## Mia Flores,Olivia Flores

*Cartel Wives* Mia Flores,Olivia Flores,2025-04-08 An astonishing, revelatory, and redemptive memoir from two women who escaped the international drug trade, with never-before-revealed details about El Chapo, the Sinaloa Cartel, and the dangerous world of illicit drugs. Olivia and Mia Flores are married to the highest level drug traffickers ever to become US informants. Their husbands worked with--and then brought down--El Chapo, as well as dozens of high-level members of the Mexican cartels. They had everything money could buy: luxury cars, huge houses, and expensive jewelry--but they chose to give it all up when they cooperated with the US government. They knew that life was about more than wealth; it was about love, family, and doing what's right. *Cartel Wives* is a love story, a Married to the Mob story, an insider's look into the terrifying but high-flying empire of the new world of drugs, and, finally, the story of a major DEA and FBI operation.

**Trying to Make It** Rajeev V. Gundur,2022-08-15 Trying to Make It is R. V. Gundur's journey from the US-Mexico border to America's heartland, from America's prisons to its streets, in search of the true story of the drug trade and the people who participate in it. The book begins in the Paso del Norte area, encompassing the sister cities of Ciudad Juárez and El Paso, which has been in the public eye as calls for securing the border persist. From there, it moves on to Phoenix, which was infamously associated with the drug trade through a series of kidnappings. Finally, the book goes on to Chicago, which has been a lightning rod of criticism for its gangs and violence. Gundur highlights the similarities and differences that exist in the American drug trade within the three sites and how they relate to current drug trade narratives in the US. At each stop, the reader is transported to the city's historical and contemporary contexts of the drug trade and introduced to the individuals who have lived them. Drug retailers, street and prison gang members, wholesalers, and the law enforcement personnel who try to stop them offer readers a comprehensive look at how various illicit enterprises work together to supply the drugs that American users demand. Most importantly, through a combination of macro- and microlevel vantage points, and comparative analysis of three key sites in illicit drug operations, the stories in *Trying to Make It* remind us that the people involved in the drug trade, for the most part, do not deserve vilification. Far from being a seemingly uniform, widespread threat or an unlimited array of bogeymen and women, they are ordinary people, living ordinary lives, just trying to make it.

*El Chapo* Noah Hurowitz,2023-10-31 This is the true story of how El Chapo built the world's wealthiest and most powerful drug-trafficking operation, based on months' worth of trial testimony and dozens of interviews with cartel gunmen,

Mexican journalists and political figures, Chapo's family members, and the DEA agents who brought him down. Over the course of three decades, El Chapo was responsible for smuggling hundreds of tons of cocaine, marijuana, heroin, meth, and fentanyl around the world, becoming in the process the most celebrated and reviled drug lord since Pablo Escobar. El Chapo waged ruthless wars against his rivals and former allies, plunging vast areas of Mexico into unprecedented levels of violence, even as many in his home state of Sinaloa continued to view him as a hero. -- Amazon.

**Macro-Criminalidad: Complejidad Y Resiliencia De Las Redes Criminales** Eduardo Salcedo-Albaran, Luis J. Garay-Salamanca, 2015-05-20 Drug Trafficking, Corruption and States is cutting edge research. Garay Salamanca and Salcedo-Albaran, along with their contributing authors help document the transition from economic to political imperatives within transnational drug cartels. The break from the Zetas by La Familia Michoacana is one example contained in their empirical survey. Social Network Analysis is their tool for illuminating the varying dynamics of cartel-state inter-penetration and reconfiguration. In doing so they clearly discern between State Capture (StC) and Co-opted State Reconfiguration (CStR). As the drug wars and criminal insurgencies rage in the Americas and beyond, this seminal framework will facilitate efforts by scholars, law enforcement officials, intelligence analysts and policymakers to understand shifts in sovereignty, and to illuminate the mechanisms of transnational illicit networks and their interaction with the state.

*Drugs* John Baselmans, 2016-12-06 When we think of drugs, we immediately think of the old guard drugs like cocaine, heroin and hemp. Other than that, there are for some time synthetic drugs (XTC) made in many forms, colors and effects. We talk in this book about the ordinary old-fashioned drugs in the form of cocaine. We are going to expose what is behind and who are the true drug dealers. The old-fashioned drug is still the trade with which the super rich enrich themselves. Also, it is the elite who use a lot of this stuff. You can make it clear that most of the top in the business world, but also the politics and those who move into higher layers, are the permanent users of the cocaine stuff. Often in the most pure form and often used daily like a breakfast and dinner. But first I like to elaborate some things; what is cocaine and who are the driving forces behind these drugs according to world organizations of detecting drugs. Let's talk about drugs.
