**Victor J. Danilov**

**The Getty Villa** Marion True, Jorge Silvetti, 2005 The original Getty Museum, housed in a replica of a Roman Villa on a site overlooking the Pacific Ocean, is one of Los Angeles's most treasured landmarks. Closed for almost ten years while renovations were made to the building and the site itself was transformed into a center for the study of antiquities and conservation, the Getty Villa is now set to open late in 2005. The Getty Villa is a lively history of the Getty Museum, its renowned antiquities collections, and its growth from a small museum in a ranch house in Malibu to its first home in a building designed to replicate what we know of the Villa dei Papiri, an ancient Roman villa partially uncovered in Herculaneum. Most engagingly, this book records the ten-year adventure in reconfiguring a beautiful, but topographically challenging, site into one that could continue to accommodate the splendid Museum building and also provide for an outdoor theater, laboratories for conservation work and research, offices for staff and visiting scholars, and an education program for adults and children. This is a story of architectural imagination, geographical challenges, and legal hurdles, all of which have resulted in a truly unique and beautiful site. The story is an enlightening and rewarding one for anyone interested in architecture and in the difficulties posed by building on a grand scale in the twenty-first century. Beautifully illustrated throughout, the book includes 250 reproductions of works of art, photographs of both the old and the new Getty Museum, site plans, and architectural elevations.

**Seeing the Getty Villa** Kenneth D. S. Lapatin, 2005 This beautiful souvenir book captures the visual delights, both man-made and natural, of the newly renovated Getty Villa, set to reopen in 2005. More than seventy color photographs artfully record the stunning architecture and grounds of the Villa. Visiting the new Villa will reap numerous aesthetic rewards, for all the senses. Seeing the Getty Villa will surely reward the visual one. The book is a tour guide in image and text, taking readers into and through the site, beginning with the cobblestone Roman road and the dramatic new entranceway, and then into the Museum entry court and sun-filled atrium. The visual narration continues into the refurbished Museum building, with stops for readers to admire the galleries of Greek, Roman, and Etruscan works of art before perusing the landscaped gardens, fountains, wall paintings, mosaics, and newly built outdoor amphitheater. In sum, the lush pictures and concise words compose a portrait of a place that will enchant and surprise. Seeing the Getty Villa will appeal to lovers of architecture, photography, and ancient art and will make a lovely gift book as well.

**Inside the Getty** William R. Hackman, Mark Greenberg, 2008 The J. Paul Getty Trust is an internationally renowned philanthropic and cultural institution spread over two sites: the Getty Villa in Malibu and the Getty Center in Brentwood. Each houses a museum and offices for the four Trust programs, and all are part of legendary oilman J. Paul Getty's legacy. Inside the Getty takes readers on a tour into these two large, bustling campuses: from J. Paul Getty's original museum in his home near Malibu to the seemingly endless corridors that run underneath the Getty Center in Los Angeles; from the galleries and storerooms of the J. Paul Getty Museum to the library and special collections of the Getty Research Institute; from the scientific laboratories of the Getty Conservation Institute to the worldwide philanthropy of the Getty Foundation; and from the public places and programs of the J. Paul Getty Trust to the secret spaces and stories of this landmark organization. A must-have for visitors, Inside the Getty will educate and delight anyone interested in how a complex institution operates on a day-to-day basis.

Gardens and Plants of the Getty Villa Patrick Bowe, Michael D. DeHart, 2011 Gardens and Plants of the Getty Villa is the long-awaited companion volume to Plants in the Getty's Central Garden published in 2004. In the first part of the book, garden historian Patrick Bowe explores the design, planting, and uses of the ancient Roman garden and describes how J. Paul Getty's vision to create such a garden in California was brought to reality. The second part includes a sumptuously illustrated guide to the plants in each of the five gardens at the Villa. Bowe introduces each of the gardens, describing the underlying concepts and the relationship to the ancient Roman models as well as their architectural and sculptural elements present. He also documents how plantings have been renewed in light of new knowledge emerging from excavations conducted in the Roman gardens of Pompeii and Herculaneum. Horticulturist Michael DeHart provides informative descriptions of the growing habits and characteristics for each of the plants, citing medicinal, culinary, and ritual uses for many of them.

**Seeing the Getty Gardens** Jeffrey Hirsch, J. Paul Getty Museum, 1998

**Building the Getty** Richard Meier, 1999-09-28 This book provides a fascinating history of the planning, design, and construction of the six-building Getty Center in Los Angeles, one of the great cultural complexes to be built in our time. Writing with wit and passion, Richard Meier takes us behind the scenes of the thirteen-year-long, one-billion-dollar project.

*The Architecture of Influence* Amanda Reeser Lawrence, 2023-11-21 How do we create the new from the old? The Architecture of Influence explores this fundamental question by analyzing a broad swath of twentieth-century architectural works—including some of the best-known examples of the architectural canon, modern and postmodern—through the lens of influence. The book serves as both a critique of the discipline's long-standing focus on genius and a celebration of the creative act of revisioning and reimagining the past. It argues that all works of architecture not only depend on the past but necessarily alter, rewrite, and reposition the traditions and ideas to which they refer. Organized into seven

chapters—Replicas, Copies, Compilations, Generalizations, Revivals, Emulations, and Self-Repetitions—the book redefines influence as an active process through which the past is defined, recalled, and subsequently redefined within twentieth-century architecture.
