Suggests many digital humanities approaches.

Writing Guide with Handbook Michelle Bachelor Robinson,Maria Jerskey,Toby Fulwiler,2021-12-14 Writing Guide with Handbook aligns to the goals, topics, and objectives of many first-year writing and composition courses. It is organized according to relevant genres, and focuses on the writing process, effective writing practices or strategies—including graphic organizers, writing frames, and word banks to support visual learning—and conventions of usage and style. The text includes

an editing and documentation handbook, which provides information on grammar and mechanics, common usage errors, and citation styles. Writing Guide with Handbook breaks down barriers in the field of composition by offering an inviting and inclusive approach to students of all intersectional identities. To meet this goal, the text creates a reciprocal relationship between everyday rhetoric and the evolving world of academia. Writing Guide with Handbook builds on students' life experiences and their participation in rhetorical communities within the familiar contexts of personal interaction and social media. The text seeks to extend these existing skills by showing students how to construct a variety of compelling compositions in a variety of formats, situations, and contexts. The authors conceived and developed Writing Guide with Handbook in 2020; its content and learning experiences reflect the instructional, societal, and individual challenges students have faced. The authors invite students and instructors to practice invitational discussions even as they engage in verbal and written argument. Instructors will be empowered to emphasize meaning and voice and to teach empathy as a rhetorical strategy. Students will be empowered to negotiate their identities and their cultures through language as they join us in writing, discovering, learning, and creating. This is an adaptation of Writing Guide with Handbook by OpenStax. You can access the textbook as pdf for free at openstax.org. Minor editorial changes were made to ensure a better ebook reading experience. This is an open educational resources (OER) textbook for university and college students. Textbook content produced by OpenStax is licensed under a Creative Commons Attribution 4.0 International License.

Brave to be Involved Yomna Mohamed Saber, 2010 Although Gwendolyn Brooks (1917-2004) was the first African American writer to win the Pulitzer Prize, she occupies a curious position in the larger black canon. Despite her importance, with the exception of very few critical accounts of her work, she has been usually treated in critical isolation from her black peers, be they male or female. Brooks's earlier stages were discarded by many black critics as works directed to white audiences, whereas black critics who became interested in her nationalist phase limited her to the Black Aesthetic perspective. Such approaches to Brooks's opus fail to do justice to her work which stood on equal footing with other groundbreaking works in terms of her pioneering themes and techniques. This book examines all of Brooks's stages while tracing the changes that marked her voice throughout. By comparing and contrasting her work to Richard Wright, Margaret Walker, Ralph Ellison, Lorraine Hansberry, Amiri Baraka and Sonia Sanchez, it becomes possible to highlight the distinct poetic legacy of Brooks. The aim of this book is to assess the extent to which Brooks participated in the black canon and to examine how far her realistic settings and individualised characters resulted in a poetry capable of providing accurate reflections of black life in America throughout five very vibrant decades.
