced as they have sought to forge an identity as an independent postcolonial nation and how this process has been represented. The roles played by memory and forgetting are highlighted as part of the ongoing efforts by both Algeria and France to grapple with the complex legacies of their prolonged and tumultuous relationship. This interdisciplinary volume sheds light on these and other issues, offering new insights into the history, politics, society and culture of modern Algeria and its historical relationship with France.

The Romantic and Transcendental Quests of Ralph Waldo Emerson and Victor-Marie Hugo Regina Moeller Young, 2003

This study demonstrates that there is a substantial philosophical congeniality between Ralph Waldo Emerson and Victor Hugo which has so far gone unnoticed. It shows many striking affinities, offering a fresh perspective on both authors. It examines how both Emerson's and Hugo's ideas and perceptions grew out of 19th-century Western ideology, as well as their personal psycho-physiological experiences of the world. In arguing for an understanding of Hugo as a Gallic Transcendentalist, this comparative study corrects one popular image of the French writer, that of a moody, eccentric megalomaniac and superficial trifler. as well as socio-historical backgrounds, it examines specific, authentic 19th-century articles from French and American journals in order to shed light on what critics had to say about the foreign poet. There is also a collection and analysis of Emerson's never-written French traits, Emerson's perceptions of the French as a nation as expressed in his journal entries. The study then gives a detailed analysis of Emerson's and Hugo's main affinity - their Transcendentalist cosmology.
