Applied Marketing Rochelle Grayson, Daniel Padgett, Andrew Loos, 2021-06-21 Tomorrow's professionals need a practical, customer-centric understanding of marketing's role in business and critical thinking skills to help their organizations succeed. Applied Marketing, 1st Canadian Edition helps students learn practical, modern marketing concepts appropriate for the principles of marketing course by applying them to the latest business scenarios of relatable brands like This Bar Saves Lives and GoPro. This comprehensive yet concise text is co-authored by Professors Rochelle Grayson and Daniel Padgett and

practitioner Andrew Loos, and blends current academic theory with an agency-owner perspective to help students get an insider's look at how top businesses operate. With many Canadian specific examples created specifically for this course, students can relate concepts learned in the classroom to marketing topics and events taking place in their backyard.

Corporate Entrepreneurship and Innovation Paul Burns, 2020-02-15 Written by a highly regarded expert on entrepreneurship, this bestselling textbook provides an engaging and comprehensive overview of corporate entrepreneurship. Now in its fourth edition and fully revised throughout, this accessible text is structured in four key parts that cover everything a student needs to know about the topic. After an initial consideration of what constitutes corporate entrepreneurship and innovation, the author then guides students through the four pillars of entrepreneurial architecture: culture, structure, leadership and strategy. The third section focusses on the entrepreneurial mind-set, including how to encourage creativity, business ideas and developing concepts. Finally, the book draws attention to corporate venturing, examining venture teams, intrapreneurs, market development and the role of shareholder value. It is no longer sufficient for businesses to grow simply by cutting costs and taking over competitors. To achieve true success, organisations must avoid an ageing product or service portfolio to bring new, innovative ideas to market. Corporate entrepreneurship is inherently risky and therefore requires a fresh approach to strategy. The approach Paul Burns offers will successfully overcome barriers to launching new ideas, internal challenges of managing creativity and show how to foster an entrepreneurial culture. This is the go-to textbook for all students studying Corporate Entrepreneurship, Intrapreneurship or Corporate Venturing at undergraduate, postgraduate or MBA level. The book is also essential reading for courses on Strategic Entrepreneurship and Innovation. New to this Edition: - Fully revised and updated content throughout with new four-part structure - Brand new case studies in every chapter, featuring some of the world's highest profile companies from across the globe - A greater focus on innovation, including a new chapter on this topic at the start of the book - New chapters on 'Developing a Business Model', 'Managing Change' and 'Managing Risk' - New on-page glossary with key terms highlighted in the text and defined in the margins - New Activities and Group Discussion topics at the end of each chapter

Applied Marketing Daniel Padgett, Andrew Loos, 2021-05-07 Applied Marketing, 2e combines solid academic theory and practitioner experience to help students master the core concepts, gain experience applying marketing principles, and understand how top marketers operate in today's business world. By bridging the gap between marketing principles taught in the classroom and those applied by business professionals, Dan Padgett and Andrew Loos, an academic and an agency owner, offer students an insider's perspective on marketing principles. In addition, this course promotes student-centered learning with an entire chapter dedicated to marketing metrics (Chapter 13) and integrates a continuing case study on a socially conscious company, This Saves Lives, to help students apply their knowledge and develop their critical thinking skills.
