The Nine Types of Leader James Ashton, 2021-01-03 SHORTLISTED: Business Book Awards 2022 - Leadership Find out what makes great leaders tick, learn what it takes to be credible and read about the things that they'd do differently if they had to do it all again. The Nine Types of Leader introduces some obvious and some not so obvious types of leader through stories, anecdotes and insight garnered from hundreds of encounters with world-class leaders. Featuring interviews with industry titans including Jean-Francois Decaux of JC Decaux, Michael Rapino of Live Nation, Zhang Ruimin of Haier, Gavin Patterson of Salesforce and Isabelle Kocher of Engie, it explores how the leaders of tomorrow will improve their game by borrowing from the very best of the nine types of leader that exist today. Renowned journalist, James Ashton assesses the strengths and weaknesses of each leadership type, highlighting where and when they are best deployed, whilst helping you identify who you are and how you can improve performance. As the world seeks to recover from drastic disruption and uncertainty and the most acute test of leadership in living memory, it projects how future leaders can learn from what has gone before.

The 9 Types of Leadership Beatrice Chestnut, 2017-01-31 The 9 Types of Leadership draws on the Enneagram, an amazingly accurate descriptor of personality, to help people in the workplace create more effective relationships, so they can be more productive and happy at the office. In the past few years, mindfulness and other approaches to self-awareness have begun to transform the American workplace. But while it is increasingly widely accepted in the business world that the most direct route to success lies in adopting practices that actively promote leaders' self-awareness, social skill, and "emotional intelligence," the best and most efficient path to developing a more conscious workforce often remains unclear. The Enneagram provides this pathway to greater self-awareness and social skillfulness. Like a GPS for social interactions, the Enneagram helps you orient yourself when you get caught up in people problems you don't know how to work your way out of. By providing extremely detailed and accurate descriptions of nine recognizable personalities, the Enneagram is an unmatched tool for business people to use to decode the mysteries involved in understanding why people do what they do, why we have conflicts with some people but not others, and how we can become aware of our blind spots. Most importantly, it can help leaders to know themselves in a deeper way so they can more effectively lead others and more powerfully model conscious behaviors for their direct reports.
