Dhimmis and Others Uri Rubin,David Wasserstein,1997 Islam has always had ambivalent relations with Judaism and Christianity, as also with Jews and Christians. The awkwardness of their character has been accentuated by the creation and perpetuation, on all sides, of partial and ill-intentioned images during the middle ages and by political developments in the modern period. Since the beginning of serious modern study of Islam in the west, these relations have found an important place in scholars' interest, partly because many of those in the west who have studied Islam have been Jews, with a natural attraction to an interest in those topics which affected Jews and other minorities in the Islamic environment. In this volume, we have tried to assemble a collection of papers which reflect something of the diversity of the problems offered by this range of relations. We have also attempted to reflect, in the variety of the papers and the topics discussed in them, the rich variety of approach adopted by scholars over the last century and a half of such study. Israel Oriental Studies has ceased publication with volume 20.
