Leadership and Organizational Sustainability Elia Socorro Díaz Nieto, David Israel Contreras Medina, Roberto Tuda Rivas, 2023-06-27 The book presents a new type of leadership focused on sustainable human development and organizational sustainability, which is based on the self-realization of the person of the leader, which means the satisfaction of their needs, according to the scale of Abraham Maslow, through integral human development in all aspects of life. Because the term leader appears to refer to anyone with the authority to confer a position with subordinates, the reality within organizations has shown that a leader must go further and demonstrate commitment, awareness, and concern for the common good. Which person has these characteristics? People who have had more opportunity to develop in different areas of their being, resulting in them being conceived as more educated. The qualities in a person are the basis of leadership. Education and practice are much more important than all hereditary and genetic codes. This volume explores the various ways of making explicit the dimensions of social, economic, and environmental sustainability through knowledge management that addresses the identification, collection, processing, circulation, use, exchange, and preservation of knowledge within operating systems and the context of organizations, considering issues that contribute to sustainability - human and organizational - where the leader is the main actor and the means is knowledge management.

Human Resource Management R. Wayne Mondy, Robert M. Noe, 2005 A balance of practical and applied material which also underpins the crucial theoretical concepts that are being applied in today's human resources. For undergraduate/graduate courses in Human Resource Management.

Marketing internacional en América latina Harold Silva Guerra, 2021-01-06 Con un enfoque práctico, el lector puede introducirse en el mundo del marketing internacional. La metodología contempla tres aspectos esenciales que facilitan el aprendizaje: la teoría, los casos y los talleres producto de la experiencia del autor como docente de marketing internacional

por más de veinte años en la Escuela de Negocios de la Universidad del Norte en Barranquilla, Colombia. Los casos describen las problemáticas de las empresas latinoamericanas dedicadas al comercio internacional y las diferentes experiencias y barreras que han encontrado en el escenario internacional. Aunque se encuentran en una misma región, los casos de las empresas latinas contextualizan a los estudiantes y docentes sobre nuestros disímiles estilos de dirección y de la diversidad de nuestra cultura empresarial.
