

Storia Moderna Carlo Capra

Matteo Di Tullio, Anna Maria Stagno, Martino Lorenzo Fagnani

The Business of the Roman Inquisition in the Early Modern Era Germano Maifreda, 2016-11-18 Established in 1542, the Roman Inquisition operated through a network of almost fifty tribunals to combat heretical and heterodox threats within the papal territories. Whilst its theological, institutional and political aspects have been well-studied, until now no sustained work has been undertaken to understand the financial basis upon which it operated. Yet – as *The Business of the Roman Inquisition in the Early Modern Era* shows – the fiscal autonomy enjoyed by each tribunal was a major factor in determining how the Inquisition operated. For, as the flow of cash from Rome declined, each tribunal was forced to rely upon its own assets and resources to fund its work, resulting in a situation whereby tribunals increasingly came to resemble businesses. As each tribunal was permitted to keep a substantial proportion of the fines and confiscations it levied, questions quickly arose regarding the economic considerations that may have motivated the Inquisition's actions. Dr Maifreda argues that the Inquisition, with the need to generate sufficient revenue to continue working, had a clear incentive to target wealthy groups within society who could afford to yield up substantial revenues. Furthermore, as secular authorities also began to rely upon a levy on these revenues, the financial considerations of decisions regarding heresy prosecutions become even greater. Based upon a wealth of hitherto neglected primary sources from the Vatican and local Italian archives, Dr Maifreda reveals the underlying financial structures that played a vital part in the operations of the Roman Inquisition. By exploring the system of incentives and pressures that guided the actions of inquisitors in their procedural processes and choice of victims, a much clearer understanding of the Roman Inquisition emerges. This book is an English translation of *I denari dell'inquisitore. Affari e giustizia di fede nell'Italia moderna* (Turin: Einaudi, 2014).

The History of Environmental Resource Management in Europe Matteo Di Tullio, Anna Maria Stagno, Martino Lorenzo Fagnani, 2025-11-28 Bringing together a broad range of case studies from across Europe, this book explores practices implemented to promote the sustainable use of environmental resources from the 16th century until the turn of the 21st century. How and with what results environmental resources were managed in the past is one of the main topics of debate in rural and environmental history and archaeology. This book explores the dialogue between these fields, drawing upon new studies and comparisons between 'grammars', concepts, and research practices from both fields to promote an interdisciplinary approach to the study of the environment. The book provides a comprehensive overview and comparison of

the different practices of environmental resources management in Europe from the early modern period to contemporaneity, shedding light on a range of sustainability issues including land management, water supply, farming systems, and forestry. The interdisciplinary contributions in this volume provide original insight based on an analysis of written and material sources examining a range of different regions, including northern Italy, Slovenia, northern Spain, southern Spain, south-western France, and northern Romania. This book will be of interest to students and scholars of history and archaeology, as well as to those in research fields related to anthropology, sociology, environmental and agricultural sciences, and economics.

Authority, Gender, and Midwifery in Early Modern Italy Jennifer F. Kosmin, 2020-08-31 Authority, Gender, and Midwifery in Early Modern Italy: Contested Deliveries explores attempts by church, state, and medical authorities to regulate and professionalize the practice of midwifery in Italy from the late sixteenth to the late eighteenth century. Medical writers in this period devoted countless pages to investigating the secrets of women's sexuality and the processes of generation. By the eighteenth century, male practitioners in Britain and France were even successfully advancing careers as male midwives. Yet, female midwives continued to manage the vast majority of all early modern births. An examination of developments in Italy, where male practitioners never made successful inroads into childbirth, brings into focus the complex social, religious, and political contexts that shaped the management of reproduction in early modern Europe. Authority, Gender, and Midwifery in Early Modern Italy argues that new institutional spaces to care for pregnant women and educate midwives in Italy during the eighteenth century were not strictly medical developments but rather socio-political responses both to long standing concerns about honor, shame, and illegitimacy, and contemporary unease about population growth and productivity. In so doing, this book complicates our understanding of such sites, situating them within a longer genealogy of institutional spaces in Italy aimed at regulating sexual morality and protecting female honor. It will be of interest to scholars of the history of medicine, religious history, social history, and Early Modern Italy.

