

European Council Of Foreign Relations

Panos Koutrakos

European Foreign Policy Panos Koutrakos, 2011-01-01 Like early mariners, politicians and officials trying to navigate European foreign policy find themselves in an environment of unpredictable hazards hidden institutional shoals, and legal reefs that can tear the bottom out of a policy. This insightful collection of contrasted studies shines the twin beams of political science and legal analysis into these opaque depths. Practitioners as well as scholars will benefit from the illumination. Nick Witney, European Council on Foreign Relations and Former Chief Executive of the European Defence Agency, UK This collection on EU foreign policy is an attractive one for several reasons: it contains a very nice set of essays on a topic which has loomed large on the European Union agenda for some years, namely the international role of the EU. The chapters are written by a range of interesting and eminent scholars in the field. Most importantly in terms of its distinctive contribution, the book brings together perspectives from law and from political science. This is done in part by including chapters by authors from different disciplines but also by choosing cross-pillar themes and topics such as the European Neighbourhood Policy, EU policy on Kosovo, security and defence policy, as well as more general cross-cutting themes like the idea of coherence, the position of the EU within international organizations, and the approach of the EU to the international legal order. Each of the individual chapters is well worth reading, and the book as a whole is a useful and interesting contribution to the existing literature. Gráinne de Búrca, Harvard Law School, US Written by leading experts, this book focuses on central issues of the foreign policy of the European Union. The issues explored include: how the EU's judges understand its relationship with the international order; the coherence of the Union's external action; the EU's approach to its neighbours; the Common Security and Defence Policy; and, the EU's participation in international organisations. By addressing each topic from a legal, political science and international relations standpoint, this relevant book highlights the different perspectives that these disciplines bring to the central issues of the EU's foreign affairs, and starts a conversation between the respective communities. Scholars and students in European and international law, politics, and international relations will find this book insightful. It will also prove timely for policy-makers in the EU and international organisations, as well as think tanks and non-governmental organisations specialising in European affairs.

The SAGE Handbook of European Foreign Policy Knud Erik Jorgensen, Aasne Kalland Aarstad, Edith Drieskens, Katie

Laatikainen, Ben Tonra, 2015-04-30 During the last two decades the study of European foreign policy has experienced remarkable growth, presumably reflecting a more significant international role of the European Union. The Union has significantly expanded its policy portfolio and though empty symbolic politics still exists, the Union's international relations have become more substantial and its foreign policy more focused. European foreign policy has become a dynamic policy area, being adapted to changing challenges and environments, such as the Arab Spring, new emerging economies/powers; the crisis of multilateralism and much more. The SAGE Handbook of European Foreign Policy, Two-Volume set, is a major reference work for Foreign Policy Programmes around the world. The Handbook is designed to be accessible to graduate and postgraduate students in a wide variety of disciplines across the humanities and social sciences. Both volumes are structured to address areas of critical concern to scholars at the cutting edge of all major dimensions of foreign policy. The volumes are composed of original chapters written specifically to the following themes: · Research traditions and historical experience · Theoretical perspectives · EU actors · State actors · Societal actors · The politics of European foreign policy · Bilateral relations · Relations with multilateral institutions · Individual policies · Transnational challenges The Handbook will be an essential reference for both advanced students and scholars.

The European Council and the Council Uwe Puetter, 2014-09-18 This book offers one of the most comprehensive accounts of European Council and Council decision-making by covering two decades of European integration from the late 1990s until the years after the entering into force of the Lisbon Treaty. Case studies analyse the European Council, the Eurogroup, the Economic and Financial Affairs Council, the Foreign Affairs Council and the Employment, Social Policy, Health and Consumer Affairs Council as well as the role of senior coordination committees. Puetter provides a genuinely new perspective on the European Council and the Council, portraying the two institutions as embodying the new intergovernmentalism in European Union Governance. The European Council and the Council shows how post-Maastricht integration is based on an integration paradox. Member states are eager to foster integration but insist that this is done outside the community method. This especially applies to new prominent areas of European Union activity including economic governance, common foreign, security and defence policy as well as employment and social policy. This book explains how the evolution of these new areas triggered institutional change. Policy coordination and intergovernmental agreement are identified as the main governance mechanisms with the European Council and the Council at the centre of these processes. This book features a novel analytical framework - deliberative intergovernmentalism - to trace institutional change after the Treaty of Maastricht. Joint decision-making among member states is understood as non-legislative decision-making which is geared towards permanent consensus seeking and direct member state involvement at all stages of the policy process.

Negotiations in the EU Council of Ministers Sandrino Smeets, 2016-01-01 Insiders and outsiders agree; there is something particular about negotiating in Brussels. This book analyses ten years of continuous negotiations about EU enlargement to the Western Balkans, answering questions such as When and how are decisions typically reached in the European Union? What is this 'culture of consensus' that pervades negotiations in the Council of Ministers? And why are some member states more successful than others in making their voices heard? Using the metaphor of the Caucus race from Alice in Wonderland, Smeets' book offers a fresh perspective on the decision-making realities in Brussels' European Quarter. By providing unique empirical insight into behind-closed-doors debates, it explains the faltering accession process of the countries of former Yugoslavia. But most of all, it reveals the mechanism by which national interests are accommodated, so that deals can be reached between the member states.

