The Cancer Question Profiteered or Cured? Advisory Book, Hudkins Publishing Ronald Hudkins, 2020-02-07 The whole purpose of this book is to introduce you to the corruption of American medical practices, the FDA, and the pharmaceutical medical monopoly that chose profit over cures. It reviews outright sabotaged and buried inventions that have been suppressed. You will learn in this book that many methods are available to treat and prevent cancer beyond chemotherapy, radiation, and surgery. Despite the success of natural therapies and good intentions, caring (doctors, practitioners, researchers, etc.) have been persecuted and suppressed by the government. You will find that American medicine has shunned multiple discoveries in favor of profitable orthodox cancer treatments limited to surgery, radiation, and chemo. The book is an expose of how the American Medical Association, FDA, and the Pharmaceutical Industry have discredited and blackmailed alternative, less expensive, less invasive, and, at times, more effective treatments.

Yet armed with the right tools and information, survivors can fend for themselves and get through even the toughest circumstances. Matthew Stein's *When Disaster Strikes* provides a thorough, practical guide for how to prepare for and react in many of life's most unpredictable scenarios. In this disaster-preparedness manual, he outlines the materials you'll need—from food and water, to shelter and energy, to first-aid and survival skills—to help you safely live through the worst. *When Disaster Strikes* covers how to find and store food, water, and clothing, as well as the basics of installing back-up power and lights. You'll learn how to gather and sterilize water, build a fire, treat injuries in an emergency, and use alternative medical sources when conventional ones are unavailable.
