I Am Not a Psychic! Richard Belzer, 2009-10-06 Comedy legend Johnny Leland has called in his chips. He's organizing a charity telethon and needs TV cop Richard Belzer to cohost. Not one to let down an old friend -- much less the guy who gave him his start in stand-up comedy -- The Belz gets ready to head out to Las Vegas for the headlining event when he receives a mysterious phone call. Twenty-six years ago, beautiful starlet Bridget Burgeon was found dead in her Hollywood apartment. Sleeping pills, the coroner ruled, but many questioned whether her relationship with handsome, up-and-coming California congressman Mark Kaye played a role. Kaye's death in a tragic auto accident put an end to any investigation but not to the speculation. Conspiracy theorists have been working overtime ever since, and Paul Venchus, an old newspaper colleague whom Richard hasn't seen in thirty years, claims to have made a breakthrough in the case. A well-known conspiracy theorist himself, The Belz can't resist hearing him out and agrees to meet. When Venchus turns up dead and a wacky, self-proclaimed female psychic shows up at his hotel in Vegas insisting that Belzer continue their investigation, he reluctantly relents. Relying on The Belz's TV cop know-how and celebrity status, they begin to piece together a series of mysterious deaths that, while rooted a quarter of a century in the past, present some very real dangers in the present. As the bodies start piling up, Belzer finds a legendary hit man hot on his trail and must utilize all of his talents not only to pull off a successful telethon but to solve one of our history's most scandalous conspiracies before his Vegas stint becomes his closing act.

Corporate Conspiracies Richard Belzer, David Wayne, 2017-05-09 From New York Times bestselling authors Richard Belzer and David Wayne comes a hard look at the wrongs done to us all by big business in America. Here is an explosive account of wrongful acts perpetrated, and the ensuing cover-ups inflicted upon us, by American corporations. The bestselling author team of Richard Belzer and David Wayne exposes the ways that the capitalist regime has got us under their thumbs—from the mainstream media and its control over us, to the trillions stolen by big banks and mortgage companies during the mortgage crisis, to the scams perpetrated by Big Oil and Big Pharma. The one common victim of all that corruption is the American public, and *Corporate Conspiracies* wants to do something about it. *Corporate Conspiracies* takes dead aim at those who take advantage of us little guys. Probably most disturbing is the book's examination of politics and capitalism teaming up against us—how politicians and lobbyists all have their hands in each other's pockets while stabbing us in the back, and how the well-established energy lobby—which is petroleum, natural gas, and coal—has played a dominant role in the shaping of US foreign policy for decades. Did you know that companies at times know that their products will kill people, but they do nothing, because it is actually cheaper to compensate the victims than it is to correct the problem? And did you know that the Pentagon is sending \$1.5 trillion of our tax dollars to their corporate buddies for a new fighter jet that is already superfluous? This book is guaranteed to make us all think twice about being enslaved and cheated by corporate America. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

UFOs, JFK, and Elvis Richard Belzer, 2009-09-09 The distinguished statesman of stand-up comedy tackles some of the biggest conspiracies and cover-ups this side of Roswell. “A must-read . . . You gotta love the Belz. . . . His sharp sense of humor doesn’t allow him to miss an opportunity for laughs.”—Playboy I’m not asking you to believe every single conspiracy

theory you find in this book. . . . I didn't write this book to give you all the answers. I wrote this book to inspire you to do what the powers that be wish you wouldn't: question authority . . . and to keep an eye out for Elvis Just what is it that they don't want you to know about the assassination of John F. Kennedy, Area 51, and what the American astronauts really found on the moon? The unexplained crash at Roswell and the mysterious "face" on Mars? The link between the Nazis and the U.S. space program? Evidence of extraterrestrial experimentation? Finally, one lone "nut" exposes the conspiracy to keep conspiracies a dirty little secret, standing up to the shadowy forces that would have us believe that Oswald acted alone, those lights in the sky are weather balloons, and fluoridated water is good for you (yeah, right). "Some of the smartest people I know . . . find it easier—and certainly more comforting—to believe that America is the only country on earth with no conspiracies at all." Just remember: do not ask on whom The Belz has told—he's told on them.

