Blocher

Cost Management Edward Blocher, Kung H. Chen, W. Thomas Lin, 2002 This textbook offers strategic management topics in conjunction with traditional cost accounting material. Over the last decade, much research has been published that redefines the role of the cost accountant with the organisation. This research suggests that firms today are looking for accountants who understand the needs of management and can provide input in decision-making. The authors include discussions about strategy and decision-making, as well as research from prominent professionals such as Michael Porter and John Shank. The distinguishing features of this book are its strategic cost management framework and the emphasis on using cases.

Looseleaf for Cost Management: A Strategic Emphasis Edward Blocher, Paul Juras, Steven Smith, 2021-01-12 *Cost Management: A Strategic Emphasis*, by Blocher/Juras/Smith is dedicated to answering the question: Why Cost Management? The text is written to help students understand the broader role of cost accounting in helping an organization succeed - and not just the measurement of costs. While the text does include coverage of traditional costing topics (e.g., job-order costing, process costing, service-department cost allocations, and accounting for joint and by-products), its primary strength is the linkage of these topics, as well as more contemporary topics, to an organization's strategy.
