Chamber Music John H Baron,2010-06-10 Chamber Music: A Research and Information Guide is a reference tool for anyone interested in chamber music. It is not a history or an encyclopedia but a guide to where to find answers to questions about chamber music. The third edition adds nearly 600 new entries to cover new research since publication of the previous edition in 2002. Most of the literature is books, articles in journals and magazines, dissertations and theses, and essays or chapters in Festschriften, treatises, and biographies. In addition to the core literature obscure citations are also included when they are the only studies in a particular field. In addition to being printed, this volume is also for the first time available online. The online environment allows for information to be updated as new research is introduced. This database of information is a live resource, fully searchable, and with active links. Users will have unlimited access, annual revisions will be made and a limited number of pages can be downloaded for printing.

Analyses of Nineteenth- and Twentieth-Century Music, 1940-2000 D. J. Hoek,2007-02-15 The latest volume in the Music Library Association's Index and Bibliography series, *Analyses of Nineteenth- and Twentieth-Century Music, 1940-2000*, features over 9,000 references to analyses of works by more than 1,000 composers of the nineteenth and twentieth centuries. References that address form, harmony, melody, rhythm, and other structural elements of musical compositions have been compiled into this valuable resource. This update of Arthur Wenk's well-known bibliography, last published in 1987, includes all the original entries from that work, along with additional references to analyses through 2000. International in scope, the bibliography covers writings in English, French, German, Italian, and other European languages, and draws from 167 periodicals as well as important theses, dissertations, books, and Festschriften. References are arranged alphabetically by composer, and include subheadings for specific works and genres. This bibliography provides students, scholars, performers, and librarians with broad coverage, detailed indexing, and ready access to a large and diverse body of analytical literature on nineteenth- and twentieth-century music.

Holberg Suite Edvard Grieg,1985-03 Aus Holbergs Zeit, Suite im alten Stil, Op.40 - now more commonly known as the Holberg Suite - was written in 1884 for the 200th anniversary celebration of playwright Ludvig Holberg's birth. Originally for

piano, the composer scored it for strings the following year, conducting the newly-completed arrangement at a March concert in Bergen. The Suite consists of a Prelude and four dances characteristic of the 18th century. The work was meant to capture the feel of the era of Holberg's lifetime and has become one of Grieg's most beloved and performed works, especially in the present setting for strings. This new edition by Richard W. Sargeant, Jr. has been thoroughly researched to bring you a beautiful score as the composer intended it.
