

Moon Gods And Goddesses

Safiya Karimah

Devotions to the Moon Goddess Sirius Rising, 2018-03-22 This book is a celebration of the Great Mother Goddess in her celestial form. Who are the goddesses of the Moon and why would we want to adore them in today's world of high-technology? What is a lunar calendar and why is it more in touch with the modern human psyche than the solar calendar? This book addresses these important issues and allows the reader to engage with the Moon goddess on a daily basis. This is a practical guide to the female Moon deities that will assist the reader to attune her or his subconscious to the powerful yet compassionate forces that flow from the Moon. 30 short and easy to follow adorations allow the reader to communicate each day with a wide cultural range of female lunar deities, from Ancient Egypt to the powerful goddesses of the Aztec nation.

Gods, Goddesses, and Saints Barbara Carroll, 2015-12-15 Chanting exists in many religious and spiritual traditions. The practice of chant focuses the mind and body with simple physics of sound, while the choice of chant can reflect a specific need, or honor a tradition. *Gods, Goddesses, and Saints* is a user-friendly, in-depth guide to a solitary practice of chant and meditation, providing chants from many faiths, from pagan deities to saints from many religions. Beautifully organized in many different ways, this book encourages you to explore the resonance of important figures and their associations and meanings across many traditions. You will also find blank forms to help you create your own chants and meditations. *Gods, Goddesses, and Saints* provides a fresh view of spiritual practice and new ideas for the future of faith.

Moon Goddess Safiya Karimah, 2003-10 Moon Goddesses were worshipped all over the ancient world. They began in the Near East in 3,000 -2,000 B.C.E. and were known as the Queen of Heaven. Ancient Egyptians, Babylonians and Israelites all worshipped Moon Goddesses. Christian and Judaic holy days such as Easter and Passover were absorbed from the Moon Mother's rituals and ceremonies.
