The Making of American Liberal Theology Gary J. Dorrien, 2006-01-01 In this first of three volumes, Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider, longer-running tradition than has been thought. The tradition took shape in the nineteenth century, motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism/atheism. It is defined by its openness to modern intellectual inquiry; its commitment to the authority of individual reason and experience; its conception of Christianity as an ethical way of life; and its commitment to make Christianity credible and socially relevant to modern people. Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time, including William E. Channing, Ralph Waldo Emerson, Horace Bushnell, Henry Ward Beecher, Elizabeth Cady Stanton, and Charles Briggs. Dorrien notes that, although liberal theology moved into elite academic institutions, its conceptual foundations were laid in the pulpit rather than the classroom.

A Measure of Failure Mark J. Garrison, 2009-09-10 How did standardized tests become the measure of performance in our public schools? In this compelling work, Mark J. Garrison attempts to answer this question by analyzing the development of standardized testing, from the days of Horace Mann and Alfred Binet to the current scene. Approaching the issue from a sociohistorical perspective, the author demonstrates the ways standardized testing has been used to serve the interests of the governing class by attaching a performance-based value to people and upholding inequality in American society. The book also discusses the implications that a restructuring of standardized testing would have on the future of education, specifically what it could do to eliminate the measure of individual worth based on performance.

The Evolution of the English House Sidney Oldall Addy, 2025-04-01 The Evolution of the English House (1933) discusses the popular and native art in domestic English architecture, tracing the changes over the years. The focus is on plain wattled huts and combinations of dwelling-house and cattle-stall, as well as the great villas and picturesque timber houses of the wealthy. In this way the author establishes how the masses of the English people lived in past times.
