The Poetics of Epiphany in the Spanish Lyric of Today Judith Nantell, 2019-11-15 Drawing on the poetry of four major voices in the Spanish lyric of today, Judith Nantell explores the epistemic works of Luis Muñoz, Abraham Gragera, Josep M. Rodríguez, and Ada Salas, arguing that, for them, the poem is the fundamental means of exploring the nature of both knowledge and poetry. In this first interpretive analysis of the epistemic nature of their poetry, Nantell innovatively engages these poets, each of whom has contributed one of their own poems along with a previously unpublished explication of their chosen poem. Each also provides an original biographical sketch to support Nantell's development of a poetics of epiphany. Published by Bucknell University Press. La mirada elíptica Luis Martín-Estudillo, 2007 Partiendo de los mismos, nos acercamos a una poesía que lidia con un universo que se ha tornado elíptico: carente, como la elipse, de un centro único y claro; y expresado mediante elipsis, porque el discurso que lo constituye ha de omitir necesariamente los elementos correspondientes a lo que ahora no es sino un vacío epistémico que se cuela por las rendijas de la existencia hasta corroer toda confianza en tiempos presentes y futuros.
