Terrorist's Creed R. Griffin, 2012-09-19 Terrorist's Creed casts a penetrating beam of empathetic understanding into the disturbing and murky psychological world of fanatical violence, explaining how the fanaticism it demands stems from the profoundly human need to imbue existence with meaning and transcendence.

Beyond Happy Mark Fabian, 2025-04-10 'A brilliant read... a gamechanger' Paul Ross, Talk Sport 'Essential reading... Written with clarity, vivacity and depth' Manda Scott A comprehensive guide to cultivating wellbeing, combining cutting edge science and primordial folk wisdom. Beyond Happy explores how evolution has wired us to keep happiness just out of reach, leaving us perpetually stuck on a happiness treadmill. Instead of striving to escape it, the book argues, we should focus on making the treadmill a place we want to be. Finding this wellbeing begins with listening to our emotions, discovering intrinsic motivation and pursuing our authentic values. Fabian coaches you through this process of self-actualisation. Wellbeing, however, is not solely an individual pursuit – it is something we cultivate together. Most profoundly, Beyond Happy shows the way out of nihilism – the pervasive sense that life on the treadmill is purposeless and incoherent. To escape this despair, we must develop a moral compass. To heal the toxicity of our acrimonious politics, we need to rediscover the joy of sharing and celebrating what we love. Delivered with an entertaining mix of academic precision, a podcaster's knack for storytelling, and the down-to-earth panache Australians are known for, Beyond Happy is a one-stop shop to everything you need to know about the good life.

The Brothers Karamazov Fyodor Dostoyevsky, 1922

Thriving in the Face of Mortality Daniel B. Hinshaw, 2023-01-27 Kenosis, a Greek word meaning depletion or emptying and a concept borrowed from Christian theology, has deeply profound implications for understanding and ordering life in a world marked by suffering and death. Whereas the divine kenosis was voluntary, human beings experience an involuntary kenosis which is characterized by the inevitable losses experienced during the lives of mortal creatures. How one chooses

voluntarily to respond to this involuntary kenosis, regardless of faith commitments, in effect defines us, both in our relationships with other suffering creatures and with the entire cosmos. This book offers a unique perspective on how the losses of involuntary kenosis choreograph the suffering which is such a defining aspect of the lives of persons, communities, and the environment in which they live, and how the kenotic process, rather than being a source of despair, can be a source of hope presenting opportunities for extraordinary personal growth.

The Brothers Karamazov Fyodor Dostoevsky, 2002-06-14 Originally published in 1990 by North Point Press.

Dostoevsky P. H. Brazier, 2016-06-02 As a writer and prophet Dostoevsky was no academic theologian, yet his writings are deeply theological: his life, beliefs, even his epilepsy, all had a role in generating his theology and eschatology. Dostoevsky's novels are riven with paradoxes, are deeply dialectical, and represent a criticism of religion, offered in the service of the gospel. In this task he presented a profound understanding and portrait of humanity. Dostoevsky's novels chart the movement of the human into death: either the movement through paradox and Christlikeness into Christ's cross (a soteriology often characterized by the apophatic negation and self-denial; what we may term the Mark of Abel) leading to salvation and resurrection; or, conversely, the movement of those who refuse Christ's invitation to be redeemed, and continue to fall into a self-willed death and a self-generated hell (the Mark of Cain). This eschatology becomes a theological axiom which he unceasingly warned people of in his mature works. Startlingly original, stripped of all religious pretence (some prostitutes and criminals might just have a better understanding of salvation than some of the pietistic, wealthy, and cultured classes), Dostoevsky as a prophet forewarned of the politicized humanistic delusions of the twentieth century: a prophet crying out through the wilderness.

Intercultural Dialogue Fred Dallmayr, 2015-01-12 Intercultural Dialogue: In Search of Harmony in Diversity offers a philosophical analysis of the issues surrounding cultural diversity and dialogical relationships among cultures as an alternative to "culture wars" and hegemonic globalization. It examines the ideas of dialogue and harmony as expressed in Daoism, Confucianism, Indian, and Ancient Greek philosophical traditions, as well as in contemporary European and Latin-American philosophies. Drawing on the works of Laozi, Confucius, Plato, Kant, and Gandhi, the book shows the importance of intercultural dialogue and the globalization of philosophy. It asserts that intercultural dialogue should have inter-philosophical global dialogue as its epistemological and ontological foundation. Intercultural philosophy elaborates on the conceptualization of philosophy as culturally embedded. Attention is paid to Bakhtin's dialogism and its contemporary elaboration in the phenomenology of indirect speech, synergic anthropology, and the theory of transculture. The book offers a critical analysis of world problems. Their possible solutions require a more dialogically-oriented and humane transformation of society, aiming for a cosmopolitan order of law and peace.

The Brothers Karamazov Fyodor Dostoyevsky, 2003-02-27 'The most magnificent novel ever written' Sigmund Freud
The murder of brutal landowner Fyodor Karamazov changes the lives of his sons irrevocably: Mitya, the sensualist, whose bitter rivalry with his father immediately places him under suspicion for parricide; Ivan, the intellectual, driven to breakdown; the spiritual Alyosha, who tries to heal the family's rifts; and the shadowy figure of their bastard half-brother, Smerdyakov. Dostoyevsky's dark masterwork evokes a world where the lines between innocence and corruption, good and evil, blur, and everyone's faith in humanity is tested. Translated with an Introduction and notes by DAVID McDUFF

The Trace of Judaism Val Vinokur, 2008 Recipient, 2008 Guggenheim Fellowship The defining quality of Russian literature, for most critics, is its ethical seriousness expressed through formal originality. The Trace of Judaism addresses this characteristic through the thought of the Lithuanian-born Franco-Jewish philosopher Emmanuel Levinas. Steeped in the Russian classics from an early age, Levinas drew significantly from Dostoevsky in his ethical thought. One can profitably read Russian literature through Levinas, and vice versa. Vinokur links new readings of Fyodor Dostoevsky, Isaac Babel, and Osip Mandelstam to the work of Levinas, to ask: How does Judaism haunt Russian literature? In what ways is Levinas' ethics as Russian as it is arguably Jewish? And more broadly, how do ethics and aesthetics inflect each other? Vinokur considers how the encounter with the other invokes responsibilities ethical and aesthetic, and shows how the volatile relationship between ethics and aesthetics--much like the connection between the Russian and Jewish traditions--may be inextricably symbiotic. In an ambitious work that illuminates the writings of all of these authors, Vinokur pursues the implications of this reading for our understanding of the function of literature--its unique status as a sphere in which an ethical vision such as that of Levinas becomes comprehensible.

Straussophobia Peter Minowitz, 2009-08-15 Straussophobia is a detailed, diversity-oriented defense of Leo Strauss and his followers against the false and often malicious charges that have been leveled by Shadia Drury and other critics,

including Tim Robbins, Anne Norton, Earl Shorris, and Nicholas Xenos. Devoting particular attention to Strauss's interpretations of Thucydides, Plato, Xenophon, Farabi, Machiavelli, Hobbes, Locke, and Carl Schmitt, the book also assesses the responsibility of Straussians—genuine and spurious—for the Iraq War.
