The New Media Book Dan Harries,2002 What will prove to be the lasting impact of New Media on film and television? What kinds of transformations of moving image media are really already under way? The term 'new media' has become an effective catch word both as a description of the digital delivery of media via the Internet, DVD, and digital television and as a reference to the newness such technologies have brought to media more generally. And yet the nature of this transformation has been over-hyped and too little understood. The New Media Book provides an accessible, critical intervention into the field of moving image studies and features 20 newly commissioned and thought-provoking essays in a format designed to be of wide use to a range of courses in digital media, film and television studies. The book is divided into

five thematic sections: Technologies, Production, Texts, Consumption, and Contexts and addresses how new media is both embracing and altering the existing media landscape. Topics discussed include the ways in which we interact with digital television, the changing methods of production, distribution, and exhibition within the media industry, and how the histories of traditional media have influenced the development of new media. The New Media Book examines the corresponding influences that 'traditional' media and 'new' media are having upon each other as well as revisiting central, continuing issues surrounding the moving image and the contexts in which all the media operate. The collected essays present and redefine these crucially important topics providing the most systematic analysis of both change and continuity in the contemporary media landscape yet published in the field of screen studies.

Child as Citizen Giuliana Fenech, 2025-08-15 Contributions by Daniela Brockdorff, Nina Christensen, Jill Coste, Katrin Dautel, Justyna Deszcz-Tryhubczak, Giuliana Fenech, Naomi Hamer, Irena Barbara Kalla, Anne Klomberg, Sonali Kulkarni, Elizabeth Leach-Leung, Ann Marie Murnaghan, Emily Murphy, Emilie Owens, Nicola Parker, Patrycja Poniatowska, Meg Rosoff, and Farriba Schulz *Child as Citizen: Agency and Activism in Children's Literature and Culture* addresses children's and young adult agency and activism across literature and culture, demonstrating how these forces influence child citizenship. Contributors to this volume highlight the agentic voices and activist practices that are growing across all spheres of young people's lives, as well as the challenges to active citizenship that children growing up in unjust sociopolitical contexts face. The volume is interdisciplinary and draws on the sociology of childhood, children's literature studies, youth culture studies, media, technology, and cultural studies, and Anthropocene, ecofeminist, and disability studies. Agency occurs in and around literature and storytelling, and this collection establishes how it is always influenced by identity as well as geopolitics; how it is both subjective and collective; how it is cultural and embodied; and how, like citizenship, it is not a static status but rather an ongoing negotiation. In this collection, contributors invite readers to consider agency as a system of relations between children themselves, between children and adults, children and institutions, and children and nation-states, as well as between children and the nonhuman. This book reviews the interconnectedness between these relationships and attempts to untangle some of the complications that emerge.

Bringing Words to Life Isabel L. Beck, Margaret G. McKeown, Linda Kucan, 2013-03-13 Exciting and engaging vocabulary instruction can set students on the path to a lifelong fascination with words. This book provides a research-based framework and practical strategies for vocabulary development with children from the earliest grades through high school. The authors emphasize instruction that offers rich information about words and their uses and enhances students' language

comprehension and production. Teachers are guided in selecting words for instruction; developing student-friendly explanations of new words; creating meaningful learning activities; and getting students involved in thinking about, using, and noticing new words both within and outside the classroom. Many concrete examples, sample classroom dialogues, and exercises for teachers bring the material to life. Helpful appendices include suggestions for trade books that help children enlarge their vocabulary and/or have fun with different aspects of words--