I Am Not a Cop! Richard Belzer,Michael Black,2008-10-14 IN THIS CAPTIVATING, OFTEN HILARIOUS DEBUT MYSTERY, ONE OF THE GREAT COMEDIANS OF OUR TIME BLENDS FACT WITH FICTION, AS LAW & ORDER: SVU'S RICHARD BELZER'S OFF-CAMERA PERSONA COMES TO LIFE ON THE PAGE, EMPLOYING INVESTIGATIVE KNOW-HOW AND COMEDIC TIMING IN EQUAL MEASURE TO SOLVE THE MYSTERY SURROUNDING THE DISAPPEARANCE OF A TRUSTED FRIEND. When Richard Belzer meets Rudy Markovich, nyc medical examiner, for dinner in Brighton Beach, he has little reason to expect anything more than a friendly bull session. How to Be a Stand-Up Comic Richard Belzer,

Hit List Richard Belzer, David Wayne, 2016-06-07 Richard Belzer and David Wayne are back to set the record straight after *Dead Wrong*; this time they're going to uncover the truth about the many witness deaths tied to the JFK assassination. For decades, government pundits have dismissed these "coincidental" deaths, even regarding them as "myths" as "urban legends." Like most people, Richard and David were initially unsure about what to make of these 'coincidences'. After all, events don't "consult the odds" prior to happening; they simply happen. Then someone comes along later and figures out what the odds of it happening were. Some of the deaths seemed purely coincidental; heart attacks, hunting accidents. Others clearly seemed noteworthy; witnesses who did seem to know something and did seem to die mysteriously. *Hit List* is a fair examination of the evidence of each case, leading to (necessarily) different conclusions. The findings were absolutely staggering; as some cases were clearly linked to a "clean-up operation" after the murder of President Kennedy, while others were the result of 'other forces'. The impeccable research and writing of Richard Belzer and David Wayne show that if the government is trying to hide anything, they're the duo who will uncover it.

Summary of Richard Belzer & David Wayne's *Dead Wrong* Everest Media, 2022-05-25T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 In 1975, the CIA admitted doping Olson with LSD that led to his suicide, and they settled out of court with the Olson family for \$750,000 precluding further investigation. #2 The death of Olson was a clear-cut case of National Security homicide. He had been interviewed by Military Intelligence, and he had informed his boss that he was quitting his job. He was drugged with LSD without his knowledge or permission, and then interrogated about his plans. #3 The CIA admitted that LSD was given to Olson without his knowledge or permission. The second autopsy found that the first autopsy report intentionally misrepresented the facts to make it appear like a suicide. #4 The CIA has drugged entire villages with LSD, and tested it on unknowing U. S. citizens right in the middle of Manhattan. They also used BW on civilians in North Korea.

Dead Wrong Richard Belzer, David Wayne, 2013-04-15 Have you ever heard the story on the news of a politician being “found dead” or “committing suicide,” and it seemed a little strange to you? You think, “There’s something they’re not telling me.” Well, after you read *Dead Wrong*, you’ll realize that your instincts were correct. For years the government has put out hits on people that it finds “expendable” or who it felt were “talking too much.” David Wayne is here to show you that not only were these people murdered, but that it was done by our own government! Find out how Marilyn Monroe was murdered, who really shot Martin Luther King Jr., and many other cover-ups throughout our country’s history. The extensive research and fact-checking done show how our government has taken matters into its own hands and has acted as though it were

comprised of assassins plotting murder however they saw fit. If you thought “big brother” was watching you, now realize that yes, you are being watched—and through the scope of a sniper rifle, at that. *Dead Wrong* will give you the straight facts on some of the most controversial cases this country has ever seen. You’ll quickly learn that what the government tells you is not always to be believed. It’s a scary truth, but it is a truth indeed. Richard Belzer is a stand-up comedian, actor, and author. He is currently cast and best known for his role as John Munch on the hit NBC show, *Law & Order: Special Victims Unit*. He has written such books as *UFOs, JFK, and Elvis* (2000) and the novels *I Am Not a Cop!* (2009) and *I Am Not a Psychic!* (2010).

Someone Is Hiding Something Richard Belzer, George Noory, David Wayne, 2015-02-17 A year after the disappearance and commencement of the international search for Malaysia Airlines Flight 370, no sign of the plane has been found—no debris, no bodies, no sign of the much-talked-about black box. Richard Belzer, George Noory, and David Wayne want to know why. Scrutinizing the theories the media and politicians claim are the “most likely” reasons the plane crashed, Belzer, Noory, and Wayne argue that if a year after a huge Boeing 777 has gone missing, and there’s still no sign of it whatsoever, it’s time to think outside the box. The public needs to stop being misled. If a plane and its passengers went missing once, what’s to stop it from happening again? Some of the theories the authors consider seem implausible on the surface, but the thorough research they’ve done and the continual failure of politicians, aviation authorities, and military members around the world to give any indication they’re wrong makes their arguments as good—if not better—than the more widely shared ones. The title of this thought-provoking volume, *Someone is Hiding Something*, is a line spoken by former Malaysian Prime Minister Mahathir Mohamad—perhaps the only government official to publicly acknowledge the true reason that neither Flight 370 nor the 239 people onboard have been found.
