Research Anthology on Child and Domestic Abuse and Its Prevention Management Association, Information Resources,2022-03-11 Every day, both adults and children are victimized in unhealthy relationships. Domestic and child abuse have surged during the COVID-19 pandemic as potential escapes from abuse at home were stripped away. Abuse is a raging global issue; however, with enough research, policy, and social activism, society can aid in the prevention of child and domestic abuse. The Research Anthology on Child and Domestic Abuse and Its Prevention discusses the prevalence of domestic abuse as well as the exploitation of children both at home and beyond. It further presents emerging practices in technology, social work, and criminology to prevent the further exploitation and victimization of adults and children in abusive situations. Covering topics such as foster children, gender-based violence, and trauma analysis, this major reference work is an indispensable resource for social workers, lawmakers, government organizations, non-profit organizations, psychologists, therapists, sociologists, libraries, students and educators of higher education, criminologists, leaders in law enforcement, researchers, and academicians.

Cases on Communication Disorders in Culturally Diverse Populations Scott, Diane M.,2020-01-03 Communication disorders are impairments in the ability to receive, send, process, and comprehend hearing, language, and/or speech. While the number of culturally diverse populations is growing in the United States, speech-language pathologists and audiologists

lack information on serving these culturally diverse populations appropriately and effectively. Cases on Communication Disorders in Culturally Diverse Populations is an essential research publication that provides culturally-competent hearing, language, and speech services and cases across age groups, communication disorders, and culturally diverse populations. These case studies offer a practical and detailed means for assisting professionals in providing culturally-appropriate speech, language, and hearing services. Highlighting various topics such as counseling, language learning, and genetics, this book is indispensable for speech-language pathologists, audiologists, counselors, administrators, academicians, researchers, practitioners, and students.

Autism: The Movement (Sensing) Perspective a Decade Later Elizabeth B. Torres, Jonathan T. Delafield-Butt, Vikram K. Jaswal, Susan Crawford, Ashok Srinivasan, Brittany Travers, 2025-08-19 A decade ago, in 2013, the Research Topic Autism the Movement Perspective, proposed the radical idea that using movement and its sensations could help us better understand the many complex layers of autism spectrum disorders. Inspired by earlier work from other fields, the work positioned front and center approaches from neuromotor control, infusing the research with new computational ideas to study autism across the human lifespan. Through the lens of motor variability as a form of kinesthetic reafference, causal inference and predictive codes, the Research Topic brought together a group of researchers, parents, practitioners, and self-advocates to rethink autism as sensory motor differences contributing to the emergence of powerful coping mechanisms that advanced our understanding of how the human brain develops and functions. Today, with new improvements in biosensing technologies, and neuroscience, and the embodied and affective psychology on which development is based, we revisit this Research Topic, approaching autism anew through a modernized lens of precision aimed at enabling socio-motor agency.

Working with Children and Adolescents Janet V. DeLany, Margaret J. Pendzick, 2009 This book is a valuable resource for directing the clinical reasoning of occupational therapy assistants as they prepare to provide services to children and adolescents. Divided into 4 sections, this book explains best- practice occupational therapy services based on knowledge about occupations, occupation based and non-occupation based conceptual models, and the occupational development of children and adolescents. Through the use of multiple vignettes and case studies, the occupational therapy assistants learn how to implement interventions for children and adolescents who are experiencing specific health and learning challenges. Reflection and application questions at the end of each chapter reinforce text content. Occupational therapy assistant