An Introduction to European Foreign Policy Fraser Cameron, 2012-02-22 This text is the best introduction to the history, institutions, actors, processes and challenges of European Foreign Policy. This 2nd edition has been fully revised and updated to reflect the substantial changes to European Foreign Policy as a result of the Lisbon Treaty and other significant changes in European and global politics. New material for this edition includes: detailed analysis of the changes brought about by the Lisbon treaty including the new High Representative of the Union for Foreign Affairs and Security Policy and the new EU External Action Service changing transatlantic relations since the election of President Obama expanded discussion of the European and Security Defence missions in Afghanistan, Kosovo and elsewhere an assessment of the impact of the relations between the EU and its three strategic partners - China, India and Japan -as well as ASEAN and the new FTA with Korea evaluation of the global financial crisis on the EU, examining EU's external relations within the context of a rapidly changing global power structure. With clearly illustrated up-to-date case studies, covering major issues such as Egypt, Libya, Iraq and Iran, each chapter includes key questions and suggestions for further reading. As such, *An Introduction to European Foreign Policy* continues to be essential reading for all students of European and international politics as well as those who wish to become involved in the external relations of the EU.

Foreign Relations Federalism Thomas Verellen, 2023-04-15 How are foreign relations constitutionally structured in federal unions? How does the foreign affairs constitution of the European Union - itself a federal union in all but name - compare to that of other federal unions? *Foreign Relations Federalism: The EU in Comparative Perspective* addresses these questions. It offers a comparative analysis of the constitutional framework in which foreign relations are conducted in four federal unions: the United States, Canada, Belgium, and the European Union. The EU takes up a special position in the book. Over a decade since the Treaty of Lisbon entered into force, the EU's foreign affairs constitution continues to evolve. New institutional practices emerge and cases continue to be brought before the Court of Justice of the European Union. The pace of constitutional change is fast, and there is a sustained need for critical and constructive legal analysis of that change. By

comparing the constitutional experience of the EU to that of other federal unions, Foreign Relations Federalism contributes to fulfilling this need. It is a must-read for anyone interested in the EU's constitutional development, the role of the EU in foreign affairs, and the constitutional treatment of foreign relations in federal unions other than the EU.

The Foreign Policy of the European Union Federiga Bindi,2022-10-04 An all-inclusive, exhaustive evaluation of the foreign policy of the European Union Fourteen years ago the 2009 Lisbon Treaty put into place the legal and structural foundations for the European Union to play a role as a global actor. In the decade since, the EU itself has undergone intense political and economic stress, from debt crises to the rise of nationalist parties and the strains of Brexit. What effect have these changes had on the EU's foreign policy and its role in the world? This new edition of *The Foreign Policy of the European Union* offers an up-to-date and comprehensive examination of that question. The globe-spanning contributions to the book include a look at relations between Brussels and its regional neighbors, including Russia; the tensions that have arisen with the United States during the Trump administration; and the burgeoning relationship with China. How the EU is dealing with issues such as migration, terrorism, trade, and security round out the volume.

Intervening Better Mattia Toaldo,European Council on Foreign Relations,2016

A Global China Policy François Godement,2010 China, emboldened by the impact of the economic crisis on the West, is becoming a huge test for Europe's foreign policy. If it doesn't rethink its strategy, the EU will lose its already limited influence over Beijing. If it does, on issues ranging from climate change to the Dalai Lama, Europe can build coalitions with others affected by China's rise, and take advantage of the few areas where it has real leverage. China's assertiveness at the Copenhagen climate change talks achieved short term goals but endangered its long term interests, including the move towards a low carbon global economy. Europe can leverage its technological lead in this area and reach out to others alienated by Chinese tactics in Copenhagen, including Japan and key African countries. Iran's nuclear policy is an immediate and urgent security threat to the EU, and it must make this clear to China. Beijing needs to understand its actions on Iran affect Europe's core interests, and the EU can use carrots and sticks to achieve its ends. Mutual investment, technology and

industry are the next focus of EU-China relations. As China seeks to hedge its own financial holdings, its investments in Europe should be both encouraged and leveraged against a more open European access to China's finance, service and public procurement sectors. Europe needs to be consistent and persistent on human rights if it is to avoid China undermining its credibility on issues such as meeting the Dalai Lama. It must agree a minimal code of conduct on key issues and focus criticism on violations of China's own laws and international norms, including the use of the death penalty. These are the main conclusions of A Global China Policy, a policy brief by European Council on Foreign Relations China expert Francois Godement.--Publisher description.
