Planeación e Integración de los Recursos Humanos, 2a.ed. Martín González García, Socorro Olivares Orozco, Nancy Socorro González Olivares, 2014-10-21 Planeación e integración de los recursos humanos, segunda edición, propone partir de la concepción del hombre, visto a través de la diversidad y tensidad; las cuales son la esencia de la organización y el elemento que le concede personalidad y sentido. Por ello se analizan de manera sencilla y didáctica aquellos elementos que permiten entender las diversas etapas del proceso de planeación de recursos humanos y su respectiva integración. Parte de la idea que el éxito de toda organización depende de la capacidad de los recursos humanos para enfrentar los retos que se presentan en el mundo actual en todos sus aspectos; así como el efecto que tienen sobre aspectos económicos, políticos y sociales. En esta nueva edición se han agregado temas como la evaluación de personal, competencias en la administración de recursos humanos, información sobre la reforma laboral, todo con la finalidad de contribuir al desarrollo e implementación adecuados de los recursos humanos.

Plan de Desarrollo de Antioquia Antioquia (Colombia : Department). Departamento Administrativo de Planeación,1983

Asentamientos Urbanos Sustentables Y Resilientes Gian Carlo Delgado,2018 El presente libro reúne textos, escritos desde diferentes ópticas, que tienen como objetivo estimular el diálogo de saberes, conscientes de que la interdisciplina y la decolonización son los baremos de nuevas concepciones sobre las experiencias espirituales relativamente externas a la modernidad. El estudio riguroso de los sectores sociales históricamente marginados de la civilización moderna exige iniciar diálogos interdisciplinarios que construyan otras sociologías y antropologías que visibilicen formas de decolonización espiritual; a la par de esto, se precisan estudios sobre el contradictorio y discontinuo desarraigo de las mentalidades y prácticas de la secularización, ya que este proceso ha subyugado a diversos sectores sociales desde un pensamiento dualista. Las contribuciones aquí presentadas invitan a reflexionar cómo el pensamiento y las formas que toma la razón se gestan desde espacios estrechamente vinculados a prácticas tradicionales, espirituales y culturales. Diferentes formas de sentir-pensar-hacer –en donde la razón es solo un componente– están situadas, tiene una historia, una cotidianeidad y una ética. Esta obra busca esbozar formas interconectadas de pensamiento, presentando contribuciones de mujeres y hombres que articulan sus conocimientos desde la espiritualidad.--
