Diversity of Sacrifice Carrie Ann Murray, 2016-05-09 The term sacrifice belies what is a complex and varied transhistorical and transcultural phenomenon. Bringing together scholars from such diverse fields as anthropology, archaeology, epigraphy, literature, and theology, *Diversity of Sacrifice* explores sacrificial practices across a range of contexts from prehistory to the present. Incorporating theory, material culture, and textual evidence, the volume seeks to consider new and divergent data related to contexts of sacrifice that can help broaden our field of vision while raising new questions. The essays contributed here move beyond reductive and simple explanations to explore complex areas of social interaction. Sacrifice plays a key role in the overlapping sacred and secular spheres for a number of societies in the past and present. How religious beliefs and practices can be integral parts of life on individual and community levels is of fundamental importance to understanding the past and present. In addition to aiding scholarly research, *Diversity of Sacrifice* enables students to explore this rich theme across Europe and the Mediterranean with clear discussions of theory and data.

Gabii through its Artefacts Laura M. Banducci, Mattia D'Acri, 2023-10-27 This book brings together 15 papers on objects from the excavations of the town of Gabii undertaken since 2007. Objects ranging from the pre-Roman to Imperial periods are examined using a mix of approaches, making an effort to be sensitive to excavation context and formation processes.

Most na Soči Miha Milnar, 2020 Most na Soči je ključno in najboljše raziskano arheološko najdišče v Zgornjem Posočju. Njegovo bogato preteklost že več kot poldrugo stoletje razkrivajo naključna odkritja in strokovna izkopavanja tako naselbinskih ostankov iz bronaste, železne in rimske dobe kot tudi pripadajočih grobišč. V tej knjigi so predstavljena novejša odkritja na levem bregu Idrijce, kjer je že od konca 19. stoletja znano obsežno grobišče iz železne dobe. Na njegovem severnem obrobju je bilo z izkopavanji Tolminskega muzeja v letih 2000–2016 na treh lokacijah – Pucarjev rob, Repelc in Lipičarjev vrt – odkritih skupaj 88 grobov. Največ jih je iz železne dobe, vmes je bilo tudi ducat grobov iz rimske dobe in en iz zgodnjega srednjega veka. V njihovi neposredni bližini so bili odkriti še sočasna žganinska jama in kamnit zidec, pod njimi pa naselbinski ostanki iz pozne bronaste dobe.

Pienza Charles Randall Mack, 2019-05-15 Pienza, a small hill town in north central Italy, represents one of the major architectural masterpieces of the Italian Renaissance. Starting in 1459, under the sponsorship of Pope Pius II, it was rebuilt into a model Renaissance cityscape. Renamed in the pope's honor, Pienza is both a monument to papal will and the high point in the career of the supervising architect, Bernardo Rossellino. Because its physical state has changed only slightly since the fifteenth century, Pienza offers us a unique opportunity to see a variety of building traditions (Roman, Florentine, Sienese) and theoretical positions (Brunelleschian and Albertian) combined in an almost perfectly preserved urban environment. The town, writes Charles Mack, is a Renaissance Williamsburg without the artificiality of restoration. Pienza, the first book-length treatment of the subject in English, traces the entire redevelopment of the community, from conception through construction, and establishes Pienza's place in the story of Renaissance architecture.

History of Art Horst Woldemar Janson, Anthony F. Janson, 2004 For forty years, this widely acclaimed classic has remained unsurpassed as an introduction to art in the Western world, boasting the matchless credibility of the Janson name. This newest update features a more contemporary, more colorful design and vast array of extraordinarily produced illustrations that have become the Janson hallmark. A narrative voice makes this book a truly enjoyable read, and carefully reviewed and revised updates to this edition offer the utmost clarity in contributions based on recent scholarship. Extensive captions for the book's incredible art program offer profound insight through the eyes of twentieth-century art historians speaking about specific pieces of art featured throughout. Significantly changed in this edition is the chapter on "The Late Renaissance," in which Janson offers a new perspective on the subject, tracing in detail the religious art tied to the Catholic Reform movement, whose early history is little known to many readers of art history. Janson has also rearranged early Renaissance art according to genres instead of time sequence, and he has followed the reinterpretation of Etruscan art

begun in recent years by German and English art historians. With a truly humanist approach, this book gives written and visual meaning to the captivating story of what artists have tried to express—and why—for more than 30,000 years.
