Medieval Buda in Context, 2016-06-10 Medieval Buda in Context discusses the character and development of Buda and its surroundings between the thirteenth and the sixteenth centuries, particularly its role as a royal center and capital city of the medieval Kingdom of Hungary. The twenty-one articles written by Hungarian and international scholars draw on a variety of primary sources: texts, both legal and literary; archaeological discoveries; architectural history; art history; and other studies of material culture. The essays also place Buda in the political, social, cultural and economic context of other contemporary central and eastern European cities. By bringing together the results of research undertaken in recent decades for an English-language readership, this volume offers new insights into urban history and the culture of Europe as a whole. Contributors are János M. Bak, Zoltán Bencze, Judit Benda, István Draskóczy, Antonín Kalous, István Kenyeres, Gábor Klaniczay, András Kubinyi, József Laszlovszky, Károly Magyar, Balázs Nagy, Szilárd Papp, James Plumtree, Martyn Rady, Valery Rees, Orsolya Réthelyi, Beatrix F. Romhányi, Enikő Spekner, Péter Szabó, Katalin Szende, András Vadas, András Végh, and László Veszprémy.

Budapest Mátyás Sárközi, 1997 Situated on both banks of the Danube, Budapest unites the hills of Buda and the flat area of Pest. Although it was the site of a Roman outpost in the first century, the city was not created until 1873, when the towns of Obuda, Pest and Buda were joined. The united city grew quickly as one of the two capitals of the Austro-Hungarian monarchy. Budapest only became the capital of Hungary when the country was proclaimed a republic in 1946. The city was the centre of a popular uprising against the Hungarian Communist regime in 1956. Today, about 2 million people, representing 20% of Hungary's population, live in this cultural, political, intellectual and commercial centre.

Fossils of the Carpathian Region István Fozy,István Szente,2021-12-22 A comprehensive review of the fossil record of the Carpathian Basin. Fossils of the Carpathian Region describes and illustrates the region's fossils, recounts their history, and tells the stories of key people involved in paleontological research in the area. In addition to covering all the important fossils of this region, special attention is given to rare finds and complete skeletons. The region's fossils range from tiny foraminifera to the Transylvanian dinosaurs and mammals of the Carpathian Basin. The book also gives nonspecialists the opportunity to gain a basic understanding of paleontology. Sidebars present brief biographies of important figures and explain how to collect, prepare, and interpret fossils. An excellently written scientific book. . . . The good illustrations are an incentive to start reading and dive into the wide area covered by two experts in their respective fields. . . . A rich source of otherwise not published background knowledge on the paleontology and geology of the region. —Christian A. Meyer, Natural History Museum, Basel Fossils of the Carpathian Region . . . is beautifully produced with high-quality color illustrations throughout and an exhaustive bibliography and index. . . . Highly recommended. — Choice This book fills a gap in the geological texts on the Carpathians, especially in Hungary, and offers a valuable wealth of geological-paleontological and scientific-historical information from the Ordovician to the Pleistocene. This extensive and relatively inexpensive work is an unrivaled recommendation for amateurs and amateur geologists / paleontologists. —Zentralblatt für Geologie und Paläontologie [translated from German]

Motherland and Progress József Sisa,2016-11-21 In the 19th century Hungary witnessed unprecedented social, economic and cultural development. The country became an equal partner within the Dual Monarchy when the Austro-Hungarian Compromise of 1867 was concluded. Architecture and all forms of design flourished as never before. A distinctly Central European taste emerged, in which the artistic presence of the German-speaking lands was augmented by the influence of France and England. As this process unfolded, attempts were made to find a uniquely Hungarian form, based on motifs borrowed from peasant art as well as real (or fictitious) historical antecedents. Motherland and Progress – the motto of 19th-century Hungarian reformers – reflected the programme embraced by the country in its drive to define its identity and shape its future.