Italian Academies and their Networks, 1525-1700 Simone Testa, 2017-03-21 Italian Academies have typically been studied individually or in the context of specific cities, leaving an important lacuna in the scholarship on Italian culture and early modernity. Cutting across various disciplines, this volume traces the relationships of these Academies and explains how they prefigured networks like the République des lettres.

Historians of Early Modern Europe, 1961

Rome in the Age of Enlightenment Hanns Gross, 2004-04-22 This is the only scholarly work in the English language on the city of Rome in the Age of the Enlightenment, and the only book in any language to treat this fascinating city in all its multifarious aspects. Professor Gross combines extensive archival research with the latest findings of other scholars to produce a uniquely rounded portrait of the papal capital, elegantly illustrated with contemporary engravings by Piranesi and

others. The book is divided into two sections, in the first of which Professor Gross discusses the material and institutional structures of the city, including its demography, economy, food supply, and judicial systems. The second section considers aspects of intellectual, cultural, and artistic life. Professor Gross contends not only that ancien-regime Rome witnessed a decline in Counter-Reformation fervour, but that this decay resulted in a marked dissonance in the political, social, and cultural life of the city.

The Refugee-Diplomat Diego Pirillo,2018-12-15 The establishment of permanent embassies in fifteenth-century Italy has traditionally been regarded as the moment of transition between medieval and modern diplomacy. In *The Refugee-Diplomat*, Diego Pirillo offers an alternative history of early modern diplomacy, centered not on states and their official representatives but around the figure of the refugee-diplomat and, more specifically, Italian religious dissidents who forged ties with English and northern European Protestants in the hope of inspiring an Italian Reformation. Pirillo reconsiders how diplomacy worked, not only within but also outside of formal state channels, through underground networks of individuals who were able to move across confessional and linguistic borders, often adapting their own identities to the changing political conditions they encountered. Through a trove of diplomatic and mercantile letters, inquisitorial records, literary texts, marginalia, and visual material, *The Refugee-Diplomat* recovers the agency of religious refugees in international affairs, revealing their profound impact on the emergence of early modern diplomatic culture and practice.

Into Print Charles Walton,2011-01-01 The famous clash between Edmund Burke and Tom Paine over the Enlightenment's "evil" or "liberating" potential in the French Revolution finds present-day parallels in the battle between those who see the Enlightenment at the origins of modernity's many ills, such as imperialism, racism, misogyny, and totalitarianism, and those who see it as having forged an age of democracy, human rights, and freedom. The essays collected by Charles Walton in *Into Print* paint a more complicated picture. By focusing on print culture—the production, circulation, and reception of Enlightenment thought—they show how the Enlightenment was shaped through practice and

reshaped over time. These essays expand upon an approach to the study of the Enlightenment pioneered four decades ago: the social history of ideas. The contributors to *Into Print* examine how writers, printers, booksellers, regulators, police, readers, rumormongers, policy makers, diplomats, and sovereigns all struggled over that broad range of ideas and values that we now associate with the Enlightenment. They reveal the financial and fiscal stakes of the Enlightenment print industry and, in turn, how Enlightenment ideas shaped that industry during an age of expanding readership. They probe the limits of Enlightenment universalism, showing how demands for religious tolerance clashed with the demands of science and nationalism. They examine the transnational flow of Enlightenment ideas and opinions, exploring its domestic and diplomatic implications. Finally, they show how the culture of the Enlightenment figured in the outbreak and course of the French Revolution. Aside from the editor, the contributors are David A. Bell, Roger Chartier, Tabetha Ewing, Jeffrey Freedman, Carla Hesse, Thomas M. Luckett, Sarah Maza, Renato Pasta, Thierry Rigogne, Leonard N. Rosenband, Shanti Singham, and Will Slauter.
