The Understanding of Ornament in the Italian Renaissance Clare Lapraik Guest, 2015-11-16 In this paradigm shifting study, developed through close textual readings and sensitive analysis of artworks, Clare Lapraik Guest re-evaluates the central role of ornament in pre-modern art and literature. Moving from art and thought in antiquity to the Italian Renaissance, she examines the understandings of ornament arising from the Platonic, Aristotelian and Sophistic traditions, and the tensions which emerged from these varied meanings. The book views the Renaissance as a decisive point in the story of ornament, when its subsequent identification with style and historicism are established. It asserts ornament as a fundamental, not an accessory element in art and presents its restoration to theoretical dignity as essential to historical scholarship and aesthetic reflection.

A Companion to the Neronian Age Emma Buckley, Martin Dinter, 2013-05-03 An authoritative overview and helpful resource for students and scholars of Roman history and Latin literature during the reign of Nero. The first book of its kind to treat this era, which has gained in popularity in recent years. Makes much important research available in English for the first time. Features a balance of new research with established critical lines. Offers an unusual breadth and range of material, including substantial treatments of politics, administration, the imperial court, art, archaeology, literature and reception studies. Includes a mix of established scholars and groundbreaking new voices. Includes detailed maps and illustrations.

Golden Excess Eric R. Varner, 2025-02-19 *Golden Excess: Art and the Aesthetics of the Incredible in Neronian Rome* is the first monograph to offer a full art historical synthesis of the rich archaeological and monumental evidence for Nero's remarkable principate. An outsized and innovative artistic program emerges, informed by aesthetics of excess, the grotesque and learned luxury, that rivals the cultural achievements of Rome's first emperor, Augustus and stands in stark contrast to the universally negative and disparaging accounts of Nero in ancient authors. Indeed, Neronian Rome witnessed an astonishing efflorescence in the arts whose lasting effects still resonate.

Ornament and Monstrosity in Early Modern Art Chris Askholt Hammeken, Maria Fabricius Hansen, 2025-10-01 Early modern art features a remarkable fascination with ornament, both as decorative device and compositional strategy, across artistic media and genres. Interestingly, the inventive, elegant manifestations of ornament in the art of the period often include layers of disquieting paradoxes, creating tensions - monstrosities even - that manifest themselves in a variety of ways.

In some cases, dichotomies (between order and chaos, artificiality and nature, rational logic and imaginative creativity, etc.) may emerge. Elsewhere, a sense of agitation undermines structures of statuesque control or erupts into wild, unruly displays of constant genesis. The monstrosity of ornament is brought into play through strategies of hybridity and metamorphosis, or by the handling of scale, proportion, and space in ambiguous and discomfiting ways that break with the laws of physical reality. An interest in strange exaggeration and curious artifice allows for such colossal ornamental attitude to thrive within early modern art.

Encyclopedia of the History of Classical Archaeology Nancy Thomson de Grummond, 2015-05-11 With 1,125 entries and 170 contributors, this is the first encyclopedia on the history of classical archaeology. It focuses on Greek and Roman material, but also covers the prehistoric and semi-historical cultures of the Bronze Age Aegean, the Etruscans, and manifestations of Greek and Roman culture in Europe and Asia Minor. The Encyclopedia of the History of Classical Archaeology includes entries on individuals whose activities influenced the knowledge of sites and monuments in their own time; articles on famous monuments and sites as seen, changed, and interpreted through time; and entries on major works of art excavated from the Renaissance to the present day as well as works known in the Middle Ages. As the definitive source on a comparatively new discipline - the history of archaeology - these finely illustrated volumes will be useful to students and scholars in archaeology, the classics, history, topography, and art and architectural history.
