**Gestión de Tesorería** Javier Santomá Juncadella, 2002 De las competencias básicas de la dirección financiera, la gestión de tesorería es una de las que está experimentando mayores cambios. La moneda única está provocando cambios fundamentales tanto en los sistemas de pago como en la organización de los departamentos financieros. La tendencia hacia la centralización de las tesorerías, la aparición de cuatro sistemas de compensación para pagos transfronterizos, los procesos de pagos electrónicos, la variedad de tarjetas de crédito, la incidencia de los nuevos sistemas de banca electrónica o de gestión integrada, son solo algunos de los aspectos que están liderando la renovación del departamento de tesorería.
