Liberty, Individuality, and Democracy in Jorge Luis Borges Alejandra M. Salinas, 2016-10-26 This book seeks to fill a double lacuna in Borges scholarship. For one, this scholarship has been largely developed through the lens of literary and cultural studies, and not by political theorists who bring a distinct disciplinary perspective into the reading of literary works. Secondly, mainstream interpreters have overlooked or have not analyzed enough Borges's political sympathies. This book does not evaluate if these sympathies are truthful to political and historical facts or philosophical theories; rather, she shows in which aspects and around which topics Borges finds inspiration and gives literary form to the political. His texts abound with concepts and events such as liberty, individuality, war, and revolution, and they deal with topics such as the legitimacy of authority, the limits of reason, and the principle of representation, among others. This book also addresses Borges's democratic sensitivity and his critique of populism and militarism as related to salient national and global historical events that inspired his works. Above all, it calls attention to Borges's belief in the pre-eminence of individual liberty, his rejection of political oppression, and his warning against civic indifference brought about by an isolated individualism. This book may be of interest to students and professors of politics, philosophy and literature. It may also interest literary critics and readers who want to approach Borges's works with a political rather than a literary or a cultural lens.

Southern Powers and Global Development Laura Trajber Waisbich, 2025-10-16 Responsibility and accountability are key concepts in global development, and no less so in the case of South-South cooperation (SSC). This book illustrates how donorship responsibility and accountability are being debated, negotiated and operationalised in the context of Southern rising powers' development cooperation. The book examines how Southern powers justify and improve the performance of their global development efforts to multiple audiences at home and abroad. Through a multi-site and multi-scalar tracing of diplomatic and domestic foreign policymaking processes in Brazil, China and India, the book depicts Southern powers' integration in the donorship regime where they simultaneously engage and contest existing donor accountability norms.

New Directions in Flânerie Kelly Comfort, Marylaura Papalas, 2021-11-29 This book distinguishes itself from previous scholarship by offering an inclusive and comprehensive treatment of urban walking from 1800 to the present. Divided into three sections—geography, genius, and gender—the introduction establishes the origins of the flâneur and flâneuse in early foundational texts and explores later works that reimagine flânerie in terms of these same three themes. The volume's

contributors provide new and global perspectives on urban walking practices through their treatment of a variety of genres (literature, film, journalism, autobiography, epistolary correspondence, photography, fashion, music, digital media) and regions (Europe, Asia, the Americas, Africa, the Middle East). This volume theorizes well-known urban characters like the idler, loungeur, dandy, badaud, promeneuse, shopper, collector, and detective and also proposes new iterations of the flâneur/flâneuse as fashion model, gaucho, cruiser, musician, vampire, postcolonial activist, video game avatar and gamer.

Todos os monstros da Terra Adriano Messias, 2022-09-27 Todos os monstros da Terra: bestiários do cinema e da literatura recompila a fantástica e prolífica fauna que habita nossa imaginação como espectadores e leitores. Por séculos, os bestiários foram compêndios sobre seres tanto naturais quanto fantásticos. Sua ideia, porém, ainda permanece conosco na forma das tantas monstruosidades que povoam as páginas dos livros e as telas da ficção. Adriano Messias, pesquisador e escritor, foi premiado com o Prêmio Jabuti de Comunicação com esta obra, a qual também conta com uma versão em língua espanhola. O livro adentra o conceito e a delimitação do gênero fantástico, investigando uma ampla tradição em torno dos monstros. Desde a Antiguidade até nossos dias, o pesquisador nos mostra que essas criaturas que nos assustam e nos encantam podem ser entendidas como sintomas da cultura – pelo viés semiótico e pelo psicanalítico. Dessa maneira, mais do que apenas produto da criatividade, o monstruoso tem a força de demarcar processos políticos e culturais. Os corpos dos monstros, suas formas e funções nos revelam um alto nível de significação, mostrando-nos o que a sociedade oculta e marginaliza.

