The Collector's Guide to Made in Japan Ceramics Carole Bess White, 1998 All-new Book Three is a companion volume with none of the pieces pictured repeated from the previous books. This highly informative guide distinguishes those 'Made in Japan' ceramics from other Japanese export ceramics such as Nippon, Noritake, and Occupied Japan. Over 650 beautiful color photographs together with a special section on marks and backstamps aid the collector in identifying and dating a collection. Special focus is given to the many styles, and different glazes, as well as reproductions to be aware of in the market. An unbelievable amount and variety of items are featured in this fun, colorful book - from ashtrays to wall pockets, figurines, pincushions, planters, souvenirs, bookends and much more. 1998 values. 8.5 X 11.

Re-made in Japan Joseph Jay Tobin, 1992-01-01 Colonel Sanders, Elvis, Mickey Mouse, and Jack Daniels have been enthusiastically embraced by Japanese consumers in recent decades. But rather than simply imitate or borrow from the West, the Japanese reinterpret and transform Western products and practices to suit their culture. This entertaining and enlightening book shows how in the process of domesticating foreign goods and customs, the Japanese have created a culture in which once-exotic practices (such as ballroom dancing) have become familiar, and once-familiar practices (such as public bathing) have become exotic. Written by scholars from anthropology, sociology, and the humanities, the book ranges from analyses of Tokyo Disneyland and the Japanese passion for the Argentinean tango to discussions of Japanese haute couture and the search for an authentic nouvelle cuisine japonaise. These topics are approached from a variety of perspectives, with explorations of the interrelations of culture, ideology, and national identity and analyses of the roles that gender, class, generational, and regional differences play in the patterning of Japanese consumption. The result is a fascinating look at a dynamic society that is at once like and unlike our own.

Japan's Strategic Challenges in a Changing Regional Environment Purnendra Jain,2012 Japan faces significant challenges in both traditional and non-traditional areas of national security policy as the economic resurgence of China and the loss of US hegemonic clout significantly transform the strategic landscape of the Asia-Pacific region. How is Japan coping with this new global and regional politico-security environment? What strategic moves has it taken to best position itself for the future to maximize its global and regional influence? More importantly, how is Japan perceived within the region by traditionally close regional partners such as the US and Australia, by supporters in Southeast Asia, and by new competitors OCo most prominently China and India? What international role do these nations wish Japan to play? In this comprehensive volume, these crucial questions are explored in-depth by a group of scholars both distinguished and diverse.

Japan's Evolving Foreign Policy Doctrine Bert Edström,2016-07-27 During half a century after the war Japan's economy was built up from scratch to the world's number two, while its foreign policy has been described by many as passive and even verging on being non-existent. As a contrast, this study evinces how the foundations of Japan's foreign policy were laid in the early postwar period, and how postwar policies have been characterized by pervasive continuity, guided by distinct national goals and expressed in clear-cut national role conceptions.

Pakistan-Japan Relations Ahmad Rashid Malik,2008-09-03 This book examines the complex nature of Pakistan-Japan relations, focusing on two key factors: economic interests and security concerns in the US-led global security system. Providing a thorough analysis of the history of relations between the countries, it also sets out future prospects for economic and diplomatic relations.
