How to Teach Literature Elizabeth McCallum Marlow, 2019-01-28 *How to Teach Literature: Introductory Course* provides a detailed resource for homeschool or conventional teachers and administrators interested in an in-depth study of the subject. This fourth and final book in this series of teaching guides includes information not found in literature anthologies such as the following: suggestions for cultivating a love for literature, detailed analyses of each work, questions for review, test questions with suggested responses, essay topics, audio-visual aids, internet resource materials, classroom handouts, and recommended books that enhance teaching. The author emphasizes two basic reasons for teaching literature: It is instructional and delightful. This book provides a comprehensive methodology for teaching the subject that a teacher could apply to one year's lesson plans without further investment in time. Other books in this series are entitled *How to Teach World Literature*, *How to Teach American Literature*, and *How to Teach British Literature*. www.teachclassiclit.com What do Truman Capote, O. Henry, and Homer have in common? They are all important writers happily included in Elizabeth Marlow's *How to Teach Literature: Introductory Course*. Elizabeth lifts the reader to experience the beat in Poe's writing, the stark descriptors in the work of Hemingway, the rhythm of Alfred, Lord Tennyson. She shows us that writing is not just a group of assembled words; it is a matrix of sound, color, meter, and imagery. For an English teacher, this is a helpful reminder and some fresh air. For a student, this is a gateway to the beauty and skill of great writing. To us all, this book is a way for the literature veteran to be challenged, and the newcomer to be lured into the wondrous world of literature. I wholeheartedly recommend this book. —John Baskam, middle school and high school English teacher at Covenant Christian Academy, Cumming, Georgia This is just the sort of guide I wish I'd had when I was homeschooling my children. Elizabeth Marlow addresses both the big picture, which is the main goal of fostering a lifelong love for classic literature in students, and everyday practical concerns. Parents and teachers will find her trustworthy in her mature spiritual grounding, her impeccable literary taste, and her wealth of experience gained from decades of teaching literature in a Christian school. The book is well organized and thorough, and her witty, down-to-earth writing style makes it a pleasure to read. —Marcelle Tuggle, veteran homeschool mom

Children's Literature Studies Linda C. Salem, 2005-11-30 This supplement to standard children's literature textbooks

will be a help to instructors as they engage their students in discussions about selection of materials, censorship, dealing with curricular issues, the need to understand administrative policies, community beliefs, and their responses to these issues. It is designed to help instructors discuss books in ways that inspire collegiality, collaboration, and scholarship in book evaluation and selection. Using actual case studies, resource reviews and/or scenarios of censorship, religion, violence, ethnicity and other issues, the instructor will be able to encourage discussion and reflective thought about real issues faced by teachers and librarians as they select materials for classroom or school library use. Guides for possible resources for help in researching situations will be included. This will prove a very valuable resource in teaching children's literature courses in schools of education and library schools, and useful to practicing teachers and librarians as well. Though the book is slanted toward the use of books as classroom materials, it will be a valuable asset to a school library's professional collection and certainly valuable to the training of pre-service teachers and school librarians. Each chapter begins with a bibliographic essay that introduces the topic to the reader. The essay is designed as a starting point for further discussion and research. A list of references for each chapter is provided at the end of the chapter. These references represent sources teachers can use to conduct further research to find multiple perspectives about books.