Retos del hispanismo en la Europa central y del este Luis Francisco Cercós García, Carmelo Juan Molina Rivero, 2007

Ficciones de Borges Antonio Fernández Ferrer, 2009 ¿Quién se negará hoy a considerar los textos de «Ficciones» entre las aportaciones literarias más significativas y desafiantes? El lector dispone en el presente volumen de un amplio repertorio de datos y análisis acerca de la génesis, características, confluencias o modificaciones de este impar artefacto borgiano, todo un propicio y vertiginoso laberinto de galerías incesantemente bifurcadas. En las siguientes páginas se pueden consultar pormenores acerca de asuntos tan singulares como el volumen XLVI de la enciclopedia pirática capaz de destruir nuestro mundo, algunos planos de la biblioteca de Babel, el inverosímil rostro de Funes el memorioso, la noche 602 en cuyo relato corremos el riesgo de quedar abismalmente apresados, el inenunciable pero evidente “Secreto” de la Secta del Fénix, etcétera. También se incluyen cuentos olvidados que inspiraron las ficciones de Borges, así como el testimonio detallado de los significativos cambios que introdujo en sus textos a lo largo de más de treinta años. Antonio Fernández Ferrer, profesor de la Universidad de Alcalá, ha publicado ediciones de Eliseo Diego, Antonio y Manuel Machado, Raymond Queneau y Salarrué; antologías como «Borges A/Z, La mano de la hormiga (los cuentos más breves del mundo)» y «La isla infinita de Fernando Ortiz». En general, sus publicaciones (entre ellas, el libro titulado «La inexistencia de la literatura hispanoamericana») y actividades suelen tratar, entre otros temas, acerca de crítica textual, literaturas hispánicas,

tradiciones afro-americanas (con atención especial a Lydia Cabrera), artes plásticas o cine (Buñuel).

Ageing with Smartphones in Urban Brazil Marília Duque, 2022-04-21 With people living longer all over the world, ageing has been framed as a socio-economic problem. In Brazil, older people are expected to remain healthy and autonomous while actively participating in society. Based on ethnographic research in São Paulo, Ageing with Smartphones in Urban Brazil shows how older people in a middle-class neighbourhood conciliate these expectations with the freedom and pleasures reserved for the Third Age. Work is what bonds this community together, providing a sense of dignity and citizenship. Smartphones have become of great importance to the residents as they search for and engage in new forms of work and hobbies. Connected by a digital network, they work as content curators, sharing activities that fill their schedule. Managing multiple WhatsApp groups is a job in itself, as well as a source of solidarity and hope. Friendship groups help each to download new apps, search for medical information and guidance, and navigate the city. Together, they are reinventing themselves as volunteers, entrepreneurs and influencers, or they are finding a new interest that gives their later life a purpose. The smartphone, which enables the residents to share and discuss their busy lives, is also helping them, and us, to rethink the very representation of ageing.

Lire Borges aujourd'hui Roland Béhar, Annick Louis, 2016 L'œuvre de Borges n'est pas seulement un objet de recherche, elle est aussi un objet d'enseignement aux défis particuliers. L'incorporation de Ficciones (1944-1956) et de El Hacedor (1960-1974) aux programmes de concours français a été l'occasion de proposer une réflexion sur les problèmes spécifiques à ces ouvrages lors d'une première lecture. Les inscriptions et les déclinaisons de la figure d'auteur font l'objet d'une étude par R. Lefere, dont le travail a permis de saisir la complexité et l'originalité de la proposition borgésienne. Le rêve et le songe dans leur double dimension thématique et opératoire sont abordés par R. Spiller, qui mène une étude sur la question dans l'ensemble de l'œuvre borgésienne. M. Blanco analyse la figure du théologien dans l'œuvre de Borges, notamment dans son rapport avec l'image de l'auteur. L'érudition borgésienne est ici abordée du point de vue de la réception par A. Louis. Les dimensions poétique et politique de El Hacedor sont envisagées respectivement par I. Salazar et par Ch.

Larrue. R. Béhar revisite la présence de Franz Kafka dans la fiction borgésienne, revenant sur les modes spécifiques de cet hommage. Enfin, M. Covindassamy illustre la productivité toujours actuelle de l'écriture de Borges telle qu'on peut la constater chez W. G. Sebald. Ce livre met en évidence la puissance de l'écriture borgésienne et de ses conceptions, en particulier de la lecture comme fondement de la création littéraire.
